

May 1 2020  
CASE C-2020-3015313

Dear Gentle people:

PECO lied. The only proof you need is to read PECO's response to my informal compliant and formal compliant. They cannot have it both ways. In the informal response they stated "neighbors wire does not cross customer(me) property line." In the formal compliant they stated the wire crossed my property and legally so. A thing cannot be and not be at the same time. Conclusion: PECO lied.

THE PUC is not bathed in glory either. When I filed my informal compliant they never contacted me prior to rendering a decision. How did they know PECO was correct? Answer: They did not.

Thank you,

Paul W Memminger
