

Codella -1
C-2019-3010437

Dear Judge, my name is John Codella, around August 1, 2018, when the new Landis + Gyr E350 FOCUS AXR SD smart meter was installed on my home I started hearing a high pitched sound, and over a short period of time I also started experiencing Headaches, trouble sleeping, Fatigue and tremors. I looked up side effects from smart meters online and noticed I was having some of the symptoms that other people were complaining about. I have expressed my feelings and concerns to some of my doctors about this situation and I am currently being treated for some of these health issues mentioned above, i am also having other testing done at this time.

I have a Video that I made of when the technician changed the old meter to the new Landis + Gyr E350 FOCUS AXR SD smart meter and what the video clearly shows is a jump in (emf) electromagnetic radiation or "dirty electric" which is proven to be Harfull to the human body. In adition the new meters also emit Harmfull WIFI (RF) radiation. Military studies show that RF radiation can cause serious health problems, including tinnitus, memory loss, seizures, increased cancer risk, damage to the nervous system, DNA damage and more. These aren't just harmless internet conspiracies. There are protests against the adoption of smart meters, and some countries have banned smart meters all together some examples are France, Belgium, Liechtenstein, Switzerland, Germany, Austria, Finland, and Israel they are taking precautions to protect their citizens from the dangers of wireless RF exposure. **WIRELESS/SMART METERS CAUSE IMMEDIATE AND LONG-TERM HEALTH PROBLEMS.** In the midst of controversy over how smart meters effect health and the possibility of smart meter malfunction like starting fires, example the one in California. Seven states (Iowa, Massachusetts, New York, Rhode Island, Pennsylvania, Tennessee, and Michigan) have pending legislation to enable consumers to opt out of residential smart meter installation ... **all I am asking for is that this Smart meter be removed from my home and the Old meter put back on,** If you rule in my favor I dont think it would be fair that i would have to pay for this change to occur since the electric company is the one who forced this harmful meter on my home.
