Electric Choice Annual Report- 2019**

Public Version

~~ENCLOSURE CONTAINS PROPRIETARY INFORMATION~~

Dear Secretary:

Pursuant to 52 Pa. Code § 54.203(4), PALMco Power PA, LLC d/b/a Indra Energy "Indra" is filing its 2019 Electric Choice Annual Report. Enclosed is one copy of the redacted public report and one un-redacted confidential copy of the report.

Pursuant to 52 Pa. Code §§ 5.365(b) and 54.39(d), as well as the Commission's July 20, 2000 Order in Docket Nos. P-00991752; P-00991753; P-00991755, *Petitions of Exelon Energy; Reliant Energy Retail, Inc.; and Statoil Energy Services, Inc. for Protective Order* (the "July 2000 Order"), Indra hereby respectfully requests confidential treatment and exception from public disclosure for certain information contained in the Electric Choice Annual Report. Specifically, in addition to the total amount of the Indra's gross receipts, which is afforded confidential treatment pursuant to the July 2000 Order, Indra requests the following information also be granted confidential treatment:

1. Indra's total retail sales (kWh) for the 2019 period, as reported on page 1 of the Annual Report ("Total Retail Sales");
2. Indra's Detailed Break-down of Renewable Source by Technology, as reported on page 1 of the Annual Report ("Renewable Energy");
3. Indra's total gross receipts for the 2019 period, as reported on page 2 of the Annual Report ("Total Gross Receipts"); and
4. Indra's retail sales (kWh) by Electric Distribution Company ("EDC") service area for 2019, as reported on page 3 of the Annual Report ("Retail Sales by EDC Territory") (the Total Retail Sales, Renewable Energy, Total Gross Receipts, and Retail Sales by EDC Territory are hereinafter referred to as the "Retail Sales Information").

Indra requests confidential status of the Retail Sales information because its release would unduly harm Indra's business and competitive interests. The Retail Sales information sets out commercially sensitive proprietary data, which if disclosed, would enable competitors to obtain valuable competitive information concerning Indra's prices and corporate strategies, give an unfair advantage to the Indra's competitors, and cause economic injury to Indra. This information is related confidentially by Indra and is not available to the general public.

For the reasons stated above, Indra respectfully requests that the Retail Sales Information be deemed to be confidential material exempt from public disclosure under 52 Pa. Code §§ 5.365(b) and 54.39(d).

Please feel free to contact me if you have any questions via phone or email at: 718.975.9018 or ccosta@indraenergy.com.

Sincerely,

Christina Costa

Sustainable Biomass Energy		
Other (Wood)		
Other (Name)		
Total Renewable Sources		

NOTE to the Consumer: Electricity is the product of a mix of generation energy sources that is delivered over a system of wires. This report reflects the estimated percent of total sales based on the primary fuel source used in the generation of electricity for customer end-use in the Commonwealth of Pennsylvania. Some generators may use a combination of fuel sources, such as oil and coal or oil and natural gas, which may be combined or used alternatively. In this instance, only the primary fuel source is reported. Data may also include negative sales for pumped storage hydroelectric operations, which could require the use of any fuel source except hydropower. If any supply source includes Distributed Generation or Combined Heat and Power, the applicable categories will be marked “DG” and/or “CHP.” If net metering is deployed, an asterisk (*) appears within the applicable categories. Upon request by the consumer, electricity providers are required to provide information on generation energy sources, energy efficiency, environmental impacts or personal historical billing data.

NOTE to the Entity filing this report: Please review above “Note to the Consumer” for important information needed to adequately complete this form. Verification of the anticipated generation energy source, of the identifiable resources (if and when they have been “claimed”) and the fact that energy characteristics were not sold more than once, shall be conducted by an independent auditor at the end of each calendar year and contained in this annual report to the Commission. If generation energy sources are not identifiable, the provider shall disclose this fact.
