SECTION 8 – MISCELLANEOUS SERVICES (CONT'D)

8.23 Direct Trunk Overflow

The Direct Trunk Overflow (DTO) feature, where available, gives the Customer another termination option if all of their DID trunks are busy. This all-trunks-busy condition may be caused either by legitimate heavy incoming traffic or by a trouble condition where the T-1 system is down and the 5ESS senses that trouble as an all-trunks-busy condition. During either busy condition, the incoming call attempts to terminate to the DID group. When the 5ESS sees all trunks busy, it will choose an alternate route for the call to a telephone number that is programmed in the 5ESS only. This telephone number has the Call Forward Remote feature assigned to it and forwards the call to a number chosen by the Customer.

Remote Access DTO enables the customer to activate and/or update the Call Forwarding on their DTO from any location. The customer uses a provided remote-access toll free number, the DTO Call Forwarding line and their four-digit PIN to review or change their call forwarding number.

	<u>Monthly Recurring Charge</u>	<u>Non- Recurring Charge</u>
Direct Trunk Overflow	\$88.78 (I)	\$25.00
Remote Access DTO	\$17.77 (I)	n/a

8.24 Emergency Call Forwarding Charge

At the Customer's request, the Company may assist in activating or updating their Call Forwarding (or Call Forwarding on their DTO). The Company will provide this assistance at no cost to the Customer if the request is due to a problem with the PAETEC network. If it is not a PAETEC network problem, then the Customer will be billed a non-recurring charge per line.

Emergency Call Forwarding	<u>Non-Recurring Charge</u> \$99.00 per line
