Summary of My Argument  
My Brief From  
my Nov. 6, 2019 Hearing

C-2018-3001526

To: Administrative Law Judge Jeffrey A. Watson:  
Please expect this Brief as requested from  
my Nov. 6, 2019 Hearing.

And just one quick note. I know when  
you answered to talk to me and said it was 10:06 a.m.  
that you seemed sort of disturbed. I thought you might have  
thought that I was late calling in. I called in at  
9:58 and dialed both phone numbers and when asked  
I told them my name. A second or 2 later I heard a  
few clicks on my phone & thought I was being connected  
to you. After a few more seconds I realized I was  
disconnected & tried 3 more times to get back to you  
& finally did so. You can read your phone records &  
hear me giving my name @ 10:00 sharp for proof of  
what I'm saying! I don't lie!

I thank you for allowing this Brief as Summary  
Argument. I contacted your office & talked to Alfonso,  
who told me my Brief could not be more than 60 pages  
and must be in your possession within 20 days. And  
I must also say I'm sorry if I misspelled your name  
on the front of binder. I guess my excuse is that  
I was running on empty when it comes to sleep. And  
I was up to my knees with photo copier for 8 binders  
to be filled after I put holes in every page so  
I could corolate them and make them presentable.  
I do not have a typewriter or a computer so I tried  
my best to write legable. I was raised in a  
Pa. Dutch home where my Pappy only spoke Pa.  
Dutch and my Mommy spoke Pa. Dutch & Broke  
English - She also wrote a bit of the English Language.

RECEIVED

NOV 20 2019

PA PUBLIC UTILITY COMMISSION

11-19-19

Norma Mosley

These names were Magdalena (Mammy) and William Gung (Pappy). I was put in Mammy's arms at 2 days old. They were my great grandparents who loved me very much. They named me Norma Katherine. I'm telling you this because sometimes my sentence structure and speaking reflect my Pa. Dutch Up bringing. But, I try very hard to write & speak properly.

Now, for my summary argument - I cannot say I was treated fairly by Met-Ed's legal team. In Met-Ed's (Request of Interrogatories and requests) sent to me Oct. 26, 2018, I answered every question that pertained to Smart Meters. They wanted to know all that I knew. So, I told them & told them & told them with more & more & more evidence that Smart Meters were not what they portray them to be. With every piece of evidence I gave them, some proof! Not conspiracy references as Met Ed would have you believe! But, reliable, honest, truthful evidence from Great Americans that want to see Smart Meters eliminated. The references are listed on the 3 pages before Chapter 1 in my binder, under Book References & Websites! The Best Website comes from Orlene Koehle (State President, Eagle Forum of California). She and her husband Kurt have 5 sons and 1 daughter & five grandchildren. She grew up on a farm in Idaho and graduated from Idaho Falls High School and graduated from Brigham Young University with a teaching degree. Her husband is the administrator at Sonoma State University and they live on acreage outside of Santa Rosa. She is the publisher of (at last count) 10 books, 2 of which are "By Stealth and Deception" and "Just Say No To

11-19-19

Norma Mosley

Big Brother's Smart Meters: [www.nosmartmeters.net](http://www.nosmartmeters.net)

### Other Book References & Publishers:

1. Climate Gate by A.W. Montford
2. The Moral Case for Fossil Fuel by Alex Epstein
3. The Tempting of America by Robert Bark (The Best Book on Constitutional Law ever written)
4. Sustainable by Tom Dewese (and ex-government employee for Home Land Security)
5. The Original King James Bible - author, GOD. The Story of Abraham, Isaac & Jacob.

(Proverbs: 6:16-19) "There are six things that the Lord hates, seven that are an abomination to Him: haughty eyes, a lying tongue, and hands that shed innocent blood, a heart that devises wicked plans, feet that make haste to run to evil, a false witness who breathes out lies, and one who sows discord among brothers." (Wow! Met-Ed meets all of them!)

(Deuteronomy 25:1) Page 197

If there be a controversy between men, and they come unto judgement, that the judges may judge them: then they shall justify the righteous, and condemn the wicked.

So, you see my Websites and Books are from very good sources. Read them in your binder.

Then just because I presented about 90% of my case in my handwriting using these great references I was told it was all "Hearsay" because I could not produce the people that wrote the books and Websites as witnesses! By not allowing me to present my case violated my

11-19-19

Norma Mosley

my 1st Amendment of Free Speech. But, you could not stop long enough with your "Hear Says" for the Court to hear my case. For 4'12 Hours Call you did was "Hear-Say".

Yet, Mr. John C. Aho was giving second-hand evidence, because he was just repeating what was written by Met-Ed the Pa. Public Utility Co. He didn't even know where I could find the proof that Smart Meters were safe. He had to ask someone else for that information. He couldn't verify why the U.L. Certification is not on any of the Smart Meters - Only that it is written somewhere and they are safe. I didn't know that witnesses could be coached by other people to give them the answers. Nor did I think that if they send me a notice that they were going to be there in Person that they could change their mind without sending out notices of Change & Change to a telephone Hearing.

Well let me help Mr. Aho by answering my own questions. Underwriters Laboratory Confirms that Smart Meters are not safety tested, Raising Fire Safety Scares! Capitola City in California joined six other local governments who have passed laws criminalizing the installation of wireless smart meters because they are not certified by Underwriters Laboratory, a certification that is required under all States electrical codes for all electrical appliances and equipment. The lack of certification was confirmed by Karl Moeller, a Senior engineer with U.L. Product certification can be verified by going to [www.ul.com](http://www.ul.com) then scroll down

11-19-19

Norma Mosley

to the bottom and click on "on-line Certification directory." You can search for active certifications at the on-line certification Directory.

In summary, you cannot confirm that wireless smart meters are UL Certified.

The lack of certification was confirmed by Karl Moeller, a senior engineer with UL.

Karl E. Moeller  
Senior Customer Service Engineer  
Underwriters Laboratories, Inc.  
1285 Walt Whitman Rd  
Melville, N. J. 11747

Laws passed Criminalizing the installation of wireless Smart Meters.

<http://bit.ly/fwUgA7> (p. 45)

My conclusion is that wireless smart meters made in & brought from Japan cannot be UL certified because they do not meet the U.S. high standards for Safety!

Met. Ed's lawyers asked me if I had a degree in Electricity. I said no and they "Near Sazed" me again.

It only takes common <sup>sense</sup> that smart meters can generate sparks. They are also being installed very very very close to gas meters. Walk up Main St. in Fleetwood or anywhere and see for yourself. Gas meters always have some blow off gas emitting from them. I know this for a fact. I lived in a home for awhile that had gas heat & a gas stove. - I always had the gas company out at my home. I always smelled gas. Their answer to me, "that's just blow off gas!" A fire can

11-19-19

Norma Mosley

be started by an arc from a meter!" The definition of an electrical arc is - "a sustained luminous discharge of electricity across a gap in a circuit." The definition of ignition "The process or means (as an electric spark) of igniting a fuel mixture. Gas is a fuel! It doesn't take a rocket scientist to put it all together! Only Common sense! Which Met-Ed does not possess!

Tell me! While pumping gasoline into your car's gas tank, would you answer your cell phone? Not if you valued your life! This just speaks to the relative immaturity of Met-Ed & the meter technology! Heck I asked them a simple question and they couldn't answer it! Since Pennsylvania has a lot of Radon in our state, it is a gaseous chemical element that is formed in our soil & shale & rocks & seeps into our homes. Radon detectors like Smoke detectors can detect when the gases get harmful & set off the alarm. There are companies that can believe that gas through pipes in your basement to outside of the home Radon can make you sick or even kill! Since most of Pa's soil has radon, what effect does this gas have on Smart Meters?

Met-Ed's Lawyers answer. She never heard about Radon! Doesn't know what it is! Still more proof that Met-Ed has no knowledge about Wireless Smart Meters.

To me I see this as a fire Hazard or even houses being blown up if the Radon Gas is abundant and gets in touch with the Smart Meter! I am investigating this further.

A few months ago - a contractor working on Main St. in Fleetwood hit a gas line. They called UGI to

11-19-19

Norma Mosley

shut off the gas because they knew that blow-off gas fumes could start a fire or explosion if it got in touch with a Smart Meter. And their huge gas meters are right below the Smart Meters. Main Street was completely evacuated & so were the Schools several blocks away. The towns reaction to this disaster "They won't be satisfied until they blow up the whole Dan Town." I lived in Fleetwood. Know all the business people & most of the population. They were scared!

Just speaks to the relative immaturity of Met-Ed & the meter technology!

Seven Binders with my case went out to the Judge, Met-Ed & the PA. Public Utility Company to the cost of about \$700 out of my pocket - only to have 1 Lawyer from Met-Ed Hear Say 90% of it. To anyone who has never read my case it's a Borgia because I revealed the truth about Smart Meters from their introduction in the 1800's until the Present and into the future with Artificial Intelligence. All the truth. They think if they suppress it in court it will not be heard. How wrong they are! My case will explode to all the people in Pa. & the U.S. And they will know that 1 Lawyer for Met-Ed was allowed to crush the truth & throw out the 1st Amendment. Tell the masses there is no 1st Amendment! Met-Ed heavily restricted my case from being heard by having all the bargaining power that is a big part of how we are losing our sovereignty & rights & freedom!

I will say this again - No One can be forced to comply with an unrevealed Contract between private corporations, (Both Met-Ed & the U.S. Government are Corporations) and to which you were never a part and had no knowledge. I

11-19-19

Norma Mosley

was not a part of it or had no knowledge!

By law all valid contracts require parties to enter knowingly, willfully and voluntarily, with full disclosure of all the terms; if not, then the contract is considered unconscionable and an act of FRAUD!, and maybe nullified, rescinded and revoked dating back to its original signing! The people of the U.S. had no full choice + were not voluntarily participants in Smart Meters. So Met-Ed committed an Act of Fraud & should be punished thru the Law like the Criminals they are!

The courts will never hear that Climate Change is nothing but a hoax. And Smart Meters came about because of that Hoax - Met-Ed's Lawyer said it has nothing to do with Smart Meters and "Heard Said" it! How wrong they are again! But, they ~~also~~ now they are wrong!

The people won't hear that the Government was changed without their consent in 1891 as a body corporate and municipal jurisdiction. And that it rules by implied consent only! And that each state is its own sovereign republic! The founding fathers set up the Republic so the people of each state has the rights of a Sovereign (all the rights formerly belonging to the King) Those who assert these rights can have freedom, peace and abundance they never thought possible. But, you must stand up & take responsibility and assert your rights.

I am a Sovereign and under Common Law I am enforcing my rights in Court to remain in control of my property and everything on it including my analog meter. I am also in control of my liberty & prosperity! And to let the Judge, Met-Ed's Lawyers, The P.A. Public Utility Commission know since

11-19-19

Norma Mosley

D.C. only rules by implied consent. I Do Not give  
any Consent to D.C. or the State of Pa. or Met-Ed,  
Wellington or anyone else to put a Smart Meter on  
my Property!

No matter how many "Dear Says" Met-Ed's  
Lawyers say! I have all the Rights formerly  
belonging to the King! I am Sovereign & Free  
Even of your "Dear Says!"

So, to the U.S. Government, The State of Pa.,  
Met-Ed & their lawyers, the Pa. PUC & all witnesses  
including Mr. Akr and Judge Jeffery Watson, I  
am a Sovereign & Control my life and everything in it!  
So I say to you today do not take away my Analog  
Meter, Do Not put a Smart Meter on my house, Do Not  
turn off my electricity, Do Not threaten me ever  
again and take off all Smart Meter & 5G Cables from  
my house. Make Settlement with me according to  
my Mediation Requests in Section 12 of my binder.  
They are according to the law & I have every request  
spelled out as I want it! Restore everything you  
have stolen from me - including my health, peace of  
mind, my money, etc. etc. etc. all in Binder!

Every word is in my Binder that was thoroughly  
written up by me & is 100% Truth.

God gave me Free Will! The Constitution  
& its Amendments give me rights 1st, 4th, 10th,  
14th and all the others. The government of the U.S.  
rules by implied consent only! Each state is a  
Sovereign republic. And I am a Sovereign with  
all the rights formerly belonging to the King &  
Met-Ed is a Servant not my Lord & Master that

11-19-19

Norma Mozley

Job, is already filled by Father God, Jesus Christ  
my Lord & Savior & the Holy Spirit. And Met-  
Ed & all their lawyers & everyone else who has  
come against me & the truth will find that out,  
when they stand before a Sovereign God for Judge-  
ment! And Met-Ed & their lawyers along with  
anyone else coming against me & the truth will  
not be able to talk their way out of the evil  
they committed. God will say "Hear Say" you're  
evil & castes them into the Lake of Fire for all  
eternity! Is it sweet revenge? No because I  
pray for these evil people everyday that they  
may see & tell the truth. Stand up for what  
is right in the eyes of the Lord! You make  
the choices to go to HELL or HEAVEN! No one  
can force you to lie about Smart Meters but yourself!  
So if you go to Hell you put yourself there.

11-19-19

Norma Mosley

I told the Judge that Met-Ed - The Lawyers & all involved with Smart Meters that they (2 times)

Companies are acting like Hitlers!

Hitler did not yet have such advanced technology as our modern world does today. Still he had a system of spying, surveillance, data collection and control through national ID cards and numbers and a police system called the Gestapo, who would reward people for snitching on their neighbors. People who dared to speak out against the government would be gathered up and put in concentration camps or shot in the open streets.

Smart Meters make spying, surveillance, data mining, snitching, control - all so much easier. The detrimental effects on health make it less difficult to "curd the herd" and thin down the population. Smart Meters are a dictator's dream come true!

The Smart Meter/Smart Grid system will enable technocracy to succeed in its original goals - an attempt to impose a totalitarian, scientific dictatorship on the world! The Smart Grid will be the conversion of our existing economic system into something far different and far worse. All this is to help usher in a Socialist system of redistribution of wealth and energy, limit use of our own property and resources, establish regional unions, grids and controls and then one-world economic and political control.

11-19-19

Norma Moslen

This is strongly reminiscent of Nazi tactics used by the Gestapo back in the 1930-40's, when freedom of choice was replaced with dictatorial law.

The fear that some sort of Nazi-like tyranny is coming has spread across the country. The electrical companies <sup>working</sup> with (International I.C.I.E.I have tried to create the illusion Council on Local Environmental Initiative) that the smart meters are mandatory, that any choice to opt out is not permitted and that the Constitution is no longer valid. But that is not true.

All utility companies across the nation, and the world, are installing thousands of wireless smart meters upon all of us, the people, each & every day. They are running rampant over customers. The people are being ignored even though smart meters are making them sick and invading their privacy.

This tyranny must be opposed, it is inhumane. This insanity is directed by the U.N Agenda 21 - the "Absolute Abolition of All Freedom for All People for All Time!"

Let me remind Mr. Ed. that public agencies exist to aid in the conduct of the people's business. The people of the State do not yield their sovereignty to the agencies which serve them. We did not give these public servants the right to decide what is good for the people to know

11-19-19

Norma Mosley

and what is not good for them to know!

You are a public agency created by the people. You and your various utility companies are supposed to be serving us, not being our Lord and Master, telling us what we can do and cannot do with our property, or removing our analog meters and forcing smart meters on us, without our permission or even our knowledge.

Instead of serving us, you have become the servants (or slaves) of a powerful international organization that is dictating to you and you, in turn, force those dictates upon us. It is also our utility rates that get to pay for your affiliation with the powerful group, which is costing millions of dollars. This group is called ICLFI, which stands for International Council on Local Environmental Initiative. Now they try to disguise their international connections and call themselves "Local Government for Sustainability". It is a United Nations NGO (non-governmental organization). So, in other words, whoever is a member (as noted) of ICLFI is now coming under the mandate of the U.N.

\*\* This is contrary to the U.S. Constitution that prohibits states or local governments from entering into any agreement with a foreign power (Article I, Section 10) xxx

We urge you to drop your membership with ICLFI and the stranglehold that they hold upon you. We the people, who are

11-19-19

Norma Mosley

supposed to be your sovereigns are the ones whom you are to serve! "NOT THE ICLEI"!!!

The mandate that ICLEI is pushing upon all of its members is called UN Agenda 21, now called Agenda 30, created in 1992 in Rio and signed into by 179 heads of State. It is a comprehensive blueprint to control every aspect of how man interacts with the environment. That includes state, and local governments, the food we eat, the water we drink, the air we breathe, our mode of transportation and of course our energy use!

The ICLEI is pushing Agenda 21 (30) on their member utility companies (Met Ed) through what they call "The Green Communities (GC) program," which according to them is designed to provide data, tools, and training to local governments, customers to enable them to better understand and manage their municipal and community-wide energy usage in order to develop and implement climate action plans." However ICLEI does not just make suggestions they Mandate!

## Our Greatest of Founding Fathers

Our greatest of Founding Fathers and our 3rd American President had it right: "When the people fear the government there is tyranny, but when the government fears the people there is liberty!" Knowing that the government over time since our founding as a free nation would grow very corrupt and oppressive, Jefferson predicted and advocated revolution, even a violent one when necessary - in effect to clean out the swamp that would necessarily seek to gobble up liberty while he saw some government as necessary evil, he thus had a huge fear about its ultimately enslaving the lives of American citizens, as it had in France, where he also was one of the architects of its bloody revolution.

Today, 243 years after his having penned the Declaration of Independence, Jefferson's prophecy has come to be sadly realized. Not since the days of King George III has the citizenry been subjected to the degree of tyranny that we now are forced to swallow from not just corrupt politicians and so called government leaders, but those who put them in power and support them, but from our utility companies (who think they are in control) and their corrupt lawyers.

Make no mistake about it, the left is waging a war against the rest of the nation. It is deadly serious and its hatred of the intended American way of life is more than palpable; it wreaks of fatal disdain, condescension and outright rabid and dangerous contempt. If the left had its ultimate wish & design, it would like to kill all of us who stand in its way to a takeover of the nation.

And that again is exactly what the British Crown had in mind when we declared independence on July 4, 1776. Either submit to tyranny or perish. But what is even more troubling is today's

world is that King George III was much less  
of a threat to our survival than the left  
is now. As just one example, he did  
not possess the technology, such as  
mass government surveillance by the  
FBI, CIA and NSA and other means as  
Smart Meters, to control the people and  
keep them down. We must safeguard our  
liberty and freedom. There are a growing  
number of patriots that are fighting right  
now against Smart Meters not only here in the  
U.S. but around the World. You must see that  
in your Court room.

\* Lincoln's Belief that the government  
is of the people, for the people, and by  
the people! \*

My knowledge and determination will make  
me free and untouchable and I will never live in  
fear from Net-Ed or anyone else again. And as  
much as I have written up for the court, is only the  
tip of the iceberg of what I know!

Norma Mosley 2/15/19

\* The federal government has no authority to  
unlawfully cede to or, empower any federal  
agency with powers and authority the federal  
government does not possess and never did!

"The Tempting of America"  
by Robert Bork

When Robert Bork was appointed to the U.S. Supreme Court by President Ronald Reagan, it created a firestorm in Congress, <sup>(what a surprise)</sup> and he failed to get confirmed. Shortly thereafter, he wrote "The Tempting of America," which I believe is the best book about Constitutional law in a century, perhaps ever. He said, "What most people don't see is that we are destroying the rule of law. And history tells us that our republic cannot stand unless that evil is corrected." Mr. Bork relates how the Constitution is the big trump card in American politics. Today it is being used by the liberal culture to force their unlawful ideas on people! (Smart Veters, Smart Elders, etc.) The liberal culture often has contempt of history and our Founding Fathers. They foolishly rely on their own reasoning, which is not grounded in foundational law, leading to anarchy! As we live in today.

X "The Founders never intended the Courts to be Supreme. Their intention was that the law, rooted in objective and unchanging truth, would be pre-eminent" X

The liberal culture in politics wants a "living Constitution." They simply the Constitution is dead. They don't want unchanging truth, Established 200 years ago, to direct their lives.

The liberal religious culture similarly wants a "living Bible." Their "so called" "intelligence" demands

7/15/19 Norma Mosley

11/19/19 Norma Mosley

that they adapt the Bible to modern times -  
even though every word was inspired by  
God. (Matthew 4:4)

When the new U.S. government was  
established, Benjamin Franklin said that  
we have "a republic, if you can keep  
it." It's all about either establishing the  
rule of law - or descending into lawlessness.

Even angelic empires fell because of  
lawlessness. This was Lucifer's problem.

No Freedom Without Law!

The two liberals that started this  
mess with Smart Meters & Smart Grid are  
Obama who announced Stimulus spending  
for the Smart Grid, Smart Meters with a  
signature of a pen and Al Gore (Obama's friend  
& co-conspirator) Proof enclosed! This is part of  
Agenda 21 now Agenda 30.

Judges must decide righteously  
Exodus 23: 6-8 Page 75 Please read 6-7+8  
out of your Bible.

Deuteronomy 25: 1 Page 197

1 Verse I can write out:

If there be a controversy between men, and they  
come unto judgement, that the judges may judge them:  
then they shall justify the righteous, and condemn  
the wicked.

Proverbs 17: 15 Page 596 - 1 Verse I can write out:

He that justifieth the wicked, and he that condemneth  
the just, even they both are abomination to the Lord.

## Eugenics

You have all read my report on Eugenics - Copy enclosed.  
The Eugenics, Manmade climate hoax, Technocracy,  
The OSS, Illuminati are not conspiracy - They are  
real. More information in Chapter 5. Everything in this report  
is real + true.

I've lived with the presence of the Illuminati over  
my life since I'm twenty years old. I get letters from  
them on a regular basis no matter where I move  
& how many different addresses I have, they find me. When  
my last letter came I took it to an acquaintance of mine  
who was a Mason, he told me what it was. I asked him  
why they think I have such phenomenal talents & gifts. Since  
the Mason knew me all my life. He explained to me I was special  
because before I even said one word of English I was speaking  
my Heavenly language - it was like when my Spirit Body from  
heaven entered my earthly, human body my language  
just stayed with me. And that what ~~the~~ they asked me a question  
they couldn't answer, they asked me & I had the answer -  
And if someone was dying you were there at their bedside praying  
for them to be healed. I know 2 well known Preachers  
on TV that are members of the Illuminati just by their  
hand signs. ~~They~~ <sup>the Illuminati</sup> mistakenly sent me one of their books one  
time. I took the liberty of reading some of it, before I  
sent it back. My last letter came to me on Oct. 19, 2019.  
I sent you a copy of their Symbol, the letter is very private  
And I've only shared 1 letter ever because of its contents.  
So you see, they are <sup>very</sup> real + <sup>very</sup> powerful.

11-19-19

Norma Mosley

Welcome to Eugenic, Population Council, "Environmentalism",  
"The International Planned Parenthood Federation" and  
"Technocracy" Brought to you by the Illuminati - self-declared Royals

Understanding the Manmade Climate Change Hoax!

Those pushing manmade climate change want you to believe that CO<sub>2</sub> - a necessary ingredient for all plant life, a condition of photosynthesis and a gas you naturally exhale every breath - is a toxin and a pollutant!

Climate change has become one of the key issues of our time - yet for all the wrong reasons. The propaganda surrounding this event is so thick it has managed to convince people that an essential, life-giving nutrient (Carbon dioxide or CO<sub>2</sub>) is bad, that the oceans are unavoidably rising to wipe out shoreline buildings, that humanity is ruining the Earth and that there are too many humans on the planet. Is all this fear and guilt justified? How did it come to this? Did the phrase change from "global warming" to "climate change" so that any weather event could be blamed on humanity? To understand the manmade climate change hoax, we need to take a closer look at its origins.

In the late 1800s, a group of families who controlled the oil and banking industries consolidated power by means of the astonishing wealth they had accumulated. Many of these families were illuminati bloodlines and self-declared "royals". They began to invent a new "science" (really a pseudoscience) called eugenics to justify themselves. It went like this: rich people are rich due to good genes, which they pass on to their kids, whereas poor people are poor due to bad genes, which they also pass on to their kids. So, we need selective breeding. We must reduce or eliminate breeding among poor people to maintain a good gene pool for humanity.

11-19-19

Norma Mosley

However, eugenics, underpinned by this kind of distorted thinking, got a bad name and became a dirty word thanks to the Nazis.

So, after WWII, the eugenicists regrouped and decided to continue their work under different names to disguise their intent. Suddenly there was a Rockefeller-led "Population Council" and similar organizations like the "International Planned Parenthood Federation". They were set up and funded by the eugenicists to carry out their depopulation and global governance objectives.

Around the 1980's or so, the eugenicists made another key shift. This time, they had found an even better cover for their nefarious goals: Environmentalism. They infiltrated the green movement and started promoting the idea that humanity as a whole was a plague upon the Earth. The solution? Austerity (everyone get by with less, except of course our rulers), depopulation (we need less people) and global governance (a one world government or New World Order [NWO]).

The entire manmade climate change hoax hinges on falsified data (fraud) and junk science (ignorance). Many organizations have been caught "cooking the books" over the years, by cherry-picking the data or omitting information to fit the political and predetermined theory that the climate is warming and that man is causing it. In truth, there is a lot of evidence the climate is not warming but is rather cooling but in any event, it is a massive stretch to say that mankind is responsible for it. We ~~are~~ are tiny creatures on an enormous planet that itself is subject to celestial bodies and massive forces (the solar retrograde cycle, the little ice age

11-19-19

Norma Mosler

Cycle, the Milankovitch Cycle, etc.) from outside the atmosphere. The sun, a giant ball of fire, influences the climate way more profoundly than humanity ever could. The sun goes through its own cycles and guess what? - the Earth's temperature correlates to those cycles !!!!!!

Fraud is one thing, but the denigration of CO<sub>2</sub> is unadulterated junk science and shocking ignorance. Those pushing manmade climate change want you to believe that CO<sub>2</sub> - a necessary ingredient for all plant life, a condition of photosynthesis and a gas you naturally exhale every breath - is a toxin and a pollutant! The implication is that you should feel guilty just for breathing and being alive, you "pollution producer"! This is insane since plants need CO<sub>2</sub> to transform into oxygen gas for us to breathe; without CO<sub>2</sub>, humanity could not survive. In fact current CO<sub>2</sub> levels of 300-400 ppm (parts per million) are dangerously low; if they drop further to 150 ppm, they will no longer be high enough to support plant life. For historical perspective, the Earth has had levels of 3000-4000 ppm in the past (over 10x the current levels).... and there weren't humans driving around with diesel engines back then. The simple truth is that CO<sub>2</sub> is good for plants, contributes to the reforestation of the planet and therefore helps to produce higher oxygen levels for the planet. For years we have been told to watch and reduce our carbon footprint, which doesn't make any sense, since we ~~are~~ <sup>are</sup> made of carbon. We are carbon lifeforms. Overpopulation propaganda has even convinced some young women to overrule their biological drive

11-19-19  
Norma Mosley

and not have kids because the world is "too crowded"! The population control enthusiasts must be rubbing their hands in glee. All this focus on carbon has now led to systems of carbon sequestration, carbon credits and carbon offsets, and a multi-billion industry of carbon trading (Cap and trade), led by the infamous huckster Al Gore, heir to a large oil inheritance. So much money and political power is at stake for the truth to be revealed that manmade climate change is a false alarm. This entire swathe of propaganda is designed to support the idea of a global carbon tax administered by a global government!

All this is eye-opening, but hang on, because as you go further down the rabbit hole, the agenda gets even more disturbing. \*The eugenicists' dystopian vision has been dubbed technocracy - (Rule of technology). The idea is to create megacities (smart cities) where everything is connected to a giant (control grid of smart meters.) In fact, the idea is to link every single manufactured product to the network, called the internet of things, by means of internal wireless R.F.I.D chips. This means living in a world where your toothbrush, fridge, fan and TV all talk to each other and the grid, and energy consumption is strictly monitored and controlled. But that's not all; the technocrats want to create a world of energy rationing where a centralized authority dispenses energy allotments and that's all you'll have to live on for the month. There will be no cars, but rather autonomous self-driving vehicles and

11-19-19  
Norma Mosley

mass transit; there will be no decentrailed solar panels on your house, but rather you will live in a cramped, shoebox-sized apartment (stack and pack). Meanwhile, the new and highly dangerous 5G wireless network will radiate you 24/7, and if you suffer health effects from it, you have no legal recourse.

There's a couple of key things missing in this bleak future: Privacy, Sovereignty, and Freedom! The latest incarnation of the manmade climate change movement is the "Green New Deal" promoted by new Congresswoman Alexandria Ocasio-Cortez. Even the name "Green New Deal" contains the phrase "New Deal" which refers to the sweeping socialistic changes to U.S. law and society made in the 1930s by then US President Roosevelt which included confiscating the gold of Americans and substantially expanding the power and jurisdiction of the Federal Government. The Green New Deal is just another incarnation of a far-reaching plan to bring about a NWO via the UN Agenda 2030  
(New World Order) United Nations

(formerly 2021). It calls for sustainable energy for all (sounds great), but who is going to pay for it? What are we going to have to give up to get it? Can we only get this new sustainable energy if we move into an "approved" area (i.e. a Smart City Megalopolis) and submit to being on the grid 24/7 with smart meters and 5G radiating us? If you pay close attention to these schemes, notice how they always seem to require more government control in order to be implemented.

The manmade climate change movement is a pretext

11-19-19  
Narma Mosley

for the real agenda: the global transformation of society into a hierarchical, socialist, totalitarian dictatorship. Caring for the environment is a good and natural thing, but why does it have to come along with buying into a scheme for complete centralization of control and power into the hands of a few? Sadly humanity has fallen for a clever sleight-of-hand trick and has allowed its genuine desire to care for the environment with their carbon footprint. Meanwhile, real environmental threats are being ignored, like the contamination of our waterways with pharmaceutical residues (Big Pharma is owned by the same eugenecist controllers pushing the manmade climate change hoax), GMO's (Genetically Modified Organism) contaminating our fields and causing irreversible genetic pollution, industrial chemicals in our food supply, heavy metals in vaccines and food, Chemtrails spraying poisons in our air, etc. Geoengineering, in fact, is causing more manmade (or should I say Government + Army<sup>me too</sup> "thru HARP + DEW (Directed Energy Weapons or "plasma rays" which are blue light beams that are deliberately aimed to cause destruction and harvest energy from it!)) But, the authorities, government + Army still deny its happening or pretend that the spraying is to combat climate change (not cause it). These are very serious issues yet people are getting sidetracked with CO<sub>2</sub>! The situation would be laughable if it weren't so critical and dire.

In conclusion, we have to wake up to this. We have to think critically, question everything and become more streetwise. Yes, it is great to care for things, however we need to

see that our compassion can be exploited if we don't understand the cunningness of the master manipulators and their grand NWO agenda. Educate yourself on the manmade Climate Change Scams, and concentrate your efforts on fighting the enemy and not on the fake carbon issues which plays right into the hands of the technocrats. Get Informed! With Smart Meters being forced on homeowners & 5G being rolled out in many American towns & cities, this is the time to take action to stop the NWO, Illuminati, Al Gore, Obama, The Government, The Army, etc. ! The Clock Is Ticking. We Need To Fight Now!

How can we look at the Young Men & Women who fought for our freedom and tell them their fight for our freedom was for nothing - Because we won't stand up & fight beside them! I'd rather die fighting than have my brain & body fried with 24/7 radiation!

And remember 5G is being rolled out regardless of health and privacy risks. It is a weaponized communication and broadcasting system that is setting up an EMF grid which uses your sweat glands as antennae and has the capacity to alter ~~you~~ <sup>and</sup> control your mood. The toxic effects of 5G and smart meters are everywhere. It takes all of us to fight!

The Dark Truth About 5G: Which is Military Weaponry sold to you as telecommunication Convenience is an anti-life technology. Broadcasting

11-19-19  
Norma Mosley

5G at someone is like shining a laser at them which is already an offense (assault). Millimeter wave exposure causes damage in seconds to minutes even at frequencies of 40-130 GHz; 5G operates at frequencies of 24-86 GHz or even 95 GHz. Millimeter waves damage mitochondria and can cause antibiotic ~~to~~ resistance (leading to superbugs); which will prepair mankind for AI infiltration where billions of nanobots swim through your blood, communicating with your biological neurons and hooking you up to the internet. This is REAL!

Artificial Intelligence

To: Administrative Law Judge Jeffery A. Watson:

I thank you for allowing the entire Title 66 -  
Especially Sec. 1501 + 1502 of The PA Public Utilities  
Report. And also my health Reports, Final Answer  
Q + A sheet, House Bill 1566 etc. But 90% of  
my case was not heard because of Hear Said from  
Met-Ed's lawyers. Thousands of truths were silenced.  
I couldn't present them because they were hand written  
up. And even though my references were great - I  
could not produce the writers of the Books + Websites  
as witnesses. That is unjust in every way. I  
thought if we had any chance in court it would be  
through the Judges. But, you hadn't even read my  
case before it was presented to you in court. So,  
what chance did I have? But Met-Ed's lawyers  
read it all + before my mouth was even opened  
she (the lawyer) "Hear Said" my case because they didn't  
want you knowing the Truth!

Maybe, just maybe one day you will sit down  
+ Read my full case! Without these truths you  
know nothing. And Met-Ed knows all my  
truths. Let Mr. Ahr read my case. There is  
a good article in Chapter 7 (The Article Published in  
The National).

Remember once you know the Truth and  
do nothing about it - That makes you as  
guilty as Met-Ed!

For the last 54 years my  
bill has been paid on time.  
This is dictatorial law!  
Will never say hi! Hello to  
you or anyone else!

RE: Service Address: 197 Forgehill Rd. Hamburg, PA 19526  
Account Number: 100013949183

Dear Thomas E. Mosley:

We have made several attempts to contact you so we can discuss with you the installation of a smart meter at the service address shown above. Unfortunately, we have been unable to make arrangements with you to install the new meter.

It is important to note that the company is required by Pennsylvania law (Act 129) to install a smart meter for all of our Pennsylvania customers. (For more information about the law that mandates our smart meter program, you can visit the Pennsylvania Public Utility Commission's website <http://PAUTL.com/PXw5x>).

Does not mandate

Please call us at 1-855-344-3400 (Monday through Friday, 8:00 a.m. to 6:00 p.m.) so we can answer questions that you have regarding our smart meter program and make arrangements to install the new meter. Please be aware that failure to comply with this request could result in the shut off of your electric service.

Sincerely,

Pennsylvania Meter Deployment

Dear Thomas E Mosley:

Recently you called Met-Ed, unfortunately, that call was disconnected.

*Talked to a Victoria from The Smart Meter Dept. I already reported this*  
I was not disconnected - I  
If you need further assistance, please contact us at 1-800-545-7741 at your earliest convenience.

If you are not satisfied, you have the right to file an informal complaint with the Pennsylvania Public Utility Commission. You can file an informal complaint by calling or writing:

Pennsylvania Public Utility Commission  
Bureau of Consumer Services  
Harrisburg, PA 17105-3265  
1-800-692-7380

*I made my complaint  
Thru the Office of Attorney  
General, who in the past has  
done wonderful work on  
my behalf*

Your complaint should include the following information:

1. The name and address for the customer and, if different, the address at which service provided.
2. The telephone number of the customer.
3. The account number of the customer, if applicable.
4. The name of the utility.
5. A brief statement of the dispute.
6. Whether the dispute formerly has been the subject of a utility company investigation and report.
7. Whether the dispute formerly has been the subject of a Commission informal or formal complaint.
8. The relief sought.

Thank you for the opportunity to serve you.

Sincerely,

Metropolitan Edison Company  
A FirstEnergy Company

**10 DAY SHUT-OFF NOTICE**  
**AVISO DE SUSPENSION DE SERVICIO**

RE: Service Address: 197 Forgehill Rd. Hamburg, PA 19526  
Account Number: 100013949183

Dear Thomas E. Mosley:

**Your Electric Service May Be Shut Off!**

Because you have failed to make arrangements for the meter at your premises to be replaced with a smart meter, service to 197 Forgehill Rd. will be shut off on or after April 23, 2018. The company may have up to 60 days to act on this notice.

Your electric service will not be shut off if you contact us immediately to make arrangements for the meter at your premises to be replaced with a smart meter. If your electric service is shut off, service will only be restored after a smart meter has been installed on the premises. There will be no reconnection charge.

Please call us at 1-855-344-3400 (Monday through Friday, 8:00 a.m. to 6:00 p.m.). We would like to answer questions that you have regarding our smart meter program and make arrangements to install the new meter.

**IMPORTANT TO KNOW BEFORE YOUR ELECTRIC SERVICE IS SHUT OFF**

- If you have questions or need more information, please call us at 1-855-344-3400. After you talk with us, if you are not satisfied, you may file a complaint with the Public Utility Commission (PUC). The PUC may delay the shut-off if you file the complaint before the shut-off date. To contact them, call 1-800-692-7380 or write to: Pennsylvania Public Utility Commission, Box 3265, Harrisburg, PA 17105-3265.
- If you have trouble understanding or speaking English or have a disability, please call us at 1-855-344-3400 for free interpretation.
- If your service is shut off, you must contact us to make arrangements to have the smart meter installed on your premises to have the service turned back on.
- After all conditions have been met to have the service turned back on, it may take up to three days to have your service restored. Please contact us to discuss the details.

Atencion! Este es en mensaje muy importante. Si usted no lo entiende, favor de llama a 1-855-344-3400.

Letter 3 Res 8/17
