**RE: Act 120 Implementation – Lead Service Lines and Damaged
Wastewater Laterals
Docket No. M-2019-3013286**

Dear Secretary Chiavetta:

On October 3, 2019, Chairman Gladys Brown Dutrieuille and Commissioner John F. Coleman, Jr. issued a Joint Motion regarding the Implementation of Act 120 of 2018 (“Act 120”), which included a list of questions directed to utilities and other stakeholders. The Joint Motion directed Staff to develop additional questions, convene a stakeholder meeting, and issue a written recommendation to the Pennsylvania Public Utility Commission (“PUC” or the “Commission”) by March 31, 2020. On October 24, 2019 the Bureau of Technical Utility Services (“TUS”) issued, via Secretarial Letter, thirty-four questions in its Directed Questions Set 1 to be answered by stakeholders with responses due on November 22, 2019. The October 24, 2019 letter also established a Work Group meeting on December 19, 2019.

Aqua Pennsylvania, Inc. (“Aqua”) respectfully requests that the Commission extend the response period for the TUS Directed Questions Set 1 regarding the Implementation of Act 120 from November 22, 2019 to December 9, 2019. The questions raised by TUS relate to several different areas of expertise including, operations, engineering, communications, accounting, legal and rates. An extension of the response period will allow a more comprehensive response to the TUS Directed Questions Set 1, and, therefore, will result in a more thorough discussion at the December 19, 2019 Work Group meeting.

Rosemary Chiavetta, Secretary
