Lot/Block No.:	<u>708-R-120</u>
(Municipal Use Only)	

**BOROUGH OF SEWICKLEY HEIGHTS  
ZONING PERMIT**

Zoning Permit Issued to: Solar City Corp. Telephone No.: 412-584-0545

Landowner's Name: Mr. and Mrs. Frank Cservak E-mail: fcservak@c-mservices.com

Landowner's Address: 174 Barberrry Road, Sewickley, PA 15143

Landowner's Telephone No.: 412-427-4385 (Office) (Cell)

General Contractor's Name: Solar City Corp. / Tesla E-mail: Melissa.andrews@solarcity.com

General Contractor's Address: 1 Herron Avenue, Suite 400, Pittsburgh, PA 15202

General Contractor's Telephone No.: 412-584-0545 (Office) (Cell)

Property Location: 174 Barberrry Road, Sewickley, PA 15143

Description of Work Covered by Zoning Permit: Installation of solar panels to the roof of the house and the barn.

Special Stipulations and Conditions Relating to Zoning Permit: The conditions attached to the application are hereby part of this permit.

Required Inspections: THE APPLICANT IS RESPONSIBLE FOR SCHEDULING ALL NECESSARY INSPECTIONS. The Zoning Officer, the Building Code Official, the Borough Engineer, and the Sewage Enforcement Officer, as applicable, will inspect on the dates provided on the attached inspection schedule, unless the applicant notifies the appropriate inspecting officer at least seventy-two (72) hours in advance that the date of inspection must be rescheduled. **Failure to notify the inspecting officer of a change in the attached schedule will result in the assessment of inspection fees.**

Other Inspections: Inspection schedules under other required Permits and Plans may apply.

\*\*\*\*\*

Approved application, together with any plans deemed necessary or required by law, are on file with the Borough Office.

**During the course of construction this PERMIT MUST BE POSTED in a conspicuous place, plainly visible from the road on which the structure or proposed structure fronts and well secured if exposed to the weather. It may be removed by the OWNER or the ZONING OFFICER upon completion of the work authorized.**

Zoning Permit No.: 20-2017  
Date of Issuance: September 18, 2017  
Expiration Date: September 18, 2019  
Lot/Block No.: 708-R-120  
(Municipal Use Only)

Approved by the Borough of Sewickley Heights:

By: Katie Stringent  
Assistant Zoning Officer

Name: Katie Stringent

Dear FRANK J CSERVAK JR

As a next generation energy company, Duquesne Light Company welcomes all customers to interconnect a qualified renewable energy generating system, such as solar panels or wind turbines, to our distribution system.

This letter is to notify you that a meter has been installed at 174 BARBERRY RD on 11/08/17 that will display the "Net" (produced minus received energy) consumption for this service. You may now energize your generation source.

If you have any questions, you may contact us by sending an email to [Interconnection@duqlight.com](mailto:Interconnection@duqlight.com).

Sincerely,  
Interconnect Coordinator  
Duquesne Light Company

To: "Stoltenberg, Charles H." <CStoltenberg@duqlight.com>, DLCCustomerService@duqlight.com, "Frank J. Cservak" <fcservak@c-mservices.com>

Charles and Trey (Customer Service),

- 1. Trey was helpful in putting forth my request to effect the Add-On Heat Pump Rate to both accounts (8796 and 7796) as Charles suggested.
- 2. I will submit for Non-Profit status on account 7796 for Service Never Ends - Otis' Barn FID# 94-1737782 - TaxID# 83-1503995 to SalesTax@DuqLight.com as Trey advised.
- 3. Trey submitted my request for Net Metering Summary Statements from November 2017 when we started Net Metering which would help us correct this HUGE billing issue we have.
- 4. Attached are two spreadsheets accounts 8796 & 7796 which display a detailed record of the energy used and produced at my house and barn since installing the solar panels in October 2017 since which time we were supposed to Net Meter (hence my request for my Net Metering Summary Statements). Please also see the changing of meters and the changing of meter (run) rates that occur throughout the time frame on both accounts. Then, it is also interesting to note the apparent flip-flopping of accounts that happened on 9/10/18 (or there about). All of this leading to an horrendous over-billing situation which still exists and continues on both accounts.
- 5. Perhaps the easiest solution would be to start all over with two new Net Meters and these two accounts set to \$0 at that time. Net Metering (with the Heat-Pump Rate) on both buildings and Non-Profit status on 7796.

Thank you very much for your attention to this matter.

Frank

 SAID I WANTED

Attached is the daily listing of readings of the old NET meter for the barn service.

- There are three groups of columns (NET , Delivered and Received) containing the kilowatt hours (KWH) for each day.
- The meter can only measure the electricity supplied to and from the building. ( Delivered and Received)
- The meter records the Delivered KWH and Received KWH separately.
- The NET information is calculated by adding Delivered and subtracts Received information continuously.
- Some of the register information was not available creating gaps.
- The system will also create estimate readings for delivered information.

At the bottom of the spreadsheet shows the total KWH for each register and the Delivered – Received = NET.

We need to talk person to person.

After discussing with our management I have some ideas you may be of interest.

Will contact you first week in March.

*Charles H. Stoltenberg*
