GA PUC
SECRET OFFICE DIRECTOR

Motion to supplement exhibits for
continuing in-writings hearings.

Complainants, Cumming and Mousros, request supplementation of exhibits due to the following reasons:

1) Judge Neep was UNTIMELY in ruling that Complainants' Motion to Stay was denied. Judge Neep did not contact Complainants - not even through Mr. Cumming's phone. Complainant Mousros had to hunt down Neep's ruling via a long phone line threaded through the window in the freezing outdoors.

Therefore, complainants did not know until last minute, given time required for mailing, whether the hearing was to be held.

2) Ms. Mousios has been forced to be homeless by PUC's and Met Bd. reciprocity via the toxic adjacent smart meter. She cannot live in her home where the aforementioned exhibits are. Mr. Cummins had been unsuccessful in locating said exhibits by the last-minute known hearing date. Therefore, there are extra machinations involved in getting the extra exhibits to Ms. Mousios' homeless shed with no water or electricity and very little heat.

For Judge Heep to rule against
 further exhibits, given the circumstances
 would fail to account for the fact that
 an in-writings hearing is a PROCESS,
 It would also violate Complainants'
 rights ~~of~~ due process to preserve their
 issues on appeal. Since Judge Heep
 cannot be objective and always rules
 with the toxic smart meter purveyors,
 any denial would be a violation of
 complainants' due process and preservation
 of their issues on appeal.
