To Whom it may concern  
SECRETARY'S BUREAU

This is my response to Judge Jeffrey A Watson

I am following my Dr's orders Dr. William Kracht DO in that I need until Jan 31st 2020 to answer Complainant Interrogatories again. In May of 2019 I did my best of my ability to answer the questions then.

I had many psychosocial events that happened in 2019 that exacerbated my diseases which are overlapping and I struggle just to do minimal activities of daily living.

I have been disabled from my nursing career since Aug of 2008

I have been of formal disability through Social Security since 2010 after a hearing in Dec of 2009. Starting Fed of 2010.

I had a career as a Nurse at the County Home of Berks County Berks Heim due to Fibromyalgia, Chronic Fatigue Immune Dysfunction Disease, Chronic migraines and headaches, Hypothyroidism and Chronic Lyme Disease, Chronic Insomnia.

My illness has not improved and has been reevaluated by Social Security routinely. I have been continued to be found to be disabled multiple times and review since 2010. Usual basic daily living Activities of Daily living for me are very complicated due to trouble concentration wise, chronic sleep problems, Gastrointestinal problems, eating chronic nausea and pain over my whole body. Chemical Sensitivity and Chronic comorbid fatigue persists as medical problems. Electromagnetic Sensitivity persists.

This year I have had these events to exacerbate these chronic issues starting with Jan 6, 2019 (1) The death of my father.

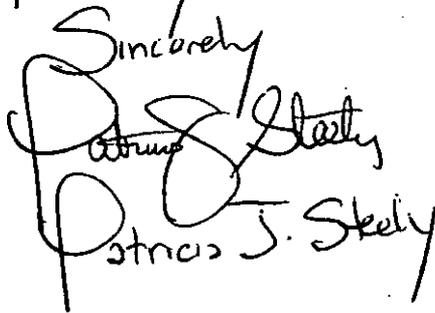

(2) A Car accident May 23 2019 in which I was sitting at a Red light at traffic light for which I was treated medically until Nov end of month. I suffered severe back pain whiplash low back and hip pain and pain continues.

(3) I had storm damage to my home in May 2019. That noisy and →

early in day repair was ongoing until November. I  
Continued to live in my home during repair with my dogs.

④ I also had multiple reinjuries to my toes ③ on my  
right foot that had been badly fractured the year before.

These are the reasons I need the time to complete  
Your request. ⑤ The death of my beloved dog added no less stress to my  
life on Nov. 12, 2019. Thank You

Sincerely  
  
Patricia J. Skelly

I have enclosed the letters again from one of my Drs. ②

It takes everything I have to write this letter today  
with everything I am dealing with. Putting one foot  
in front of the other takes everything I have.

Concentration Brain power and physical ability is at an  
all time low. Even before this many days I have  
to rest or sleep 3/4 of my day to function for simple  
daily activity.

To whom it may concern:

Patricia has documented chemical sensitivity intolerance syndrome with comorbid chronic fatigue-fibromyalgia overlap syndrome and other multiple medical problems.

These multiple conditions are responsible for significant poly-symptoms of severe fatigue, migraine and nonmigraine headache, joint pains, muscle pains, memory impairment with cognitive dysfunction, and sleep disturbance.

Due to the patient's multiple medical problems and associated significant poly-symptoms, it is medically necessary that she be provided a 3-month deferment concerning her smart meter action.

If you have any further questions you may contact our office with the contact information stated below.

Sincerely,

*Provider:*

Reading, PA 19605-

To: Whom it may concern,

My patient Patricia Steely DOB: 03/24/1963, suffers from electromagnetic hypersensitivity. The smart meter emits RF radiation which will aggravate my patients existing medical condition. Because of my patients electromagnetic hypersensitivity, I request the smart meter not be installed, allowing my patient to live in and enjoy her residence without the RF radiation exposure.

Should you need further information, please feel free to contact our office at 215.536.1890. I appreciate your prompt attention to this matter.

Sincerely,

*Provider:*
