SECRETARY'S OFFICE  
PUBLIC UTILITY  
COMMISSION

In re: Application of THE  
BUCKEYE PIPE LINE COMPANY, a  
Corporation of the State of Ohio,  
for approval of the Beginning of  
the Exercise of the right, power  
or privilege of transporting,  
storing and distributing petroleum  
and refined petroleum products in  
interstate and/or intrastate com-  
merce by means of pipe lines and  
appurtenances, for the public, such  
facilities extending westwardly from  
Coraopolis, Allegheny County to the  
Greater Pittsburgh Airport in Moon  
Township, Allegheny County, Penn-  
sylvania.

Application Docket

No ~~A90915~~

Folder

A-140100  
F5

TO THE PENNSYLVANIA PUBLIC UTILITY COMMISSION:

1. The name and address of applicant are:

The Buckeye Pipe Line Company  
Dixie Highway & Buckeye Road  
Lima, Allen County, Ohio

2. The names and addresses of applicant's attorneys are:

Jack F. Aschinger, Esq.  
Lloyd S. Benjamin, Esq.  
Hull, Leiby and Metzger  
208-210 Walnut Street  
Harrisburg, Pennsylvania

3. The Buckeye Pipe Line Company (hereinafter sometimes referred to as "Buckeye") is an Ohio corporation chartered originally on March 31, 1886 and today represents the merger in 1943 of The Buckeye Pipe Line Company and Indiana Pipe Line Company. Amended Articles of Incorporation were adopted

ENTRY No. *LM*

by the shareholders at their Annual Meeting in May, 1959 and such Articles were filed with the Secretary of the State of Ohio May 8, 1959. The purpose of the corporation among other things is to carry, transport, transmit, store and ship petroleum, oil, water, chemicals, solids, liquids, gas, gaseous mixtures and all types and kinds of refined products, or any derivatives of any of the foregoing through pipes, tubing or conduits and to operate, construct, maintain, acquire, own, use, lease, mortgage, pledge, sell or otherwise dispose of pipe lines, tubes, conduits, mains, tanks, pump stations, facilities and equipment necessary for, incidental to, useful in, or proper for the conduct of said business; including without limitation thereof, the right to operate or manage pipe lines, tubes, conduits, mains, tanks, pump stations and facilities and equipment incidental thereto, owned by any person, firm association, corporation or corporations organized under the laws of any state, country or government.

The Buckeye Pipe Line Company is a publicly owned corporation, the capital stock of which is widely distributed and held by almost fifty-five hundred shareholders, with one shareholder owning in excess of 10% of the capital stock of the company.

The Buckeye Pipe Line Company and its subsidiaries, Northern Pipe Line Company and New York Transit Company, Inc., the latter two companies having become wholly owned subsidiaries in the 1943 merger proceedings referred to above, own pipe lines constituting a common carrier crude oil trunk system extending from Griffith, Indiana, on the west to Buffalo on the east, and also serving intermediate consuming areas such as East Chicago, Toledo, Detroit and Cleveland. The Buckeye Pipe Line Company also owns and operates two petroleum pipe line systems. One connects refineries at Lawrenceville and Robinson, Illinois, Lima and Toledo, Ohio and Detroit, Michigan with terminals at Indianapolis, Muncie, Clarmont and Huntington, Indiana, Lima, Columbus, Toledo, Cleveland, Ohio and Detroit, Flint, Owosso and Bay City, Michigan. This petroleum products pipe line system is also connected to the products system of Texas Eastern Transmission Corporation by a pipe line from Lebanon, Ohio to Lima, Ohio making Buckeye's system available to refineries operating in the territory served by Texas Eastern Transmission Corporation. The second products system originates at Linden, N. J. where it serves refineries and deep water tanker terminals and serves consuming areas adjacent to Allentown and Scranton-Wilkes-Barre, Pennsylvania, Binghamton, Syracuse, Utica and Waterloo, New York and through a connecting

line also serves Rochester and Buffalo, N. Y. An additional portion of this system was purchased from Tuscarora Pipe Line Company, Ltd. at the close of December 31, 1960, such system extending from a connection with the foregoing system near Allentown, Pennsylvania and serving consuming areas adjacent to Reading, Harrisburg, Altoona, Johnstown, Pittsburgh and Midland, Pennsylvania. An extension was added to this system in 1962 to serve a terminal in the Coraopolis - Moon Township area. Buckeye also owns and operates a crude oil gathering system in southeastern Ohio. Attached hereto and marked Appendix A is a map showing the pipe line system of The Buckeye Pipe Line Company, Northern Pipe Line Company and New York Transit Company, Inc.

By Order of the Commission in Application Docket No. A 88470, Folder 1, The Buckeye Pipe Line Company was granted the right to do business in Pennsylvania as a foreign public utility, and by further Order of the Commission in Application Docket No. A 88470, Folder 2, The Buckeye Pipe Line Company was granted the right, power and privilege of transporting, storing and distributing petroleum and refined petroleum products by means of pipe lines and appurtenances extending eastwardly from Midland, Beaver County, to a point on the south side of the Allegheny River in Pittsburgh,

Allegheny County, Pennsylvania.

4. The system to be used in interstate and/or intrastate commerce will consist of a pipe line six inches in diameter extending from property of Texaco, Inc. in the Borough of Coraopolis, Allegheny County, Pennsylvania, westwardly a distance of 1.66 miles to a point on property of Tioga Pipe Line Company (a non-utility) in Moon Township, Allegheny County, Pennsylvania, as shown on map attached as Appendix B and then through a leased pipe line six inches in diameter southwardly approximately 2.97 miles to the Greater Pittsburgh Airport in Moon Township, Allegheny County, Pennsylvania. The cost of the 1.66 miles of six inch pipe line to be constructed, with appurtenances, is approximately \$110,000.

5. No additional capital will be required by applicant for the purpose of financing the matters and things involved in this application.

6. There is no other public utility pipe line system connecting Coraopolis, Pennsylvania and the Greater Pittsburgh Airport in Moon Township, Allegheny County, Pennsylvania, which is available for the movement of the refined petroleum products contemplated.

7. The following information is attached hereto as Appendices C, D and E: Consolidated Balance Sheet of The

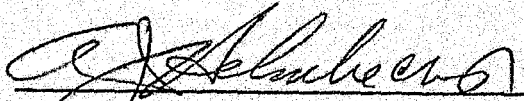

Buckeye Pipe Line Company as of November 30, 1963; Consolidated Statement of Income as of November 30, 1963; and proposed Tariff. It is anticipated that the volume to be transported in intrastate commerce will vary from 25,00 to 30,000 barrels per month so applicant will receive from \$937 to \$1,125 per month revenue from this intrastate operation.

8. Approval of this application is necessary or proper for the reason there is a demand for common carrier pipe line transportation between Coraopolis and the Greater Pittsburgh Airport. For many years the delivery of Texaco, Inc.'s petroleum products requirements at the Greater Pittsburgh Airport has been accomplished by means of tank trucks. Texaco, Inc. now intends to supply the Airport by the use of the proposed six inch pipe line of Buckeye and the six inch pipe line leased to Buckeye. The proposed transportation over this system will not only meet the requirements of Texaco, Inc., but also provide pipe line transportation for the public generally.

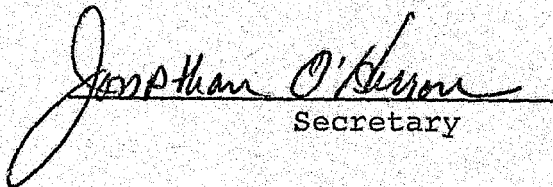

WHEREFORE, The Buckeye Pipe Line Company, applicant herein, prays your Honorable Commission to issue a Certificate of Public Convenience evidencing the approval of the beginning of the exercise of the right, power or privilege of transporting, storing, and distributing petroleum and refined petroleum products by means of pipe lines and appurtenances, for the public, such facilities extending westwardly from Coraopolis,

Pennsylvania, 1.66 miles to a point in Moon Township, Allegheny County, Pennsylvania, thence through leased facilities 2.97 miles to the Greater Pittsburgh Airport in said Moon Township.

THE BUCKEYE PIPE LINE COMPANY

By   
Arthur J. Helmbrecht,  
Executive Vice President

Re: Application of The Buckeye Pipe Line Company -  
A. 90915

Application of Northern Pipe Line Company -  
A. 90916

---

Dear Sir:

In accordance with Commission instructions, we enclose copies of the applications of The Buckeye Pipe Line Company and Northern Pipe Line Company, as well as a copy of the Notice of filings.

These applications have been filed by The Buckeye Pipe Line Company and Northern Pipe Line Company to secure the approval of the Commission to transport petroleum products by means of pipe line, for the public, between Coraopolis and the Greater Pittsburgh Airport. Under these applications a pipeline is contemplated extending from the property of Texaco, Inc. in the Borough of Coraopolis westwardly 1.66 miles to the property of Tioga Pipe Line Company in Moon Township, Allegheny County and then via leased pipe line southwardly 2.97 miles to the Greater Pittsburgh Airport. Buckeye and Northern are affiliated companies and will participate in this project as set forth more fully in the applications enclosed herewith.

Should you desire any further information concerning these applications, please get in touch with:

Lloyd S. Benjamin, Esquire  
OR  
Jack F. Aschinger, Esquire  
Hull, Leiby and Metzger  
208-210 Walnut Street  
Harrisburg, Pennsylvania

Very truly yours,
