**PPL Electric Utilities Corporation
Response to the Data Request of
The Bureau of Technical Utility Services
Dated February 6, 2020
Docket No. U-2020-3017442**

- TUS-1 Reference the Agreement, First Sentence. Please provide a detailed description of the methodology used to determine the dollar amount to be paid by PPL Electric.
- A.1 The cost was determined through negotiations between PPL Project and Construction personnel and the Oregon Township Supervisors. Oregon Township procured a repair estimate from local material and equipment suppliers with their internal labor force, following discussions with PPL to review the current age and condition of the area to be repaired. PPL Electric is familiar with current construction costs in the area and determined that the estimate provided by the Township was reasonable. Once all terms were agreed to, the proportional amount to be paid by PPL was determined and agreed upon by both parties. This is the amount for which PPL is currently seeking PUC approval (\$46,930.00).

VERIFICATION

I, JOHN J. DALY, being the Construction Supervisor at PPL Electric Utilities Corporation, hereby state that the facts above set forth are true and correct to the best of my knowledge, information and belief and that I expect PPL Electric Utilities Corporation to be able to prove the same at a hearing held in this matter. I understand that the statements herein are made subject to the penalties of 18 Pa.C.S. § 4904 relating to unsworn falsification to authorities.
