DEAR JUDGE I called today the office about my set back and they informed me to put it in writing. Last Friday I had a set back with my health. I had Bi Lateral knee Replacement a few weeks ago. Friday morning I could not get out of bed due to strength and pain. It continue all weekend and I made it to my doctor today. He drew multiple vials of blood for testing. My doctor is only a half a block away and it was a task just to get there. The bloodwork should be back within 2 days. If my condition gets worse he told me to go straight to the nearest ER. I will not be able to make it tomorrow for the hearing. I am hoping to get a new date but I understand if you can not.

Thank You

Patrick Black
