Business Plan for Operations in Pennsylvania

Business Plans for Operations in the Commonwealth

Independent Energy Consultants, Inc. (IEC) employs Certified Energy Procurement Professionals (CEP) and Certified Energy Managers (CEM) with a long track record of success. Mark Burns, the President of IEC has obtained licenses in the states of Ohio, Illinois, Virginia and Texas, and is well versed in the rules for other deregulated markets.

IEC plans to expand its current consulting services to prospective natural gas customers in Pennsylvania. In addition to (i) commodity brokerage services IEC offers (ii) utility tariff analysis (iii) bill auditing (iv) energy accounting systems (v) facility audits, (vi) energy-efficiency recommendations and (viii) general energy-related consulting services.

As a broker/marketer, IEC will not take title to the natural gas it brokers. Furthermore, it will not invoice its clients for energy brokerage services. It will receive its compensation from the suppliers who win business brokered by IEC.

For brokerage of commercial and industrial customers, Independent Energy Consultants, Inc. provides among other things:

- Gather and analyze client's load data;
- Analyze for proper rate code classification;
- Prepare and issue a customized RFP to all qualified suppliers, with or without the aid of our customized online reverse auction platform.
- Negotiate with suppliers;
- Assist in the completion of Supplier and LDC contract paperwork;
- Assist in the customer switching process;
- Audit bills;
- Provide ongoing client support during the term of the agreement.

IEC is a pioneer in the U.S. in design, implementation and ongoing administration of Governmental opt-in and opt-out aggregation programs. Should the Commonwealth ever enable opt-out aggregation programs, IEC would seek to serve those programs.
