

BEFORE THE  
PENNSYLVANIA PUBLIC UTILITY COMMISSION

Dana Brennan :  
 :  
 v. : C- 2019-3007121  
 :  
 PPL Electric Utilities Corporation :

RECEIVED  
2019 AUG 28 AM 10:48  
PA PUC  
SECRETARY'S BUREAU

EXHIBITS & DOCUMENTS  
FOR HEARING SEPTEMBER 10, 2019

1. Awaiting answers to questions that have been provided to PPL Electric Utilities Corporation.
2. Exhibit A: PPL Electric Utilities Corporation diagram stating "What Yours? What's ours?" The diagram was made and published by PPL Electric Utilities Corporation. The diagram clearly shows what the responsibility of the homeowner is and what the responsibility of PPL Electric Utilities Corporation is. The items indicated in BLUE are the responsibility of PPL Electric Corporation and clearly shows that their responsibility ended once the electric meter was placed in the customers meter base, PPL never had at any time a responsibility to maintain the homeowner's breaker box, breakers or any of the wiring in the home. Therefore, PPL's invasion into the customer's home without consent is a violation of the customer's privacy. NOTE: A separate paper highlighting this fact is attached.
3. Document exhibit B:  
SUPREME COURT OF PENNSYLVANIA HOLDS THAT INDIVIDUALS HAVE A CONSTITUTIONAL RIGHT TO PRIVACY IN THEIR HOME ADDRESSES AND OTHER PRIVATE INFORMATION Pennsylvania State Education Association v. Commonwealth, 2016 Pa. Lexis 2337, 2016 WL 6087684, (Pa.Oct.18,2016) (PSEA)
4. Document exhibit C:  
2010 Pennsylvania code, Title 18-CRIMES AND OFFENSES, Chapter 57- Wiretapping and Electronic Surveillance 5702-Definitions.
5. Document exhibit D:  
18 U.S. Code 2511. Interception and disclosure of wire, oral, or electronic communications prohibited.
6. Document exhibit E:  
ELECTRONIC COMMUNICATIONS PRIVACY ACT. Enacted by the Untied States Congress.

**7. Document exhibit F:**

**SUPREME COURT LIMITS POLICE POWERS TO SEIZE PRIVATE PROPERTY**  
Feb. 20, 2019. The Supreme Court ruled that the Constitution placed a limit of the ability of STATES and LOCALITIES to take and keep cash, cars, homes, and private property used to commit crimes. PLEASE NOTE: Dana Brennan has not been involved in or accused of a crime. Therefore, it was improper and illegal for PPL to take any information from her home without due process of the law.

**8. CONSTITUTION OF THE UNITED STATES OF AMERICA, 1<sup>st</sup>, 3<sup>rd</sup>, 4<sup>th</sup>, and 14<sup>th</sup> Amendments**

Several of my Constitutional rights have been violated with the invasion of PPL Electric Utilities Corporation forcing themselves into my home without consent. Attorney Ryan had been made aware of this on numerous occasions but has continuously ignored my requests for answers. Additionally, there have also been violations of Pennsylvania laws regarding wire tapping, surveillance with electronic devices to include drones and are looked upon as a violation of privacy rights. Again, I received no answer to questions put forth to PPL Electric Utilities Corporation and Attorney Ryan. Therefore, I must consider this bias to say the least.

**9. ILLEGALLY TRESPASSING WITH NO CONSENT**

PPL is illegally gathering information from my home and property that they have a full intention of selling to profit for themselves. As the customer and property owner I have no say as to how the information would be gathered and to whom the information would be sold to which is a violation of me and my families Constitutional rights. Furthermore, individuals living in the home can be profiled and monitored from room to room, from knowing what the occupants are doing, if they are home or not, what is being watched on TV, if they are taking a shower, cooking, making coffee and what appliances they are operating, to include sex toys, opening electronic locks, turning on/off appliances including heating systems, burglar alarms, and more. This is a complete invasion of privacy and what used to be my freedom. Therefore, this information that PPL will be profiting from could be sold to unscrupulous individuals such as PEOPLE like Jeffrey Epstein to include child molesters and marketers. The highest bidder gets your information no questions asked. Followed by a flood of marketers trying to sell me unnecessary items I don't need.

It is also noted that with the smart meter homes can be readily hacked into which makes the home my family and I live in an unsafe environment. I don't need PPL to know when I go to bed, get up in the morning or when I go into the bathroom. The question is when did my Constitutional rights and other laws that protect my home stop? So PPL can now profit even more than they had in the past, once by selling me electric and then again by selling my private information. How did that become legal? I want to know what responsibility PPL Electric Utilities Corporation will take if my information falls into unscrupulous hands?

PPL Electric Utilities Corporation and Attorney Ryan were asked many questions pertaining to the above information, most of which they objected to and did not answer at all. PPL and Attorney Ryan avoiding answering questions only made this an uneven playing field and totally bias. Example: Attorney Ryan states that they could not answer the interrogatories because I stated "smart meter". Therefore, Attorney Ryan and PPL only attempted to confuse the subject by stating that I did not name the meter Landis & Gyr AMI E 350 Focus AXR-SD Meter. This is just game playing and besides Attorney Ryan could have gotten the meter information from PPL since they are the ones who installed the meter without consent after being told not to. Additionally, I do not have the protective garments, gloves and face shields that the meter installation technicians are required to wear to protect themselves from the radiation emitted by the meter. With the reputation that the so called smart meters have throughout this country and abroad I had no intention of getting anywhere close to the meter. However, the excuse given for not answering the question was asinine.

Since the installation of the so called smart meter we have had a circuit breaker burn up, the breaker was new and installed in a new breaker box with new wiring. We have also had electric bulbs getting overheated, TV's turning themselves off on a number of occasions, hot spots in the house with overheating in the lines, light fixtures overheating, a pool electrical cord burned out and the wires to the septic burned out. We have had a number of homes over the years and never experienced problems like these before. Other people have stated the same concerns with the installation of the smart meter. If there is a fire we have full intentions of suing PPL Electric Utilities for neglect in placing us in harms way. Our home is approximately 25 years old. We never had this type of problem in a house that was over 100 years old. Again, PPL Electric Utilities Corporation does not have permission to use our house wiring, breakers box, or anything else that is not PPL's responsibility to maintain or replace. This has been told to Attorney Ryan and PPL before. If PPL does not own it they can't use it. That's priority that I have as a homeowner. No one ever gave PPL permission to use anything that they do not own.

10. Donald Trump, The President of the United States, stated on August 1, 2019, that we have a Constitutional right to privacy. Why is my right to privacy being ignored by PPL Electric Utilities Corporation? This question is unanswered.

11. United States Representative, Kevin McCarthy, Congressman Majority House Leader. On 7/18/2019 Kevin McCarthy said that we are entitled to keep our information safe and maintain it ourselves. We are not the client, we are a product when they take our private information and sell it.

12. No security for my privacy. PPL Electric Utilities Corporation is incapable of keeping my information secure and private. Capital One bank Corporation was just breached, our Government, The Pentagon, The Military, Postal Service, Facebook, Equifax, and many

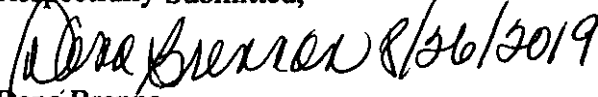

other's have been breached. Our Country has been breached by China and other countries and hackers over the years. Therefore, I do not believe PPL could be anymore secure than any of the above. Considering PPL have full intentions of selling the information they gather from my home they will have absolutely no control concerning my information or whatever they may gather from my home. Therefore, there's no security at all and my life becomes an open book to the highest bidder.

13. Document exhibit G:

NOTICE OF NON CONSENT February 10, 2019. 3 pages.

From the beginning I had respectfully requested to opt-out of the AMI Smart Meter (Landis & Gyr AMI E350 Focus AXR-SD Meter) and please have it replaced with an Analog meter.

Respectfully Submitted,

  
Dana Brennan
