Disclosure Statement
for Electric Generation Suppliers

This is an agreement for electric generation service, between *(EGS name)* and *(customer's name and address)*.

Background

We at *(EGS name)* are licensed by the Pennsylvania Public Utility Commission to offer and supply electric generation services in Pennsylvania.

Our PUC license number is A-XXXX-XXXXXXX.

We set the generation prices and charges that you pay. The Public Utility Commission regulates distribution prices and services. The Federal Energy Regulatory Commission regulates transmission prices and services.

Include one of the two following options:

You will receive a single bill from *(billing agent name)* that will contain *(Electric Distribution Company name)* charges and *(EGS name)* charges.

You will receive a separate bill from *(EGS name)* for generation charges and a separate bill from *(distribution utility name)* for its charges.

Right of Rescission - You may cancel this agreement at any time before midnight of the third business day after receiving this disclosure. You can contact us by phone, in writing or electronically (if available) to cancel this agreement. See Section 9 for how to contact us.

Definitions

Generation Charge - Charge for production of electricity.

Transmission Charge - Charge for moving high voltage electricity from a generation facility to the distribution lines of an electric distribution company.

Non-basic Charges - *Define each non-basic service being offered.*

Terms of Service

1. (a) Basic Service Prices - *Itemize Basic Services you are billing for and their prices.*

FIXED PRICE:

You will pay a fixed price of (EGS price) per kWh for electric generation service.

Explain what is included in this price. The EGS's basic service price should include everything that is included in the EDC's Price-to-Compare. Suggested language: "This price includes Transmission Charges (if applicable) and estimated Total State Taxes, including the Gross Receipts Tax, but excludes applicable state and local Sales Tax."

VARIABLE PRICE:

You will pay a variable price that can change (*monthly, quarterly, etc.*). The price for the first billing period will be *(EGS price)*.

Explain what is included in this price. The EGS's basic service price should include everything that is included in the EDC's Price-to-Compare. Suggested language: "This price includes Transmission Charges (if applicable) and estimated Total State Taxes, including the Gross Receipts Tax, but excludes applicable state and local Sales Tax."

Suppliers are to include any variable pricing conditions and limits. If there are no limits, the EGS shall clearly and conspicuously state that there is no limit on how much the price may change from one billing cycle to the next. Information on the limits of price variability, or the lack of limits, must appear in a larger type size.

More information about this variable price product, including what this price has been for the past 24 months, can be found at (www.companywebsite.com) or you can call ((XXX) XXX-XXXX). However, please remember that past prices do not indicate present or future prices.

For both fixed and variable products, the pricing statement should include transmission charges if applicable. Contact the electric distribution utility to determine if transmission charges are included in their price-to-compare.

Electronic Data Interchange and Internet Requirements

Prior to doing business in an EDC service territory, all EGS suppliers, and any broker/marketers that wish to use the Electronic Data Interchange (EDI), must meet the EDI certification requirements of the EDC. Certification is a testing process using the Commission approved Internet protocol. To initiate this process, the EGS is encouraged to contact the EDC as early as possible after filing an application for a license with the Commission, since certification may require as many as four months to complete and customer service contract dates may not commence prior to certification. EDC requirements of new suppliers may be found on the respective EDC home web page. Pennsylvania's industry stakeholder group the Electronic Data Exchange Working Group (EDEWG) develops and maintains the EDI transactions and related business practices, which are found on the Pa. PUC website at http://www.puc.pa.gov/filing_resources/issues_laws_regulations/electronic_data_exchange.aspx. The EDEWG meets telephonically the first Thursday of each month at 2:00pm ET to discuss EDI change control requests and other issues.

To keep current with Pennsylvania EDI practices and policies, a newly licensed EGS is strongly encouraged to participate in the EDEWG by contacting the following:
