RE: Spark Energy, LLC's 1st Qtr. 2020- Gross Receipts Report and Request for Confidential Treatment

Dear Secretary:

Pursuant to 52 Pa. Code § 54.6, Spark Energy, LLC ("Spark") hereby submits to the Pennsylvania Public Utility Commission ("Commission") its quarterly gross receipts report for 1st Qtr 2020. Please find enclosed two copies of the report with confidential data expurgated and two copies of the unexpurgated report.

In addition to the total quarterly amount of gross receipts that Spark is required to report, the total amount of electricity sold and the percentage of total electricity supplied by each energy source has been expurgated from the report for public disclosure.

In accordance with established Commission procedures under 52 Pa. Code § 5.423, Spark request confidential treatment of its reported total amount of electricity sold (kWh) within its quarterly gross receipts report. Spark request that this information be treated as confidential for it constitutes highly sensitive and confidential business information that should be maintained and treated as confidential in the Commission's files and exempt from public disclosure. This is sensitive commercial and financial trade secret information concerning Spark's business, the disclosure of which would cause substantial harm to Spark and disadvantage it with respect to its competitors. Public disclosure would impair Spark's ability to respond competitively to opportunities in the marketplace and would place Spark at a competitive disadvantage.

Please contact me if you have any questions or need any further information.

Respectfully submitted,

A handwritten signature in blue ink, appearing to read "Martha Lopez", with a long, sweeping underline.

NOTICE TO LICENSED ELECTRICITY PROVIDERS

Availability of Confidential Treatment for Information Provided in Quarterly and Annual Reports

Note that pursuant to 52 PA Code § 54.39(d) these annual and quarterly reports “will be made available for public review upon request to the Commission subject to any rulings on confidentiality made by the Commission.” However, the Commission has issued a general ruling that the total amount of gross receipts that licensed EGSs are required to report pursuant to 52 Pa. Code § 54.39(b)(2) is considered proprietary and shall not be released to the public. See Petitions of Exelon Energy; Reliant Energy Retail, Inc.; and Statoil Energy Services, Inc for Protective Order, Order entered July 20, 2000 at Docket Nos. P-00991752; P-00991753; P-00991755, p. 5. Updates to tax information requested in the application form; the total amount of electricity sold (kWh); and, the percentage of total electricity supplied by each energy source remain available for public review. Confidential treatment of this information may be requested in accordance with established Commission procedures. See also 52 Pa. Code § 5.423.

To request confidential treatment of submitted information, a company must:

- (a) indicate clearly in its transmittal letter that the filing contains proprietary information;
- (b) explain briefly why the information should be treated as confidential; and,
- (c) supply two versions of the filing: one version of the report with confidential data redacted and one version of the proprietary report. The proprietary version must be clearly marked “Confidential.” The Secretary’s Bureau and the Bureau of Fixed Utility Services will maintain copies of each type of filing accordingly.

Pending Commission review of a request for confidential treatment and upon its approval, information designated as proprietary will not be made available for public review. However, if any member of the public, the Office of Consumer Advocate or the Office of Small Business Advocate requests to examine the propriety information, or if the Commission’s Office of Special Assistants or Bureau of Investigation & Enforcement believes that proprietary claim is frivolous or otherwise not justified, the Secretary’s Bureau will issue a Secretarial Letter directing the company to file within 14 days a petition for protective order pursuant to 52 Pa. Code § 5.423. During the 14-day period, the Commission will continue to honor the proprietary claim. Absent the timely filing of such a petition, the proprietary information claim will be deemed to have been waived.

While the Commission is considering whether to grant a petition for protective order, the company’s proprietary information claim will be honored unless a proceeding has been initiated to challenge the filing. In that event, the provisions of 52 Pa. Code § 5.423(b)(4) would apply. This provision requires the company to disclose the proprietary information to a party involved in the proceeding if the party “agrees to treat the information as if it were covered by a protective order until the presiding officer or the Commission issues the order or determines that issuance of the order would not be appropriate.”
