RECEIVED

JAN 10 2020

PA PUBLIC UTILITY COMMISSION  
SECRETARY'S BUREAU

To: Administrative Law Judge  
Jeffrey A. Watson  
Administrative Law Judge

(Copy of this letter & Brief once again was sent out to Met-Ed & the Pa. PUC)

I received a letter from you on Dec. 24, 2019.

Copy Enclosed.

First of all I am versing Met-Ed, not the Pennsylvania Electric Company.

2nd - you received my brief. <sup>It</sup> was sent to you 11/19/2019 and you received it 11/31/19. Proof enclosed.

If you misplaced it or filed it wrong, because you have me versing the Pennsylvania Electric Company - I have sent it to you the second time.

See proof enclosed that you already received my Brief on 11/21/19 more than a month ago!!!!!!

Enclosed is another copy of my Brief. I have sent this letter also to Met-Ed & the PA.PUC, Rosemary Chiaro, Secretary. They also received another copy of my Brief which I sent them 11/19/2019!!!

Please call if you have not received the Brief the 3rd time. I always track them & know the P.O. and have my return address on them! (Nothing was returned!)

Sincerely,  
Norma Mosley

v.

Pennsylvania Electric Company

C-2018-3001526

*Complaint*  
*Met-Ed*

**INTERIM ORDER**  
**SETTING BRIEFING SCHEDULE**

*My Brief was sent 11/19/19 and you received it 11/21/19 !!*  
*Proof Enclosed!*

The evidentiary hearing convened in this proceeding as scheduled on November 6, 2019 and was concluded on that date. Upon conclusion of the hearing, the Parties were advised that an order would be entered addressing a briefing schedule.

Based upon the evidence presented at the evidentiary hearing, the filing of briefs would be beneficial in this proceeding but will not be required. However, any briefs filed in this proceeding shall be provided to the undersigned Presiding Officer in written and electronic form on or before January 22, 2020. The electronic form of the briefs shall be submitted to the undersigned Presiding Officer in WORD format. In addition, all briefs shall include proposed findings of fact with specific references to the testimony or exhibit, to support each such proposed finding, proposed conclusions of law with the legal citation of the authority to support each such proposal, and proposed ordering paragraphs. Any argument or discussion shall include the specific legal authority and citations thereto to support such argument or discussion.

THEREFORE,

IT IS ORDERED:

1. That the parties may, but shall not be required to, file briefs in this matter. Any briefs filed shall also be provided to the undersigned Presiding Officer in written and electronic

English - She also wrote a list of the English language.  
Dante and my Mommy spoke in Italian & Spanish.  
Dante's home is near my Pappy only spoke PA.  
My best to write legible. I have saved in a  
I do not have a typewriter as a computer is of that  
I could create them and make them printable.  
To be filled with & put into an envelope as  
I use up to my boxes with photo copies for 8 boxes  
I am leaving an empty letter at home to sleep. And  
on the front of the letter. I give my name so that  
I must also say I'm sorry if I messed you in any  
and must be in your presence within 20 days. And  
who told me my English was not as good as yours  
Argument. I contacted your office & talked to Agnes,  
I thank you for allowing this thing as I'm sorry

here that I'm saying I don't lie.  
I'm giving my name @ 10:00 sharp for proof of  
I finally did as you can hear your phone records  
discussed & had 3 more times to get back to you  
to you. After a few more records & looking at your  
for either on my phone & thought it was being covered  
I told them my name. Agnes said that's her name.  
9:58 and dialed both phone numbers and when called  
thought that I was late calling in. I called in at  
that you were out partying. I thought you might have  
you answered to take to me and said it was 10:06 a.m.

And just one quick note. I know where  
my Nov 6, 2019 hearing.  
Please sign the thing on request from  
J. Administration was Judge Jeffrey A. Watson.

my Nov 6, 2019 hearing

"My Best Mom"  
Summary of my Argument

197 Franklin Rd  
Adamstown, PA 19526  
484-872-3750

Case and Fee: Judge Jeffrey A. Watson  
Nov-21-PA-PUC, Resonant Circuits  
2018-2019

There names were Magdalena (Mammy) and William Gring (Pappy). I was put in Mammy's arms at 2 days old. They were my great grandparents who loved me very much. They named me Norma Katherine. I'm telling you this because sometimes my sentence structure and speaking reflect my Pa. Dutch upbringing but, I try very hard to write & speak properly.

Now, for my summary argument - I cannot say I was treated fairly by Met-Ed's legal team. In Met-Ed's (Request of Interrogatories and requests) sent to me Oct. 26, 2018, I answered every question that pertained to Smart Meters. They wanted to know all that I knew. So, I told them & told them & told them with more & more & more evidence that Smart Meters were not what they portray them to be! With every piece of evidence I gave them, 'same proof! Not conspiracy references as Met-Ed would have you believe! But, reliable, honest, truthful evidence from Great Americans that want to see Smart Meters eliminated. The references are listed on the 2 pages before Chapter 1 in my binder, under Book References & Websites! The Best Website comes from Orlene Koehle (State President, Eagle Forum of California) She and her husband Kurt have 5 sons and 1 daughter & five grandchildren. She grew up on a farm in Idaho and graduated from Idaho Falls High School and graduated from Brigham Young University with a teaching degree. Her husband is the administrator at Sonoma State University and they live on acreage outside of Santa Rosa. She is the publisher of (at last count) 10 books, 2 of which are "Buy Stealth and Deception" and "Just Say No To

Big Brother's Smart Meters: [www.nosmartmeters.net](http://www.nosmartmeters.net)

Other Book References & Publishers:

1. Climate Gate by A.W. Montford
2. The Moral Case for Fossil Fuel by Alex Epstein
3. The Tempting of America by Robert Bark (The Best Book on Constitutional Law ever written)
4. Sustainable by Tom Dewese (and ex-government employee for Home Land Security)
5. The Original King James Bible - author, GOD.  
The God of Abraham, Isaac & Jacob.

(Proverbs: 6:16-19) "There are six things that the Lord hates, seven that are an abomination to Him: haughty eyes, a lying tongue, and hands that shed innocent blood, a heart that devises wicked plans, feet that make haste to run to evil, a false witness who breathes out lies, and one who sows discord among brethren." (Wow! Met-Ed meets all of them!)

(Deuteronomy 25:1) Page 197

If there be a controversy between men, and they come unto judgement, that the judges may judge them: then they shall justify the righteous, and condemn the wicked.

So, you see my Websites and Books are from very good sources. Read them in your binder.

Then just because I presented about 90% of my case in my handwriting using these great references I was told it was all "Hearsay" because I could not produce the people that wrote the books and Websites as witnesses! By not allowing me to present my case violated my

1-9-2020 Norma Morley

my 1st Amendment of Free Speech. But, you could not stop long enough with your "News Says" for the Court to hear my case. For 4 1/2 Hours all you did was "News-Say".

Yet, Mr. John C. Ahr was giving second-hand evidence, because he was just repeating what was written by Met-Ed the Po. Public Utility Co. He didn't even know where I could find the proof that Smart Meters were safe. He had to ask someone else for that information. He couldn't verify why the U.I. Certification is not on any of the Smart Meters - Only that it is written somewhere and they are safe. I didn't know that witnesses could be coached by other people to give them the answers. Nor did I think that if they send me a notice that they were going to be there in Person that they could change their mind without sending out notices of Change & Change to a telephonic Hearing.

Well let me help Mr. Ahr by answering my own questions. Underwriters Laboratory Confirms that Smart Meters are not safety tested, Raising Fire Safety Concerns! Capitola City in California joined six other local governments who have passed laws criminalizing the installation of wireless smart meters because they are not certified by Underwriters Laboratory, a certification that is required under all States electrical codes for all electrical appliances and equipment. The lack of certification was confirmed by Karl Moeller, a Senior engineer with UL. Product certification can be verified by going to [www.ul.com](http://www.ul.com) then scroll down

1-9-2020

Norma Moeller

to the bottom and click on "on-line Certification directory." You can search for active certifications at the on-line certification Directory.

In summary, you cannot confirm that wireless smart meters are UL Certified.

The Lack of certification was confirmed by Karl Moeller, a senior engineer with UL.

Karl E. Moeller  
Senior Customer Service Engineer  
Underwriters Laboratories, Inc.  
1285 Walt Whitman Rd.  
Melville, N. J. 11747

Laws passed Criminalizing the installation of wireless Smart Meters.

<http://bit.ly/fwUgA7> (p. 45)

My conclusion is that wireless smart meters made in & brought from Japan cannot be UL certified because they do not meet the U.S. high standards for Safety!

Met. Ed's lawyers asked me if I had a degree in Electricity. I said no and they "Near Sayed" me again.

It only takes common <sup>sense</sup> that smart meters can generate sparks. They are also being installed very very very close to gas meters. Walk up Main St. in Fleetwood or anywhere and see for yourself. Gas meters always have some blow off gas emitting from them. I know this for a fact. I lived in a home for awhile that had gas heat & a gas stove. - I always had the gas company out at my home I always smelled gas. This answer to me, "that's just blow off gas!" A fire can

1-9-2020

Werna Mosley

be started by an arc from a meter!" The definition of an electrical arc is - "a sustained luminous discharge of electricity across a gap in a circuit." The definition of ignition "The process or means (as an electric spark) of igniting a fuel mixture. Gas is a fuel! It doesn't take a rocket scientist to put it all together! Only Common sense! Which Met-Ed does not possess!"

Tell me! While pumping gasoline into your car's gas tank, would you answer your cell phone? Not if you valued your life! This just speaks to the relative immaturity of Met-Ed & the meter technology! Heck I asked them a simple question and they couldn't answer it! Since Pennsylvania has a lot of Radon in our state. It is a gaseous chemical element that is formed in our soil & shale & rocks & seeps into our homes. Radon detectors like Smoke detectors can detect when the gas gets harmful & set off the alarm. There are companies that can relieve that gas through pipes in your basement to outside of the home. Radon can make you sick or even kill! Since most of Pa's soil has radon, what effect does this gas have on Smart Meters?

Met-Ed's Lawyers answer. He never heard about Radon! Doesn't know what it is! Still more proof that Met-Ed has no knowledge about Wireless Smart Meters.

To me I see this as a fire Hazard or even houses being blown up if the Radon Gas is abundant and gets in touch with the Smart Meter! I am investigating this further.

A few months ago - a contractor working on Main St in Fleetwood hit a gas line. They called UGI to

1-9-2020

Norma Masley

shut off the gas because they knew that blow-off gas fumes could start a fire or explosion if it got in touch with a Smart Meter. And their huge gas meters are right below the Smart Meters. Main Street was completely evacuated & so were the Schools several blocks away. The Town reaction to this disaster "They won't be satisfied until they blow up the whole Dan Town." I lived in Fleetwood! I know all the business people & most of the population. They were scared!

Just speaks to the relative immaturity of Met-Ed & the meter technology!

Seven Binders with my case went out to the Judge, Met-Ed & the PA. Public Utility Company to the cost of about \$700 out of my pocket - only to have 1 Lawyer from Met-Ed Near Say 90% of it. To anyone who has never read my case it's a tragedy because I revealed the truth about Smart Meters from their introduction in the 1800's until the Present and into the future with Artificial Intelligence. All the truth. They think if they suppress it in court it will not be heard. How wrong they are! My case will explode to all the people in Pa. & the U.S. And they will know that 1 Lawyer for Met-Ed was allowed to crush the truth & throw out the 1st Amendment. Tell the masses there is no 1st Amendment! Met-Ed heavily restricted my case from being heard by taking all the bargaining power that is a big part of how we are losing our sovereignty & rights & freedom!

I will say this again "No One can be forced to comply with an unrevealed Contract between private corporations, (Both Met-Ed & the U.S. Government are Corporations) and to which you were never a part and had no knowledge. I

1-9-2020

Norma Mosley

was not a part of it or had no knowledge !!

By law all valid contracts require parties to enter knowingly, willfully and voluntarily, with full disclosure of all the terms; if not, then the contract is considered unconscionable and an act of FRAUD!, and may be nullified, rescinded and revoked dating back to its original signing! The people of the U.S. had no full disclosure + were not voluntarily participants in Smart Meters. So Met-Ed committed an Act of Fraud & should be punished thru the Law like the Criminals they are!

The courts will never hear that Climate Change is nothing but a hoax. And Smart Meters came about because of that Hoax - Met-Ed's Lawyer said it has nothing to do with Smart Meters and "Heard Said" it! How wrong they are again! But, they know they are wrong!

The people won't hear that the Government was changed without their consent in 1891 as a body corporate and municipal jurisdiction. And that it rules by implied consent only! And that each state is its own sovereign republic! The founding fathers set up the Republic so the people of each state has the rights of a Sovereign (all the rights formerly belonging to the King) Those who assert these rights can have freedom, peace and abundance they never thought possible. But, you must stand up & take responsibility and assert your rights. I am a Sovereign and under common law I am enforcing my rights in court to remain in control of my property and everything on it including my analog meter. I am also in control of my liberty & prosperity! And to let the Judge, Met-Ed, Met-Ed's Lawyers, The P.A. Public Utility Commission know since

1-9-2020

Norma Maloy

D.C. only rules by implied consent, I Do Not give  
any Consent to D.C. or the State of Pa. or Met-Ed,  
Wellington or anyone else to put a Smart Meter on  
my Property!

No matter how many "Dear Says" Met-Ed's  
Lawyers say! I have all the Rights formerly  
belonging to the King! I am Sovereign & Free  
Even of your "Dear Says!"

So, to the U.S. Government, The State of Pa.,  
Met-Ed & their lawyers, the Pa. PUC & all witnesses  
including Mr. Ahr and Judge Jeffery Watson, I  
am a Sovereign & Control my life and everything in it!  
So I say to you today do not take away my Analog  
Meter, Do Not put a Smart Meter on my house, Do Not  
turn off my electricity, Do Not threaten me ever  
again and take off all Smart Meter & 5G Cables from  
my house. Make Settlement with me according to  
my Mediation Requests in Section 12 of my binder.  
They are according to the law & I have every request  
spelled out as I want it! Restore everything you  
have stolen from me - including my health, peace of  
mind, my money, etc. etc. etc. all in Binder!

Every word is in my Binder that was thoroughly  
written up by me & is 100% Truth.

God gave me Free Will! The Constitution  
& its Amendments give me rights 1st, 4th, 10th,  
14th and all the others. The government of the U.S.  
rules by implied consent only! Each state is a  
Sovereign republic. And I am a Sovereign with  
all the rights formerly belonging to the King &  
Met-Ed is a Servant not my Lord & Master that

Job, is already filled by Father God, Jesus Christ  
my Lord & Saviour & the Holy Spirit. And Met-  
Ed & all their lawyers & everyone else who has  
come against me & the truth will find that out,  
When they stand before a Sovereign God for judge-  
ment! And Met-Ed & their lawyers along with  
anyone else coming against me & the truth will  
not be able to talk their way out of the evil  
they committed. God will say "Yeas Say" you're  
evil & casts them into the Lake of Fire for all  
eternity! Is it sweet revenge? No because I  
pray for these evil people everyday that they  
may see & tell the truth. Stand up for what  
is right in the eyes of the Lord! You make  
the choices to go to HELL or HEAVEN! No one  
can force you to lie about Smart Meters but yourself!  
So if you go to Hell you put yourself there.

I told the Judge that Met-Ed - The Lawyers & all involved with Smart Meters that (the 2 times) Companies are acting like Hitlers!

Hitler did not yet have such advanced technology as our modern world does today. Still he had a system of spying, surveillance, data collection and control through national I.D. cards and numbers and a police system called the Gestapo, who would reward people for snitching on their neighbors. People who dared to speak out against the government would be gathered up and put in concentration camps or shot in the open streets.

Smart Meters make spying, surveillance, data mining, snitching, control - all so much easier. The detrimental effects on health make it less difficult to "curd the herd" and thin down the population. Smart Meters are a dictator's dream come true!

The Smart Meter/Smart Grid system will enable technocracy to succeed in its original goals - an attempt to impose a totalitarian, scientific dictatorship on the world! The Smart Grid will be the conversion of our existing economic system into something far different and far worse. All this is to help usher in a Socialist system of redistribution of wealth and energy, limit use of our own property and resources, establish regional unions, grids and controls and then one-world economic and political control.

This is strongly reminiscent of Nazi tactics used by the Gestapo back in the 1930-40's, when freedom of choice was replaced with dictatorial law.

The fear that some sort of Nazi-like tyranny is coming has spread across the country. The electrical companies <sup>working</sup> with (International ICL E I have tried to create the illusion Council on Local Environmental Initiative) that the smart meters are mandatory, that any choice to opt out is not permitted and that the Constitution is no longer valid. But that is not true.

All utility companies across the nation, and the world, are installing thousands of wireless smart meters upon all of us, the people, each & every day. They are running rampant over customers. The people are being ignored even though smart meters are making them sick and invading their privacy.

This tyranny must be opposed; it is inhumane. This insanity is directed by the U.N Agenda 21 - the "Absolute Abolition of All Freedom for All People for All Time!"

Let me remind Mr. Ed. that public agencies exist to aid in the conduct of the people's business. The people of the State do not yield their sovereignty to the agencies which serve them. We did not give these public servants the right to decide what is good for the people to know.

And what is not good for them to know?  
You are a public agency created  
by the people. You and your various  
utility companies are supposed to be  
serving us, not being our lord and  
master. Telling us what we can do and  
cannot do with our property, or removing  
our analog meter and forcing smart  
meters on us, without our permission or  
even our knowledge. Instead of serving us, you  
become the master. (as always) If a powerful  
international organization that is dictating to  
you and us, in turn, force those dictators  
upon us. It is also our utility rates that  
got to pay for your application  
with the powerful group, which is costing  
millions of dollars. The groups called ILEI,  
which stands for International Council on Local  
Governmental Initiatives. Now they try to  
disguise their international connections and call  
themselves "Local Government for Sustainability."  
It is a United Nations NGO (non-governmental  
organization) so, in other words, which  
is a member (as noted) of ILEI, is  
now coming under the mandate of the UN.  
\*\*\* This is contrary to the U.S. Constitution that  
prohibits states or local governments from  
entering into any agreement with a foreign  
power (Article I, Section 10) XXXXX

supposed to be your sovereigns are the  
ones whom you are to serve! "NOT THE  
ICLEI"!!!

The mandate that ICLEI is pushing  
upon all of its members is called U.N Agenda 21,  
now called Agenda 30, created in 1992  
in Rio and signed into by 179 heads  
of State. It is a comprehensive blueprint  
to control every aspect of how man interacts  
with the environment. That includes state,  
and local governments, the food we eat, the  
water we drink, the air we breathe, our  
mode of transportation and of course our  
energy use!!

The ICLEI is pushing Agenda 21 (30)  
on their member utility companies (Met Ed)  
through what they call "The Green  
Communities (G.C.) program" which according  
to them is designed to provide data, tools,  
and training to local governments (customers)  
to enable them to better understand  
and manage their municipal and  
community-wide energy usage in  
order to develop and implement climate  
action plans." However ICLEI  
does not just make suggestions they Mandate!

READ THE WHOLE REPORT  
IN MY BINDER! WITH  
THOUSANDS OF OTHER TRUTHS!

## Our Greatest of Founding Fathers

Our greatest of Founding Fathers and our 3rd American President had it right: "When the people fear the government there is tyranny, but when the government fears the people there is liberty!" Knowing that the government over time since our founding as a free nation would grow very corrupt and oppressive, Jefferson predicted and advocated revolution, even a violent one when necessary - in effect to clean out the swamp that would necessarily seek to gobble up liberty while he saw some government as necessary evil, he thus had a huge fear about its ultimately enslaving the lives of American citizens, as it had in France, where he also was one of the architects of its bloody revolution.

Today, 243 years after his having penned the Declaration of Independence, Jefferson's prophecy has come to be sadly realized. Not since the days of King George III has the citizenry been subjected to the degree of tyranny that we now are forced to swallow from not just corrupt politicians and so called government leaders, but those who put them in power and support them, but from our utility companies (who think they are in control) and their corrupt lawyers.

Make no mistake about it, the left is waging a war against the rest of the nation. It is deadly serious and its hatred of the intended American way of life is more than palpable; it wrecks of fatal disdain, condescension and outright rabid and dangerous contempt. If the left had its ultimate wish & design, it would like to kill all of us who stand in its way to a takeover of the nation.

And that again is exactly what the British Crown had in mind when we declared independence on July 4, 1776. Either submit to tyranny or perish. But what is even more troubling is today's

world is that King George III was much less  
of a threat to our survival than the left  
is now. As just one example, he did  
not possess the technology, such a  
mass government surveillance by the  
FBI, CIA and NSA and other means as  
Smart Meters, to corral the people and  
keep them down. We must safeguard our  
liberty and freedom. There are a growing  
number of patriots that are fighting right  
now against Smart Meters not only here in the  
U.S. but around the World. You must see that  
in your Court room.

\* \* Lincoln's Belief that the government  
is of the people, for the people, and by  
the people! \* \*

My knowledge and determination will make  
me free and untouchable and I will never live in  
fear from Net-Ed or anyone else again. And as  
much as I have written up for the court, is only the  
tip of the iceberg of what I know!

Norma Mosley 7/15/19

"The Tempting of America"  
by Robert Bork

When Robert Bork was appointed to the U.S. Supreme Court by President Ronald Reagan, it created a firestorm in Congress, <sup>(what a surprise)</sup> and he failed to get confirmed. Shortly thereafter, he wrote "The Tempting of America," which I believe is the best book about constitutional law in a century, perhaps ever. He said, "What most people don't see is that we are destroying the rule of law. And history tells us that our republic cannot stand unless that evil is corrected." Mr. Bork relates how the Constitution is the big trump card in American politics. Today it is being used by the liberal culture to force their unlawful ideas on people! (Smart Veters, Smart Kids, etc.). The liberal culture often has contempt of history and our Founding Fathers. They foolishly rely on their own reasoning, which is not grounded in foundational law, leading to anarchy! As we live in today.

\* The Founders never intended the courts to be Supreme. Their intention was that the law, rooted in objective and unchanging truth, would be pre-eminent \*X

The liberal culture in politics wants a "living Constitution." They imply the Constitution is dead. They don't want unchanging truth, established 200 years ago, to direct their lives.

The liberal religious culture similarly wants a "living Bible." Their "so-called" "intelligence" demands

7/15/19 Norma Mosley

1/9/2020 Norma Mosley

that they adapt the Bible to modern times -  
even though every word was inspired by  
God. (Matthew 4: 4)

When the new U.S. government was  
established, Benjamin Franklin said that  
"we have, "a republic, if you can keep  
it." It's all about either establishing the  
rule of law - or descending into lawlessness.

Even angelic empires fell because of  
lawlessness. This was Lucifer's problem.

No Freedom Without Law!

The two liberals that started this  
mess with Smart Meters & Smart Grid are  
Obama who announced Stimulus spending  
for the Smart Grid, Smart Meters with a  
signature of a ~~pen~~ and Al Gore (Obama's friend  
& co-conspirator) <sup>Prove enclosed!</sup> This is part of  
Agenda 21 now Agenda 30.

Judges must decide righteously  
Exodus 23: 6-8 Page 75 Please read 6-7+8  
out of your Bible.

Deuteronomy 25: 1 Page 197

1 Verse I can write out:

If there be a controversy between men, and they  
come unto judgement, that the judges may judge them:  
then they shall justify the righteous, and condemn  
the wicked.

Proverbs 17: 15 Page 596 - 1 Verse I can write out:

He that justifieth the wicked, and he that condemneth  
the just, even they both are abomination to the Lord.

## Eugenics

You have all read my report on Eugenics - Copy enclosed.

The Eugenic, Manmade climate hook, Technocracy, The NSD, Illuminati are not conspiracy - They are real. More information in Chapter 5. Everything in this report is real & true.

I've lived with the presence of the Illuminati over my life since I'm twenty years old. I get letters from them on a regular basis no matter where I move & how many different addresses I have, they find me. When my 1st letter came I took it to an acquaintance of mine who was a Mason, he told me what it was. I asked him why they think I have such phenomenal talents & gifts. Since the Mason knew me all my life. He explained to me I was special because before I even said one word of English I was speaking my heavenly language - it was like when my Spirit Body from heaven entered my earthly, human body my language just stayed with me. And that when ~~the~~ they asked me a question they couldn't answer, they asked me & I had the answer. And if someone was dying you were there at their bedside praying for them to be healed. I know 2 well known Preachers on TV that are members of the Illuminati just by their hand signs. They <sup>(the Illuminati)</sup> mistakenly sent me one of their books one time. I took the liberty of reading some of it, before I sent it back. My last letter came to me on Oct. 19, 2019. I sent you a copy of their Symbol, the letter is very private. And I've only shared 1 letter ever because of its contents. So you see they are real & <sup>very</sup> powerful.

Welcome to Eugenics, Population Council, "Environmentalism",  
"The International Planned Parenthood Federation" and  
"Technocracy" Brought to you by the Illuminati - Self-declared Royals

## Understanding the Manmade Climate Change Hoax!

Those pushing manmade climate change want you to believe that CO<sub>2</sub> - a necessary ingredient for all plant life, a condition of photosynthesis and a gas you naturally exhale every breath - is a toxin and a pollutant!

Climate change has become one of the key issues of our time - yet for all the wrong reasons. The propaganda surrounding this event is so thick it has managed to convince people that an essential, life-giving nutrient (carbon dioxide or CO<sub>2</sub>) is bad, that the oceans are unavoidably rising to wipe out shoreline buildings, that humanity is ruining the Earth and that there are too many humans on the planet. Is all this fear and guilt justified? How did it come to this? Did the phrase change from "global warming" to "climate change" so that any weather event could be blamed on humanity? To understand the manmade climate change hoax, we need to take a closer look at its origins.

In the late 1800s, a group of families who controlled the oil and banking industries consolidated power by means of the astonishing wealth they had accumulated. Many of these families were Illuminati bloodlines and self-declared "Royals". They began to invent a new "science" (really a pseudoscience) called eugenics to justify themselves. It went like this: rich people are rich due to good genes, which they pass on to their kids, whereas poor people are poor due to bad genes, which they also pass on to their kids. So, we need selective breeding. We must reduce or eliminate breeding among poor people to maintain a good gene pool for humanity.

However, eugenics, underpinned by this kind of distorted thinking, got a bad name and became a dirty word thanks to the Nazis.

So, after WWII, the eugenicists regrouped and decided to continue their work under different names to disguise their intent. Suddenly there was a Rockefeller-led "Population Council" and similar organizations like the "International Planned Parenthood Federation". They were set up and funded by the eugenicists to carry out their depopulation and global governance objectives.

Around the 1980's or so, the eugenicists made another key shift. This time, they had found an even better cover for their nefarious goals: Environmentalism. They infiltrated the green movement and started promoting the idea that humanity as a whole was a plague upon the Earth. The solution? Austerity (everyone get by with less, except of course our rulers), depopulation (we need less people) and global governance (a one world government or New World Order [NWO]).

The entire manmade climate change hoax hinges on falsified data (fraud) and junk science (ignorance). Many organizations have been caught "cooling the books" over the years, by cherry-picking the data or omitting information to fit the political and predetermined theory that the climate is warming and that man is causing it. In truth, there is a lot of evidence the climate is not warming but is rather cooling but in any event, it is a massive stretch to say that mankind is responsible for it. We are tiny creatures on an enormous planet that itself is subject to celestial bodies and massive forces (the solar retrograde cycle, the little ice age

Cycle, the Milankovitch cycle, etc.) from outside the atmosphere. The sun, a giant ball of fire, influences the climate way more profoundly than humanity ever could. The sun goes through its own cycles and guess what? - The Earth's temperature correlates to those cycles !!!!!

Fraud is one thing, but the demoralization of CO<sub>2</sub> is unadulterated junk science and shocking ignorance. Those pushing manmade climate change want you to believe that CO<sub>2</sub> - a necessary ingredient for all plant life, a condition of photosynthesis and a gas you naturally exhale every breath - is a toxin and a pollutant! The implication is that you should feel guilty just for breathing and being alive, you "pollution producer"! This is insane since plants need CO<sub>2</sub> to transform into oxygen gas for us to breathe; without CO<sub>2</sub>, humanity could not survive. In fact current CO<sub>2</sub> levels of 300-400 ppm (parts per million) are dangerously low; if they drop further to 150 ppm, they will no longer be high enough to support plant life. For historical perspective, the Earth has had levels of 3000-4000 ppm in the past (over 10 x the current levels) ... and there weren't humans driving around with diesel engines back then. The simple truth is that CO<sub>2</sub> is good for plants, contributes to the reforestation of the planet and therefore helps to produce higher oxygen levels for the planet. For years we have been told to watch and reduce our carbon footprint, which doesn't make any sense, since we ~~are~~ <sup>are</sup> made of carbon. We are carbon lifeforms. Overpopulation propaganda has even convinced some young women to overrule their biological drive

and not have kids because the world is "too crowded"! The population control enthusiasts must be rubbing their hands in glee. All this focus on carbon has now led to systems of carbon sequestration, carbon credits and carbon offsets, and a multi-billion industry of carbon trading (Cap and Trade), led by the infamous huckster Al Gore, heir to a large oil inheritance. So much money and political power is at stake for the truth to be revealed that manmade climate change is a false alarm. This entire swathe of propaganda is designed to support the idea of a global carbon tax administered by a global government!

All this is eye-opening, but hang on, because as you go further down the rabbit hole, the agenda gets even more disturbing. \* The eugenicists' dystopian vision has been dubbed technocracy - (rule of technology). The idea is to create megacities (smart cities) where everything is connected to a giant (control grid of smart meters.) In fact, the idea is to link every single manufactured product to the network, called the internet of things, by means of internal wireless RFID chips. This means living in a world where your toothbrush, fridge, fan and TV all talk to each other and the grid, and energy consumption is strictly monitored and controlled. But that's not all; the technocrats want to create a world of energy rationing where a centralized authority dispenses energy allotments and that's all you'll have to live on for the month. There will be no cars, but rather autonomous self-driving vehicles and

mass transit; there will be no decentralized solar panels on your house, but rather you will live in a cramped, shoebox-sized apartment (stack and pack). Meanwhile, the new and highly dangerous 5G wireless network will radiate you 24/7, and if you suffer health effects from it, you have no legal recourse.

There's a couple of key things missing in this bleak future: Privacy, Sovereignty, and Freedom! The latest incarnation of the manmade climate change movement is the "Green New Deal" promoted by new Congresswoman Alexandria Ocasio-Cortez. Even the name "Green New Deal" contains the phrase "New Deal" which refers to the sweeping socialistic changes to U.S. law and society made in the 1930s by then US President Roosevelt which included confiscating the gold of Americans and substantially expanding the power and jurisdiction of the Federal Government. The Green New Deal is just another incarnation of a far-reaching plan to bring about a NWO via the UN Agenda 2030  
(New World Order) United Nations

(formerly 2021). It calls for sustainable energy for all (sounds great), but who is going to pay for it? What are we going to have to give up to get it? Can we only get this new sustainable energy if we move into an "approved" area (i.e. a Smart City Megalopolis) and submit to being on the grid 24/7 with smart meters and 5G radiating us? If you pay close attention to these schemes, notice how they always seem to require more government control in order to be implemented.

The manmade climate change movement is a pretext

1-9-2020 Norma Mackay

see that our compassion can be exploited if we don't understand the cunningness of the master manipulators and their grand NWO agenda. Educate yourself on the manmade Climate Change Scams, and concentrate your efforts on fighting the enemy and not on the fake carbon issues which plays right into the hands of the technocrats. Get Informed! With Smart Meters being forced on homeowners & 5G being rolled out in many American towns & cities, this is the time to take action to stop the NWO, Illuminati, Al Gore, Obama, The Government, The Army, etc. ! The Clock Is Ticking. We Need to Fight Now!

How can we look at the Young Men & Women who fought for our freedom and tell them their fight for our freedom was for nothing - Because we won't stand up & fight beside them! I'd rather die fighting than have my brain & body fried with 24/7 radiation!

And remember 5G is being rolled out regardless of health and privacy risks. It is a weaponized communication and broadcasting system that is setting up an EMF grid which uses your sweat glands as antennae and has the capacity to alter ~~you~~ <sup>and</sup> control your mood. The toxic effects of 5G and smart meters are everywhere. It takes all of us to fight!

The Dark Truth About 5G: Which is Military Weaponry sold to you as telecommunication Convenience is an anti-life technology. Broadcasting.

5G at someone is like shining a laser at them which is already an offense (assault). Millimeter wave exposure causes damage in seconds to minutes even at frequencies of 40-130 GHz; 5G operates at frequencies of 24-86 GHz or even 95 GHz. Millimeter waves damage mitochondria and can cause antibiotic ~~to~~ resistance (leading to superbugs); which will prepare mankind for AI infiltration where billions of nanobots swim through your blood, communicating with your biological neurons and hooking you up to the internet. This is REAL!

Artificial Intelligence

Norma Morley

9/25/19

Please add this to your Docket # C-2018-3001526 Binder for my Smart Meter Hearing. Place it in Section 2 right before the Lehigh Valley Commentator Report.

I will continue working to bring you more proof about Smart Meters, 5G + Those who are so evil that they will spend eternity in Hell! That means everyone pushing Smart Meters, 5G + Lying about Climate Change!

1-9-2020 Norma Morley

To: Administrative Law Judge Jeffery A. Watson:

I thank you for allowing the entire Title 66 -  
Especially Sec. 1501 + 1502 of The PA. Public Utilities  
Report. And also my health Reports, Jurist Answer  
Q + A sheet, House Bill 1564 etc. But 90% of  
my case was not heard because of Hear Say from  
Met-Ed's lawyers. Thousands of truths were silenced.  
I couldn't present them because they were hand written  
up. And even though my references were - great - I  
could not produce the writers of the Books + Websites  
as witnesses. That is unjust in every way. I  
thought if we had any chance in court it would be  
thru the Judges. But, you hadn't even read my  
case before it was presented to you in court. So,  
what chance did I have? But Met-Ed's lawyers  
read it all + before my mouth was even opened  
she (the lawyer) "Hear Said" my case because they didn't  
want you knowing the Truth!

Maybe, just maybe one day you will sit down  
+ Read my full case! Without these truths you  
know nothing. And Met-Ed knows all my  
truths. Let Mr. Ahr. read my case. There is  
a good article in Chapter 7 (The Article Published in  
The National).

Remember once you know the Truth and  
do nothing about it - That makes you as  
guilty as Met-Ed!

Will never say hi! I talk to  
you or anyone else!

RE: Service Address: 197 Forgehill Rd. Hamburg, PA 19526  
Account Number: 100013949183

Dear Thomas E. Mosley:

We have made several attempts to contact you so we can discuss with you the installation of a smart meter at the service address shown above. Unfortunately, we have been unable to make arrangements with you to install the new meter.

It is important to note that the company is required by Pennsylvania law (Act 129) to install a smart meter for all of our Pennsylvania customers. (For more information about the law that mandates our smart meter program, you can visit the Pennsylvania Public Utility Commission's website <http://PAUTL.com/PXw5x>).

*Does Not Mandate*

Please call us at 1-855-344-3400 (Monday through Friday, 8:00 a.m. to 6:00 p.m.) so we can answer questions that you have regarding our smart meter program and make arrangements to install the new meter. Please be aware that failure to comply with this request could result in the shut off of your electric service.

Sincerely,

Pennsylvania Meter Deployment

**10 DAY SHUT-OFF NOTICE**  
**AVISO DE SUSPENSION DE SERVICIO**

RE: Service Address: 197 Forgehill Rd. Hamburg, PA 19526  
Account Number: 100013949183

Dear Thomas E. Mosley:

**Your Electric Service May Be Shut Off!**

Because you have failed to make arrangements for the meter at your premises to be replaced with a smart meter, service to 197 Forgehill Rd. will be shut off on or after April 23, 2018. The company may have up to 60 days to act on this notice.

Your electric service will not be shut off if you contact us immediately to make arrangements for the meter at your premises to be replaced with a smart meter. If your electric service is shut off, service will only be restored after a smart meter has been installed on the premises. There will be no reconnection charge.

Please call us at 1-855-344-3400 (Monday through Friday, 8:00 a.m. to 6:00 p.m.). We would like to answer questions that you have regarding our smart meter program and make arrangements to install the new meter.

**IMPORTANT TO KNOW BEFORE YOUR ELECTRIC SERVICE IS SHUT OFF**

- If you have questions or need more information, please call us at 1-855-344-3400. After you talk with us, if you are not satisfied, you may file a complaint with the Public Utility Commission (PUC). The PUC may delay the shut-off if you file the complaint before the shut-off date. To contact them, call 1-800-692-7380 or write to: Pennsylvania Public Utility Commission, Box 3265, Harrisburg, PA 17105-3265.
- If you have trouble understanding or speaking English or have a disability, please call us at 1-855-344-3400 for free interpretation.
- If your service is shut off, you must contact us to make arrangements to have the smart meter installed on your premises to have the service turned back on.
- After all conditions have been met to have the service turned back on, it may take up to three days to have your service restored. Please contact us to discuss the details.

Atencion! Este es en mensaje muy importante. Si usted no lo entiende, favor de llama a 1-855-344-3400.

# Fifth Generation (5G) Cell Phone Systems Threaten Health & IQ

**By Mojmir Babacek**

*In 1960 Allan H. Frey was 25 years old, he had graduated in biophysics and worked at General Electric's Advanced Electronics Center at Cornell University. It was then that a radar technician invited him to come and listen to a clicking sound of the radar broadcasting, which he was hearing in his brain at his workplace.*

*Allan Frey made a discovery that started his lifetime scientific research. Just one year later, in 1961, he published his experiments in a scientific magazine that people could hear in their heads, at a distance of 300 feet from the antenna, different sounds produced by pulsed microwaves. With this same method, he also produced in people the perception of severe buffeting of the head, or the pins and needles sensation. His further experiments were financed by the U.S. Navy and Air Force, which could see in his experiments the potential for new types of weapons. Allan Frey began to experiment with rats and frogs and found out that to influence the activity of their nervous system he needed much lower density of electromagnetic energy than is the density of electromagnetic energy used nowadays for the communication by cell phones.*

**R**obert Becker was twice nominated for the Nobel prize for his research on effects of electric and magnetic fields on healing of fractures. At the end of 20th century he testified in a trial where the state of Wisconsin tried to ban the construction of an antenna for communication with military submarines on its territory. The antenna was supposed to use 90 Hz frequency, which is within the range of the functioning of the human nervous system. Robert Becker testified that the transmission of the antenna could be harmful to people.

When he lost his job for this testimony, he started writing books on the research of effects of electromagnetic radiation on the human organism. In the book entitled *Body Electric*, he wrote about the experiment by Allan H. Frey, where he slowed down the heart-beat of frogs by electromagnetic energy with a density of 3 microwatts per square centimeter.

Just to have a comparison—in the European Union the limit for electromagnetic exposure is at the frequency of 900 MHz set to 450 microwatts per square centimeter and at another microwave frequency used by cell phone systems 1800 MHz to 900 microwatts per square centimeter.

1-9-20 20

Norma Mosley

X Just to have a comparison—in the European Union the limit for electromagnetic exposure is at the frequency of 900 MHz set to 450 microwatts per square centimeter and at another microwave frequency used by cell phone systems 1800 MHz to 900 microwatts per square centimeter. This means that it is permitted in the European Union to expose people to a density of electro-magnetic energy 150 to 300 times higher than is necessary to slow down the heart-beat of a frog. With the fifth generation (5G) of cell phone systems, this density will be increased at least tenfold.

This means that it is permitted in the European Union to expose people to a density of electromagnetic energy 150 to 300 times higher than is necessary to slow down the heart-beat of a frog. With the fifth generation (5G) of cell phone systems, this density will be increased at least tenfold. It is possible to object that at higher frequencies the skin will absorb most of this radiation, but the human body is full of salty liquids and this kind of electrolyte may act as an antenna which will carry this radiation deep into the human body—just see the veins (covered just by millimeters of skin), which are full of blood, which is an electrolyte. In addition, the radiation will be transmitted constantly and there will be no place to escape

from it, since it is supposed to enable driver-less car transportation and so it must penetrate every inch of the planet.

In 1975 Frey published an experiment where he injected a fluorescent dye into the circulatory system of white rats, then swept the microwave frequencies across their bodies and the dye had leached into the confines of the rats' brains. It proved that microwave frequencies can breach the barrier between the blood and brain allowing toxins and viruses to enter the brain. Swedish scientist Leif Salford is engaged in similar experiments. He exposed three groups of rats to the power density of 24 microwatts, 240 microwatts and 2400 microwatts and found out that due to penetration of

1-9-2020 Norma Masley

## CAROTEC INVESTIGATION

toxins into their brains a number of neurons in their brains were destructed, while in the control group, which was not exposed to this radiation, it did not happen. Similar results were obtained by 13 scientific laboratories in 6 countries.

Indian scientists carried out an experiment where rats were exposed for 180 days for two hours a day to cell phone radiations in 900, 1800 and 2450 Mhz. Prior to the experiment the rats were trained to move in a maze. After the exposure the reactions of irradiated rats were slower than the reactions of rats that were not exposed to microwave radiation. The scientists drew a conclusion that the ability of exposed rats to learn and to remember was damaged. Their DNA was also damaged. To measure the exposure of rats to electromagnetic radiation the Indian scientists used a specific absorption rate. In their experiment it was 595 microwatts per one kilogram and 672 microwatts per one kilogram. According to the European norms, people may not be exposed to a density of electromagnetic radiation exceeding 0.08 Watts per one kilogram. Again, this exposure is high above the exposure where toxic effects of microwave radiation on rat's brains were observed.

With this finding we should not be surprised that the intelligence quotient of people living in developed countries is decreasing since the 1990's, when the density of electromagnetic radiation in the human environment has been exponentially growing.

Allen H. Frey wrote in 2012, when he was already partially retired, that in the USA the results of effects of microwave radiation on people were falsified during the Cold War years to assure people that the radiation from military radars could not harm them. Another reason to block and disqualify the unclassified research of the effects of microwaves on human organisms was to hide the microwave bio-weapons program. For that matter the contractors, hired by the military, supposedly replicated Frey's experiment with injecting dye into

the blood of rats by injecting it into their intestines instead of injecting it into their blood. At the scientific conferences they then presented the results of their experiments where the dye did not penetrate the rat's brains. In this way they suppressed the impact of Frey's experiments. To keep hiding the military research of bio-weapons the U.S. government stopped financing unclassified research in the microwave area and in this way also stopped the subsequent publication of the results. Stopped was, as well, the funding of Frey's research on the barrier between blood and brain.

Apparently, the same situation exists worldwide and many scientists do not oppose the implementation of the 5G systems, because they are afraid that they could lose the funding of their work in the same way as Robert Becker. In the conclusion of his article, Frey wrote that, for those reasons, hundreds of millions of people who began to use cell phones became subjects of experiments they never gave informed consent to.

However, all over the world there exists legislation prohibiting experiments on people without their informed consent and at the present time the world mass media fails to inform the general public of the risks connected to the use of cell phones and the implementation of the fifth generation of the cell phone systems networks. In this way people are not allowed to know that electromagnetic radiation produces in their organisms' oxidative stress, which can contribute to the following illnesses:

- Cancer (for example in the Czech Republic since 1985, when the use of microwaves started growing—GPS, cell phone systems and Wi-Fi—until 2016 the occurrence of cancer disease grew by 141%)

- Diabetes (in the Czech Republic were registered 184,000 people with this disease in 2008 and in 2018 it was already 320,000—the number of ill people grew almost by 100% in 10 years, there are some 10 million inhabitants in the

1-9-2020 Norma Morley

Czech Republic)

- Parkinson's disease (20,000 people are ill with this disease in the Czech Republic in this year and in 2030 it is expected to be 30,000 people)

- Alzheimer's disease (at present time there are 135,000 people ill with this disease in the Czech Republic and it is expected that there will be 225,000 of them in 2050—in the last five years that number grew by 38% and certainly the life expectancy in the Czech Republic has not grown by 38% in the last five years)

- Autism (in 1975 one out of 5,000 people suffered with this disease in the Czech Republic, in 1985 it was one out of 2,500 people, in 2007 it was one out of 150 people and in 2015 it was one out of 86 children This is the increase by 5000% in 30 years!)

According to the scientific research all of those illnesses can be produced by oxidative stress, caused in the human organism by electromagnetic radiation. It is highly logical to find that there is a coincidence between the rapidly growing density of electromagnetic radiation in the atmosphere since the introduction of GPS, cell phone technology and Wi-Fi and the rapidly growing occurrence of illnesses which can be produced by oxidative stress produced by electromagnetic radiation.

It would be appropriate to sue any governments that promotes the introduction of 5G mobile technology without verifying its harmlessness, for experimenting on people without their informed consent, and consequently sue the actual members of those governments for the further increase of the occurrence of the diseases mentioned above after the introduction of the 5G cell phone systems.

The readers may sign the appeal for the worldwide ban of the introduction 5G technology:

# Environed Lives

Billee Shoecraft's personal tale of toxic spraying,  
dubious science and callous government officials

(The following is an excerpt from Billee Shoecraft's *Sue The Bastards*. The book is out of print but we suggest trying a used book store for a copy; it is worth reading.

Sadly, Shoecraft passed in 1976 from cancer, due to the toxic spraying she endured. We reprint her "I Have Met the Enemy" from her book because of its powerful prose. Her words were carefully chosen to wake a sleeping public into action. She earned the right to lash out at everyone she named because she fought all the way to Washington, D.C.)

I have met the enemy. He wasn't carrying a rifle or a hand grenade. He had no swastika emblazoned on his sleeve. He was not shrieking obscenities or threats of violence against my country of America. The flag he carried was not of some communist nation. It was my flag—with the stars showing proudly and the stripes softly waving against a dark sky.

But he was—and is—my enemy.

Why? Because as long as he remains insulated in his complacent world obtaining a little knowledge, but not enough to disturb himself, he is my enemy, and his own, also.

I have met some who are proud to refer to themselves as "scientists", but many of them close their minds and ears to any knowledge that might upset the pattern of their thinking. They jealously guard their findings, and share it with no one.

I classify as "my enemy" any man or woman who remains part of the "great silent majority" who are unaware of what is happening to them and their country because of the flagrant, undisciplined and damnable use of dangerous chemicals.

I blame them more for remaining silent and undisturbed when facts are poured out before them that prove more deadly chemicals are being sprayed "USDA" approved on the forests, rangelands, watersheds and food crops of America than are used by the Department of Defense.

I blame the housewife who saunters into the grocery store, haphazardly selects a can of spray to kill flies, and kills her dog instead.

1-9-2020 Norma Mosley

I blame the manufacturer who created the product, knowing there would be many persons purchasing it who show less mentality than an idiot.

I blame the storekeeper who hasn't the vaguest knowledge of what he stocks on his shelves and could care less!

I blame the farmer who insists he must use these chemicals to grow crops to feed the starving millions who eventually die anyway from the mess sprayed on the food or worse yet, they cripple through life not knowing what in the hell is wrong when they're suffering from pesticide poisoning!

I blame mostly those in government positions who have no true understanding of these chemicals on which they stamp their seal of approval or when they learn of dangers relative to any certain chemical they mumble more "inspired ignorance" to soothe the untroubled masses. I cannot use the phrase "troubled masses" for they are not. They are merely masses of humanity who are doing themselves in quietly and efficiently, by refusing to become concerned over anything that might mar the illusion they hold eternally before themselves: that the Department of Agriculture, the Department of Health, Education and Welfare, and the Food and Drug Administration, are in the heavens, so all's right with the world! They remain blissfully ignorant while the world and every living thing on it goes to hell around them!

I agree that the USDA, HEW and the FDA work overtime to create "This is God Speaking" image,

but those of us who have torn away the mask have found much less than even a reasonable facsimile! The ignorance is greater than the arrogance and the lack of any method to their means of madness becomes overwhelming!

But anyone who does not learn is an enemy to himself. In a land that is still free, he may learn as much as he desires about what is happening to his country. All that is necessary is to demand answers, not alibis, and facts, not fiction.

But most people behave like scattered, addle-brained sheep with no direction and no leader. Why? Because most of them like it that way. It gives them an excuse for their own inefficiencies and failures. These are their crutches. If removed, they would collapse in a mass of confusion made of their fears.

Each time a man shies away from cold, hard factual knowledge because it might disturb his world, he sells a little bit more of my world—my world—my good earth—my America, for a price that is less than a penny a pound.

Stop accepting what is handed to you as "truth" until you check the giver. Don't believe a man necessarily because he is a scientist, or a bricklayer or an architect or a manure salesman—unless that man is truly qualified in the specific field of your inquires: knowing the difference between "squash joints" or "raked" may not make a competent bricklayer. Do not expect the letters A.I.A. (American Institute of Architects) behind the architect's name to mean he is qualified to design an organic Frank Lloyd Wright type of home, and the manure salesman may be peddling bat-dung when you wanted horse manure for your potato patch! If everyone would stay awake, really awake, and alive, for just 10 minutes every day and start caring about what's happening to all of us, the results would be astounding.

The anger in me is riding close on the heels of frustration, but frustration accomplishes nothing. Neither does anger unless it's justified and directed constructively.

I look at the title of this chapter, and I finish it with the words of Pogo:

"I have met the enemy and he is us." ♥

# Dangerous 5th Generation EMF Coming Soon?

*By Dr. Mercola*

The 5G, or 5th Generation wireless network is the latest generation of mobile technologies that the industry is rallying behind, touting it as a way to create faster internet and cell phone services. Unlike the 4th Generation currently in use the 5G millimeter wave (MMW) is expected to be 10 to 100 times faster than the 4G and capable of supporting at least 100 billion devices. While the telecom industry is touting 5G as a necessity for modern life, opponents point out grave public health concerns. The antennae enclosures added to utility poles and lamp posts may not only be eye sores, but also pose a very real threat to public health. While MMWs have not been widely used before, there are some concerning findings to date, including that sweat ducts in humans skin act as antennae when they come in contact with MMWs. The waves penetrate 1 to 3 millimeters of human skin tissue and are also absorbed by the surface layers of the eye's cornea. In addition, there is a possibility the technology could worsen the problems with antibiotic-resistant bacteria already plaguing the world, as they cause changes in E coli and many other bacteria. This also raises concerns that the technology could lead to similar changes in human cells.

A \$25 million research conducted by the National Toxicology Program (NTP) included two separate animal studies that revealed exposure to the type of radiation emitted by 2G and 3G cell phones could cause heart tumors, DNA damage and tumors in the brain, prostate, liver and pancreas. With 5G technology, these concerns are exponentially elevated. According to research by Dr. Yael Stein of Hebrew University of Jerusalem, computer simulations have revealed that sweat glands concentrate MMWs in humans skin, which may be sensed as heat waves or physical pain by humans. In a 2016 letter to the Federal Communications commission (FCC) in opposition to 5G technology, Stein wrote: "If these devices fill the public space they will affect everyone, especially the more susceptible members of the public - babies, pregnant women, the elderly, the sick, and electro-hypersensitive individuals. Potentially, if 5G WI FI is spread in the public domain we may expect more of the health effects currently seen with RF/microwave frequencies, including many more cases of hypersensitivity (EHS), as well as many new complaints of physical pain and a yet unknown variety of neurological disturbances. It will be possible to show a causal relationship between 5G technology and these specific health effects. The affected individuals may be eligible for compensation." In addition, a host of other research shows the proliferation of 5G for the sake of faster internet could be a public health disaster. For instance, the frequencies of 5G have also been linked to lens opacity in rats, which is linked to the formation of cataracts; impacted heart rate variability and heart rate changes (arrhythmias) in frogs; and immune system effects in healthy mice.

There are serious environmental issues to consider as well, because MMWs are absorbed by both plants and rain. Studies have already shown that MMWs may invoke stress protein changes in plants such as wheat shoots, while low levels of non-ionizing radiation have been linked to disturbances and health problems in birds and bees. It could even pose a danger to the food supply via its potential absorption by plants. Humans and animals alike consume plants as a food source. The effects 5G has on plants could leave us with food that's not safe to consume. Think GMOs on steroids. Many are not aware that the global 5G wireless network requires the use of rockets to deploy satellites.

Once installed in your neighborhood, you won't have a choice to opt out of 5G exposure. An open letter to medical organizations by the Global Union Against Radiation Deployment From Space (GUARDS), points out, "Flooding the planet with microwave radiation in this way is a violation of human rights. Space-based microwave radiation deployments threaten to inundate the planet with RF radiation without informed individual consent or a meaningful option for individual avoidance. Pulse-modulated microwave radiation has been reported by thousands of peer-reviewed studies to cause cancer, DNA damage, infertility and blood-brain barrier damage. It impairs immune, endocrine, cardiovascular, and neurological functions in humans, and ultimately adversely affects all living things. Some satellites will use a very high-frequency portion of the spectrum (MMWs) shown to cause cellular resonance effects."

If you want to get involved in keeping 5G out of your community, the country and the world, please contact your legislators to voice your opposition. Parents for Safe Technology has more information, and a list of U.S. agencies you can contact about this important issue for the health and safety of future generations and the planet.

## Toxic EMFs Are Killing Not Just Bees

Do you know that bees have an electrical sense? In relation to each other, bees are positively charged and flowers are negatively charged; so when bees pollinate, the electrical polarity helps the pollen stick to bee's hair. Like many creatures such as birds, bats and whales, bees also heavily rely on sound and EMF for their very survival, including for orientation, navigation and communication. They transmit and receive on certain frequencies; and if there is too much interference occurring, it wreaks havoc on their lives. Increasing artificial EMF, especially high-frequency cell-phone bands, Wi-Fi, and the digital horizontal block frequencies, are jamming the bees communication channels to the point of threatening their survival.

German scientist Dr. Ulrich Warnke wrote: "Bees and other pollinators, just like birds, use the Earth's electromagnetic field for orientation and navigation. Artificial electromagnetic oscillations disturb this natural mechanism created by nature. GMOs, Pesticides, severe winters, etc. could also contribute to the bee colony collapse. But none of these convincingly explains the fairly sudden and country-spanning appearance of the dying bees phenomenon."

Famous whistleblower Dr. George Carlo, a former mobile-phone industry insider, wrote: "Unfortunately, the situation with the bees is a page out of the playbook that we deal with all the time with the mobile-phone industry. When the bee story first broke, it was based on a German study that showed information-carrying radio waves disrupted the ability of bees to make it back to their hives. The news media ran with the story, and the mobile-phone industry was caught off-guard by the attention the story garnered. Soon the industry hit squad went into action. They conscripted – and paid well – scientists from a number of universities who 'found' other explanations: viruses, bacteria, pesticides, etc. The manipulation of the public perception is the appropriate remedy for them. Most people don't know the back story, so they do not see the manipulation coming, or don't have the necessary bases for skepticism to see through it. But here is the bottom line: The colony collapse has occurred concurrently on 4 continents within a very short time frame. If the reason was biological or chemical, there would be a pattern of epidemic spread; we would be able to trace the spread of bee disappearance from a source similar to the spread of SARS a few years ago. That is not the case. The debacle has hit each continent at roughly the same time. Mobile phones meet that criterion."

It appears that humanity is killing bees (and other vital pollinators) at an alarming rate. However, we are not just killing bees – we are killing ourselves. We are electrical and electromagnetic beings. These artificial EMFs are affecting us too. EMFs have been linked to Chronic Pain, Neurological Disorders, Depression, Stress, Brain Fog, ADD/ADHD, Autism, Alzheimer's, Parkinson's, Fibromyalgia, Cancer, Lyme Disease, Leukemia, Nausea, Asthma, High Blood Pressure, Reduction of Red Blood Cells, Palpitations, Digestive Disorders, Low Libido, Infertility, Miscarriages, Birth Defects, DNA Damage, Lupus, Tinnitus, Eye & Skin Problems, Insomnia, Impaired Immunity, and many other disorders. The bees may be warning us before it's too late, before we bathe our entire world in an artificial EMF blanket from which there is no escape. Dr. Robert O. Becker, author of *The Body Electric*, said, "I have no doubt, the greatest polluting element in the Earth environment is the proliferation of artificial electromagnetic fields. I consider that to be far greater on a global scale than warming and the increase of chemical elements in the environment."

If you think the current EMF contamination is bad enough – fasten your seatbelts: A predatory wireless communications industry in cahoots with bribed politicians are about to unleash the most ferocious bogymon on humanity and the environment: 5G (5th Generation) is being sneaked in while nobody is watching. 5G radiation is over 1,000 times stronger than what we are currently exposed to. Lord have Mercy!
