RE: C-2017-2630649
EXCEPTIONS and
OBJECTION to the
INITIAL DECISION
to DISMISS before
Emily I. DeVoe

To All Parties:

I received on Saturday October 5, 2019 an unsigned copy of the INITIAL DECISION from Judge DeVoe to dismiss my formal complaint which I, Michael Chattin filed with the PENNSYLVANIA PUBLIC UTILITY COMMISSION on October 19, 2017. Lacking a true (electronic) signature, I cannot recognize Judge DeVoe's order as authentic or complete. Secretary Chiavetta has informed me that signing a document with a "/s/" is now standard practice among the courts and is used to curb the forging of documents involving a judges copied/stolen signature. I submit that typing "/s/" is far easier to forge than a signature. Try to get a mortgage that way. Only a real signature will complete a real contract.

As I have explained before in this case, my original complaint has been entirely ignored by all of the PENELEC and PENNSYLVANIA PUC lawyers and judges. My complaint rests on one fact: section 2807 (f)7(2)i of PA Act 129 (copy attached) clearly and unambiguously sets forth the terms under which residents of Pennsylvania may receive a smart meter. As far as I am aware, the Pennsylvania legislature has never amended the above referenced clause to read any differently. Therefore this version is the current law. The various interpretations of this clause by the PPUC and all of its subordinates cannot change the fact that the consumer alone has the right to choose whether or not he/she accepts a smart meter. The utter contempt and disregard for this law has been thoroughly demonstrated during the last two years of my correspondence with the judges and lawyers representing PENELEC and the PPUC.

Further, after learning that all of the PPUC's ALJudges are employed and owned by the PPUC, I realized that there was no way I was going to get a fair hearing due to these obvious conflicts of interest. This arrangement factually nullifies the supposed authority of the judges rulings because they are **unable** to preside in a **fair and unbiased manner**.

NOTICE

Therefore, I OBJECT TO THIS DECISION TO DISMISS ELECTRONICALLY SIGNED BY JUDGE EMILY I. DEVOE AND ANY OTHER RULINGS MADE ON MY BEHALF BY ALL THE JUDGES OF THE CORRUPT PENNSYLVANIA PUBLIC UTILITY COMMISSION. I FIND ALL OF ITS PROCEEDINGS AND RULINGS AND ORDERS IN THIS CASE TO BE IN CONTEMPT OF THE LAW OF ACT 129 AND ARE ILLEGITIMATE, UNCONSTITUTIONAL, FRAUDULENT, AND WITHOUT MERIT OF ANY KIND. I, MICHAEL W. CHATTIN, HAVE NOT WAIVED ANY OF MY RIGHTS WITH RESPECT TO MY LAWFUL DECISION NOT TO HAVE A SMART METER AND REMAIN RESOLUTE IN THIS FACT..

Sincerely,

Michael W. Chattin

section 2807 (f)7(2)i

- (1) Within nine months after the effective date of this paragraph, electric distribution companies shall file a smart meter technology procurement and installation plan with the commission for approval. The plan shall describe the smart meter technologies the electric distribution company proposes to install in accordance with paragraph (2).**
- (2) Electric distribution companies shall furnish smart meter technology as follows:**

 - (i) Upon request from a customer that agrees to pay the cost of the smart meter at the time of the request.**
 - (ii) In new building construction.**
 - (iii) In accordance with a depreciation schedule not to exceed 15 years.**
- (3) Electric distribution companies shall, with customer consent, make available direct meter access and electronic access to customer meter data to third parties, including electric generation suppliers and providers of conservation and load management services.**

PUC RE: Smart Meter Complaint
PO Box 3265
Harrisburg, PA 17105

To the Smart Meter Division of the PUC:

I am filing this formal complaint with your office due to the unwarranted and ruthless behavior on the part of our power company PENELEC. We have been threatened with having our power cut off and indeed did have our power cut off in the first week in July this year all because we decided to exercise our right to decide whether we will have a smart meter or not under (exhibit#1) the Act of October 15, 2008 P.L. 1592, No. 129 section 2807 (f)7(2)i which states: "upon request from a customer that agrees to pay the cost of the smart meter at the time of the request." This obviously means that I will get a smart meter if and when I (the customer) requests one. In fact, there is no mandatory language here or anywhere else in the entire act. The PUC is in direct conflict with this law by stating on its website (Smart Meter Q&A page) (exhibit#2) that smart meters are required in Pennsylvania. The PUC cites Act 129 as their authority but never provides a direct quote of the law. If it did, The public would become aware that they have a choice with respect to having a smart meter or not under this Act 129.

In our case our choice not to have a smart meter is a medical one. My wife Melanie is being treated for cancer and as such cannot have any more radiation due to her medical history. Her doctor, Dr. John Neely, wrote in a letter (exhibit#3) to PENELEC: "Melanie has no ability to tolerate any radiation from devices such as microwaves, cell phones, beepers, monitors, smart meters, etc. and has therefore had to eliminate all these items from her life." The letter goes on to explain why Melanie, who is under constant medical care, must have electricity to maintain her medications, climate control, and treatments. Therefore, arbitrarily cutting off power to her (our) home is out of the question and must not even be considered. (10 DAY SHUT-OFF NOTICE-June 2. 2017 exhibit#4)

PENELEC did in fact shut off our power in the first week of July 2017. After PENELEC received Dr. Neely's letter, they turned the power on July 12, 2017. My wife Melanie and I were out of electricity, water, air-conditioning, refrigeration, and everything else electric for 4 (four) days. We have losses of expensive medications and
page one

food. In fact PENELEC has threatened our lives which such behavior. Now they are threatening to repeat this punishment all over again (exhibit#5) unless we take their smart meter. I know we are not alone. We have been speaking to others and if things do not improve real soon, it is beginning to smell like a class action suit of huge proportions. It is possible that PENELEC has already killed people by shutting off their power. I hope this letter has clarified the reasons for my complaint. Since when do Americans have no choice about the power they buy?

In summary, neither PENELEC nor the PUC has any authority or right to either: make law, modify any existing law, or threaten the lives of American citizens with their self-serving interpretations of the law. Only the legislature, which are the people, can actually make law. The People of Pennsylvania have *never* approved any mandated plan to force everyone to use smart meters. It is on this fact that my case rests. Both PENELEC and the PUC must therefore withdraw their mandate for smart meters. I would be relieved if you would withdraw those demands for me and my wife but I would not be satisfied. If you do not withdraw your demand for us to get a smart meter, then you will shut off my power again and I will be forced to sue you. If my wife dies as a result of this, you will be facing a wrongful death suit as well. Please do the right thing and allow Melanie and I to keep our old meter. In the end, it is a small request and legal under Act 129. I am,

Michael W. Chattin
