LIST OF MODIFICATIONS

COMPETITIVE LOCAL EXCHANGE CARRIER

TARIFF FORMAT

- A. Page Numbering:** Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between pages 14 and 15 would 14.1.
- B. Page Revision Numbers:** Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Pennsylvania Public Utility Commission. For example, the 4th revised Page 14 cancels the 3rd revised Page 14. Because of various suspension periods, deferrals, etc., the Pennsylvania Public Utility Commission follows in its tariff approval process, the most current page number on file with the Pennsylvania Public Utility Commission is not always the tariff page in effect. Consult the Check Page for the page currently in effect.
- C. Paragraph Numbering Sequence:** There are various levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2
 - 2.1
 - 2.1.1
 - 2.1.1.A
 - 2.1.1.A.i
- D. Check Pages:** When a tariff filing is made with the Pennsylvania Public Utility Commission, an updated check page accompanies the tariff filing. The check page lists the pages contained in the tariff, with a cross reference to the current revision number. When new pages are added, the check page is changed to reflect the revision.

Automatic Location Identification ("ALI"): The name and address associated with the calling party's telephone number (identified by ANI as defined below) is forwarded to the PSAP for display. Additional telephones with the same number as the calling party's (secondary locations, off premises, etc.) will be identified with the address of the telephone number at the main location.

In the event that the Company has advance knowledge of an interruption of service for a period exceeding 24 hours, the Company will attempt to notify Subscribers in writing at least one week in advance. Interruptions in service, which are not due to the negligence of, or non-compliance with the provisions of this Tariff by the Customer, or the operation or malfunction of the facilities, power, or equipment provided by the Customer, will be credited to the Customer as specified below for the part of the service that the interruption affects. A credit allowance will be made when an interruption occurs because of a failure of any component furnished by the Company under this Tariff.

2.12.1 Credit for Interruptions

- 2.12.1.1 An interruption period begins when the Customer reports a service, facility, or circuit to be interrupted and releases it for testing and repair. An interruption period ends when the service, facility, or circuit is operative. If the Customer reports a service, facility, or circuit to be inoperative but declines to release it for testing and repair, it is considered to be impaired, but not interrupted.
- 2.12.1.2 For calculating credit allowances, every month is considered to have 30 days. Only those facilities on the interrupted portion of the circuit will receive a credit.

 - ii) 2/30ths of the monthly rate if there was a previous interruption of at least 24 hours in the same billing period.
- (B) If interruption continues for more than 24 hours:
- i) if caused by storm, fire, flood or other condition out of Company's control, 1/30th of the monthly rate for each 24 hours of interruption.
 - ii) for other interruption, 1/30 of the monthly rate for the first 24 hours and 2/30ths of such rate for each additional 24 hours (or fraction thereof); however, if service is interrupted for over 24 hours, more than once in the same billing period, the 2/30ths allowance applies to the first 24 hours of the second and subsequent interruptions.
 - iii) Two or more interruptions of 15 minutes or more during any one 24-hour period shall be considered as one interruption.

(B) If interruption continues for more than 24 hours:

- iv) Credits attributable to any billing period for interruptions of service shall not exceed the total charges for that period for the service and facilities furnished by the Company rendered useless or substantially impaired.
- v) For the purpose of applying this provision, the word "interruption" shall mean the inability to complete calls either incoming or outgoing or both due to equipment malfunction or human errors. "Interruption" does not include and no allowance shall be given for service difficulties such as slow dial tone, circuits busy or other network and/or switching capacity shortages. Nor shall the interruption allowance apply where service is interrupted by the negligence or willful act of the subscriber or where the Company, pursuant to the terms of the Tariff, suspends or terminates service because of nonpayment of bills due to the company, unlawful or improper use of the facilities or service, or any other reason covered by the Tariff. No allowance shall be made for interruptions due to electric power failure where, by the provisions of this Tariff, the subscriber is responsible for providing electric power. LIST OF MODIFICATIONS

COMPETITIVE ACCESS PROVIDER TARIFF

TARIFF FORMAT

- A. Page Numbering:** Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between pages 14 and 15 would 14.1.
- B. Page Revision Numbers:** Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Pennsylvania Public Utility Commission. For example, the 4th revised Page 14 cancels the 3rd revised Page 14. Because of various suspension periods, deferrals, etc., the Pennsylvania Public Utility Commission follows in its tariff approval process, the most current page number on file with the Pennsylvania Public Utility Commission is not always the tariff page in effect. Consult the Check Page for the page currently in effect.
- C. Paragraph Numbering Sequence:** There are various levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2
 - 2.1
 - 2.1.1
 - 2.1.1.A
 - 2.1.1.A.i
- D. Check Pages:** When a tariff filing is made with the Pennsylvania Public Utility Commission, an updated check page accompanies the tariff filing. The check page lists the pages contained in the tariff, with a cross reference to the current revision number. When new pages are added, the check page is changed to reflect the revision.

COMPETITIVE ACCESS PROVIDER TARIFF

SECTION 1 – GENERAL (Cont'd)**1.2 PRELIMINARY STATEMENT**

NGA 911, L.L.C. (the "Company") has been granted authority by the Pennsylvania Public Utility Commission (the "Commission") to provide resold and facilities-based competitive local exchange, interLATA, and non-local exchange intraLATA services within the State of Pennsylvania, subject to the availability of suitable facilities. This tariff applies only to services for which applicable law or Commission orders require the provision of service on a tariffed basis. Otherwise, all services are furnished on a fully non-tariffed basis.

This tariff is intended to be in conformance with all applicable State and Federal laws (including, but not limited to, 52 Pa. Code, 66 Pa C.S., and the Telecommunications Act of 1996), and with the Commission's applicable Rules and Regulations and Orders. Any provisions contained in this tariff that are inconsistent with the foregoing mentioned will be deemed inoperative and superseded.

COMPETITIVE ACCESS PROVIDER TARIFF

SECTION 2 – RULES AND REGULATIONS**2.1 – Definitions**

Unless the context otherwise requires or, in the case of a special contract, other definitions apply, the following definitions govern the meaning of terms used in this tariff and in special contract for local exchange service.

Agency: For 911 or E911 service, the government agency(s) designated as having responsibility for the control and staffing of the emergency report center.

Alternate Routing ("AR"): Allows E911 calls to be routed to a designated alternate location if (1) all E911 exchange lines to the primary PSAP (see definition of PSAP below) are busy, or (2) the primary PSAP closes down for a period (night service).

Applicant: The term "Applicant" means an individual, partnership, corporation, association, or government agency who applies to the Company for any new or additional telephone service.

Automatic Location Identification ("ALI"): The name and address associated with the calling party's telephone number (identified by ANI as defined below) is forwarded to the PSAP for display. Additional telephones with the same number as the calling party's (secondary locations, off premises, etc.) will be identified with the address of the telephone number at the main location.

Automatic Number Identification ("ANI"): A system whereby the calling party's telephone number is identified and sent forward with the call record for routing and billing purposes. E911 Service makes use of this system.

Business Hours: The phrase "business hours" means the time after 8:00 A.M. and before 5:00 P.M., Monday through Friday excluding holidays.

Commission: The term "Commission" means the Pennsylvania Public Utility Commission.

Company: The term "Company" or "Utility" means NGA 911, L.L.C.

Customer: The term "Customer" is synonymous with the term "Subscriber" and means the entity that contracts for service under this tariff or, as set forth herein, is otherwise responsible for the payment of charges and compliance with the Company's regulations.

Day: The term "Day," when used for purposes of applying rates, means 8:00a.m. to 5:00p.m., Monday through Friday, including Legal Holidays.

Default Routing ("DR"): When an incoming E911 call cannot be selectively routed due to an ANI failure, garbled digits or other causes, such incoming calls are routed from the E911 Control Office to a default PSAP. Each incoming E911 facility group to the Control Office is assigned to a designated default PSAP.

Demarcation Point: The physical dividing point between the Company's network and the customer.

COMPETITIVE ACCESS PROVIDER TARIFF

SECTION 2 – RULES AND REGULATIONS (Cont'd)**2.1 - Definitions** (Cont'd)

Delinquent or Delinquency: The terms "delinquent" and "delinquency" refer to an account for which payment has not been paid in full on or before the last day for timely payment.

2.12 - Continuity of Service/Allowances for Service Interruptions

In the event that the Company has advance knowledge of an interruption of service for a period exceeding 24 hours, the Company will attempt to notify Subscribers in writing at least one week in advance. Interruptions in service, which are not due to the negligence of, or non-compliance with the provisions of this Tariff by the Customer, or the operation or malfunction of the facilities, power, or equipment provided by the Customer, will be credited to the Customer as specified below for the part of the service that the interruption affects. A credit allowance will be made when an interruption occurs because of a failure of any component furnished by the Company under this Tariff.

2.12.1 Credit for Interruptions

2.12.1.1 An interruption period begins when the Customer reports a service, facility, or circuit to be interrupted and releases it for testing and repair. An interruption period ends when the service, facility, or circuit is operative. If the Customer reports a service, facility, or circuit to be inoperative but declines to release it for testing and repair, it is considered to be impaired, but not interrupted.

2.12.1.2 For calculating credit allowances, every month is considered to have 30 days. A credit allowance is applied on a pro rata basis against the rates specified hereunder and is dependent upon the length of the interruption. Only those facilities on the interrupted portion of the circuit will receive a credit.

2.12.1.3 A credit allowance will be given, upon request of the customer to the business office, for interruptions of 30 minutes or more. Credit allowances will be calculated as follows:

(A) If interruption continues for less than 24 hours:

- i) 1/30th of the monthly rate if it is the first interruption in the same billing period.
- ii) 2/30ths of the monthly rate if there was a previous interruption of at least 24 hours in the same billing period.

(B) If interruption continues for more than 24 hours:

- i) if caused by storm, fire, flood or other condition out of Company's control, 1/30th of the monthly rate for each 24 hours of interruption.
- ii) for other interruption, 1/30 of the monthly rate for the first 24 hours and 2/30ths of such rate for each additional 24 hours (or fraction thereof); however, if service is interrupted for over 24 hours, more than once in the same billing period, the 2/30ths allowance applies to the first 24 hours of the second and subsequent interruptions.
- iii) Two or more interruptions of 15 minutes or more during any one 24-hour period shall be considered as one interruption.

SECTION 2 – RULES AND REGULATIONS (Cont'd)**2.12 - Continuity of Service/Allowances for Service Interruptions (Cont'd)****2.12.1 Credit for Interruptions (Cont'd)****2.12.1.3 (Cont'd)**

(B) If interruption continues for more than 24 hours:

- iv) Credits attributable to any billing period for interruptions of service shall not exceed the total charges for that period for the service and facilities furnished by the Company rendered useless or substantially impaired.
- v) For the purpose of applying this provision, the word "interruption" shall mean the inability to complete calls either incoming or outgoing or both due to equipment malfunction or human errors. "Interruption" does not include and no allowance shall be given for service difficulties such as slow dial tone, circuits busy or other network and/or switching capacity shortages. Nor shall the interruption allowance apply where service is interrupted by the negligence or willful act of the subscriber or where the Company, pursuant to the terms of the Tariff, suspends or terminates service because of nonpayment of bills due to the company, unlawful or improper use of the facilities or service, or any other reason covered by the Tariff. No allowance shall be made for interruptions due to electric power failure where, by the provisions of this Tariff, the subscriber is responsible for providing electric power. Allowance for interruptions of message rate service will not affect the subscriber's local call allowance during a given billing period.

2.12.2 Limitations on Credit Allowances

No credit allowance will be made for:

- 2.12.2.1 interruptions due to the negligence of, or non-compliance with the provisions of this tariff, by any party other than the Company, including but not limited to the customer, authorized user, or other common carriers connected to, or providing service connected to, the service of the Company or to the Company's facilities;
- 2.12.2.2 interruptions due to the failure or malfunction of non-Company equipment, including service connected to customer provided electric power;
