Duquesne Light Company  
Respondent

**NOTICE OF EXHIBITS**

Updated: September 3rd

I figured out a way to give everyone my exhibits lists. There are dozens of documents in the zip file that you can't easily convert into a PDF file. But you can create an online open folder in dropbox that everyone can access. I tried emailing the statement to the judge directly yesterday but your email system doesn't accept attachments. So here's the online link that anyone can see:

<https://www.dropbox.com/sh/pekc6zk2aq9kmb5/AAB7B9IshzoD5VsTTREJbX6Pa?dl=0>

(originally emailed to the judge on Sept. 2nd.)

I'm actually hoping that the case is settled before or during the hearing. It looks like I have the remaining 400 dollars, or close to it, and that combined with CAP payments that should pay whatever I have remaining on my arrears.

However, if not, I wanted to use past account statements and written bills to prove that I have been paying my bills over the last decade or so. And also the amounts of the bills that I usually have to pay.

I couldn't save the zip files as pdf files however so I'm emailing them to the judge instead. I could copy them three times each but that would seem redundant. And also something that the court could do for itself. It should be pointed out that Duq Light already has these documents in their possession because they were the ones who sent them to me.

I also couldn't login in to the PUC electronic filing system today on September 2nd. If your civil rules of procedure are anything lik the feds then I believe the deadline moves to the next day. I have included a copy of the error message.

(Statement with attachments didn't go through. Just trying to get this sent.)

9 - 3 - 2019

### **Certificate of Service**

I emailed a copy of this to opposing counsel but they should receive the electronic version that was filed as well. This was emailed on September 3rd.
