CERTIFICATE OF SERVICE

I, Suzan D. Paiva, hereby certify that I have this day served a true copy of Verizon's Motion to Compel FirstEnergy to Respond to Verizon's Second Set of Interrogatories and Requests for Production of Documents, upon the participants listed below in accordance with the requirements of 52 Pa. Code Section 1.54 (related to service by a participant) and 1.55 (related to service upon attorneys).

Dated at Philadelphia, Pennsylvania, this 22nd day of May, 2020.

Verizon Pennsylvania LLC and Verizon North LLC	: :	
v.	:	C-2020-3019347
Metropolitan Edison Company, Pennsylvania Electric Company and Penn Power Company	: :	

VERIZON'S MOTION TO COMPEL
FIRSTENERGY'S RESPONSES TO VERIZON'S SECOND SET OF INTERROGATORIES AND REQUESTS FOR PRODUCTION OF DOCUMENTS

Pursuant to 52 Pa. Code §§ 5.342(g) and 5.349(d), Verizon Pennsylvania LLC and Verizon North LLC ("Verizon") respectfully moves for an Order compelling the Metropolitan Edison Company, Pennsylvania Electric Company, and Pennsylvania Power Company ("FirstEnergy") to provide full and complete responses to Verizon's Second Set of Interrogatories and Requests for Production of Documents ("Set II Discovery Requests").[1] In support of this Motion, Verizon states as follows:

INTRODUCTION

When this case was transferred to the Commission, FirstEnergy argued that due process required the opportunity to take additional discovery and proposed a fifteen-day response deadline. FirstEnergy's responses to Verizon's Set II Discovery Requests were due four days ago, and FirstEnergy has still not responded to eight requests. And many of the responses FirstEnergy did provide are facially incomplete, attach incomprehensible information by withholding the native Excel spreadsheets Verizon requested, and seek to shield vast amounts of information from Verizon's fact witnesses by labeling attachments "competitively sensitive confidential" without producing the accompanying redacted "confidential" version that

[1] Verizon's Set II Discovery Requests and the responses provided by FirstEnergy to date are attached to this Motion as Exhibits A and B respectively.

FirstEnergy agreed to provide in the parties' Protective Agreement. FirstEnergy did not seek an extension of time, offer an explanation for its disregard of the discovery schedule and the parties' Protective Agreement, or respond to Verizon's detailed May 20 request to discuss the issues and correct them by May 21.

The Commission should order FirstEnergy to provide full and complete responses to Verizon's Set II Discovery requests immediately, and no later than 24 hours following a decision on this motion. Verizon's witnesses have fewer than three weeks to prepare their surrebuttal testimony for filing on June 11 and Verizon must also prepare for the evidentiary hearing scheduled for the week of June 15. The Commission should not countenance FirstEnergy's effort to use the discovery process FirstEnergy requested to try to gain an advantage in this case by withholding and delaying Verizon's receipt of information for use in challenging FirstEnergy's arguments.

BACKGROUND

Aware of the tight deadlines in this case, Verizon served its Set II Discovery Requests on May 1, 2020 so it could take advantage of the time before FirstEnergy filed its May 21 Rebuttal Testimony to begin to review and evaluate claims in FirstEnergy's FCC Answer. FirstEnergy had not provided Verizon significant amounts of data it cited in its Answer, including information FirstEnergy's witness gathered during a two-month field review of poles.[2] Verizon still does not have this field review data, which FirstEnergy relied on again in its May 21 Rebuttal Testimony.

FirstEnergy did not object to Verizon's Set II Discovery Requests or ask for an extension of time to respond. Instead, when the May 18 response deadline arrived, FirstEnergy served

[2] *See* Answer ¶¶ 111-112; Answer Attachment K ¶ 4.

responses to 18 of the 35 requests and stated that the remaining 17 responses would follow the next day. On May 19, however, FirstEnergy provided responses to just six additional requests, without explaining the delay. On May 20, FirstEnergy provided responses to three more requests. As of this filing, FirstEnergy has not responded to eight of 35 requests—Nos. 4, 15, 16, 17, 18, 19, 29, and 34—or explained why they are late or when they will arrive.[3] And there can be no good reason for the delay; each request seeks FirstEnergy's support for an allegation it made nearly four months ago in its February 2 Answer filed with the FCC.

In many of the responses it did provide, FirstEnergy simply directed Verizon to documents it was producing or would be producing with little or no explanation or context. *See, e.g.*, Request Nos. 1, 2, 3, 6, 7, 11, 14, 22. Many of the attached documents appear to be spreadsheets FirstEnergy printed to PDF from native Excel files, despite Verizon's request that the Excel files be produced. With columns spanning across hundreds of pages, the PDF versions of these spreadsheets are virtually incomprehensible. FirstEnergy also stamped numerous documents "Competitively Sensitive Confidential" without producing the redacted "Confidential" version required by the parties' Protective Agreement to ensure Verizon's fact witnesses can review all information except for the name of its competitor. And the few documents that FirstEnergy did redact did not comply with the Protective Agreement either, reducing their usefulness in this case.

On Wednesday morning, May 20, Verizon detailed the problems with FirstEnergy's responses, offered to discuss them with FirstEnergy, and asked for complete and corrected

[3] FirstEnergy filed a motion to compel against Verizon on May 18, the date its responses to Verizon's Set II Discovery Requests were due (although FirstEnergy's motion to compel was not due for another five days).

responses by close of business on Thursday, May 21. FirstEnergy did not reply to Verizon's email and did not correct or complete its discovery responses.

Verizon's surrebuttal testimony is due June 11, 2020—21 days from now. The evidentiary hearing is scheduled to begin the following week of June 15, 2020. The Commission should immediately compel full and complete responses.

ARGUMENT

The legal standards applicable to this Motion are set forth in the presiding officer's May 11, 2020 Order Denying Motion to Compel Filed by FirstEnergy Regarding Interrogatories I-1, I-20, and I-21, and so Verizon will not repeat them here. As FirstEnergy itself has emphasized, the parties "must timely receive the information and materials that are reasonably calculated to lead to the discovery of admissible evidence well in advance of the [deadline for their testimony], or else [they] will be denied due process."[4]

FirstEnergy's responses to Verizon's Set II Discovery Requests are deficient and deny Verizon fundamental due process in five significant ways: (1) FirstEnergy failed to respond to eight of the requests without serving an objection; (2) FirstEnergy failed to produce spreadsheets in a usable format and as requested; (3) FirstEnergy shielded many of its responses from Verizon's fact witnesses by failing to produce redacted copies of documents marked "competitively sensitive" as required by the parties' Protective Agreement; (4) FirstEnergy failed to fully and completely answer numerous requests; and (5) FirstEnergy failed to provide verifications of its answers. Each of these deficiencies is addressed below.

[4] FirstEnergy's Motion to Dismiss Objections and Compel Responses to Interrogatories and Requests for Production of Documents – Set I at 6 (Apr. 29, 2020); *see also id.* ¶ 114 (citing PUC authority regarding the need for "fundamental fairness and due process" in discovery).

I. FirstEnergy Should Be Compelled to Answer Request Nos. 4, 15-19, 29, and 34.

FirstEnergy did not respond to Request Nos. 4, 15, 16, 17, 18, 19, 29, and 34. FirstEnergy also did not object to these requests, ask for an extension, or provide an explanation for why it has failed to respond to them. The requests go to the core of FirstEnergy's case—including FirstEnergy's claim that Verizon should pay higher rates than its competitors (Request No. 4), FirstEnergy's calculation of rates it charges Verizon's competitors (Request Nos. 15, 16), FirstEnergy's criticism of the rates Verizon calculated under the FCC's rate formulas (Request No. 17), documents about a field review of poles FirstEnergy argues should increase the rates it charges Verizon (Requests Nos. 18, 19, 34), and documents its witnesses relied upon when preparing Declarations they filed in early February (Request Nos. 29, 34). The Commission should compel FirstEnergy to respond to these requests immediately.

II. FirstEnergy Should Be Compelled to Produce Spreadsheets in Native Excel Format.

In responding to many of requests, FirstEnergy produced Excel spreadsheets it printed to PDF rather than the native Excel format requested. The PDF-formatted versions of the spreadsheets render the data and information incomprehensible and unusable. In some cases, information is cut off or obscured. In other cases, the spreadsheet columns are spread across multiple pages of the PDF, making it impossible to read the information as it was intended.[5] Some PDFs have scores of blank pages.[6] Others contain text so small it is essentially illegible.[7]

[5] For example, one spreadsheet containing over 100 columns was produced as a 592-page PDF, with columns A-G on pages 1-37, columns H-O on pages 38-74, columns P-T on pages 75-111, and so on, ending with columns CZ-DE on pages 556-592. A representative excerpt of this spreadsheet is attached to this Motion as Exhibit C.

[6] *See id.*

[7] *See, e.g.*, Ex. D (spreadsheet produced as "Verizon Interrogatory Set II, No. 6, Attachment H").

Verizon expressly asked that spreadsheets be produced in native Excel format to avoid this problem,[8] and produced a native Excel file to FirstEnergy when one was requested in its first set of discovery requests. FirstEnergy did not object to Verizon's Instructions or otherwise notify Verizon that it planned to produce spreadsheets in non-native format. The Commission should compel FirstEnergy to produce all spreadsheets in native Excel format, as it has done in similar circumstances.[9]

III. FirstEnergy Should Be Compelled to Produce Documents That Comply with the Parties' Protective Agreement and Are Accessible to Verizon's Fact Witnesses.

Under the parties' Protective Agreement, FirstEnergy may only treat as "competitively sensitive confidential" the names of entities attached to its poles—and may only do so if it produces both (1) a "confidential" copy of the document that redacts the name of the attaching entity, but substitutes in its place the type of entity it is (for example, cable company, competitive local exchange carrier, wireless provider, etc.) and (2) an unredacted "competitively sensitive confidential" copy that includes the names of the attaching entity.[10]

---

[8] Instruction No. 11 states in relevant part: "Electronic data that does not convert to a TIFF image in a usable format (Excel files, Access files, etc.) or that cannot be converted to a TIFF image (sound and video files, scheduling database software, application files, etc.) should be produced in native format, along with extracted metadata and text." *See* Ex. A at 6.

[9] *See, e.g.*, *Gibbs v. Global Tel Link Corp.*, No. C-2013-2358084, 2014 WL 7149227, at *4 (Nov. 18, 2014) ("direct[ing] Respondent to provide a copy of the Excel spreadsheet as a hearing exhibit (GTL Exhibit No. 6) at the next hearing"); *Joint Application of the United Tel. Co. of Pennsylvania LLC d/b/a Embarq Pennsylvania & Embarq Commc'ns, Inc. for Approval of the Indirect Transfer of Control to Centurytel, Inc.*, 104 Pa. P.U.C. 176 (May 28, 2009) ("We do, however, encourage the Merging Parties to work with the CLECs to develop electronic billing formats in lieu of .pdf invoices to make it easier for the CLECs to upload the information to a computerized database."); *Implementation of Section 1329 of the Pub. Util. Code*, No. M-2016-2543193, 2019 WL 1081045, at *6 (Feb. 28, 2019) (requiring submission of "electronic working documents (i.e., Excel spreadsheets) for all the filing's schedules, studies, and working papers to the extent practicable" in connection with certain transactions).

[10] Verizon will provide an *in camera* copy of the Protective Agreement should FirstEnergy dispute its terms.

FirstEnergy did not produce both required copies for information it marked competitively sensitive confidential. For example, in CONFIDENTIAL Interrogatory Set I, No. 1, Attachment A, FirstEnergy provided names of attaching entities with significant additional information, but did not produce a confidential copy that redacted only the names of the attaching entities and substituted the type of entity. Similarly, in Interrogatory Set II, No. 22, CONFIDENTIAL Attachments A and B, FirstEnergy redacted the names of the attaching entities but did not (1) state what type of entity was redacted or (2) produce an unredacted copy showing the attaching entity's name.

FirstEnergy's non-compliance with the Protective Agreement seeks to deny Verizon's fact witnesses the ability to challenge the support for FirstEnergy's arguments. The Protective Agreement limits review of competitively sensitive confidential information to counsel and outside experts. Everyone else, including employees of Verizon or its affiliates, may only view the redacted "confidential" copy. As a result, FirstEnergy seeks to gain an advantage by failing to timely provide the confidential copy Verizon's witnesses require to prepare their surrebuttal testimony. The Commission should compel FirstEnergy to produce redacted documents in accordance with the Protective Agreement and consistent with Verizon's due process rights.

IV. FirstEnergy Should Be Compelled to Provide Complete Answers.

FirstEnergy's responses are facially incomplete because they incorporate attachments without explaining what the attachment shows or even defining the columns in the attached pdf version of the spreadsheet. *See, e.g.*, Request Nos. 1, 2, 3, 6, 7, 11, 14, 22. FirstEnergy's responses to Request Nos. 1, 3, 6, 11, 12, 13, 14, and 35 are also facially unresponsive and incomplete for the following reasons. FirstEnergy did not object to these requests.

A. Request No. 1

Request No. 1(a) states:

> Identify who prepared the chart at Answer Attachment B, Ex. SFS-1, who selected the time period for the chart and the basis for the time period selected, who selected the entities to be included in the chart, and the entities referenced in the chart.

But FirstEnergy did not "[i]dentify who prepared the chart at Answer Attachment B, Ex. SFS-1, who selected the time period selected … , who selected the entities to be included in the chart, and the entities referenced in the chart." Instead, FirstEnergy stated that "[t]he chart was developed under the supervision of Steve Schafer," which merely repeats the information referenced at Answer Attachment B ¶ 14, which states "Exhibit SFS-1 is a chart that was prepared under my supervision."[11]

B. Request No. 3

Request No. 3(a) states:

> Provide all documents concerning the allegation that the fees for SPANS "amount to $20 per application plus $0.65 per pole," including all invoices and payment records concerning fees for SPANS.

FirstEnergy's response is incomplete and incomprehensible. It includes undefined terms like "SSP costs," which has no readily apparent meaning to Verizon. It also states in unclear passive voice that "fees are passed through to the entities as derived from terms of the pole attachment agreement" without explaining who is passing fees to whom and under what agreement terms. These are necessary clarifications given FirstEnergy's reliance on these fees to increase the rates it charges Verizon.

[11] FirstEnergy's Answer Attachment B ¶ 14 (Feb. 2, 2020).

C. Request No. 6

Request No. 6(b) states:

> Identify the number of entities with facilities attached to Toledo Edison's poles and the number of entities that paid field audit costs.

FirstEnergy responds by incorporating "Verizon Interrogatory Set II, No. 2(d)," but there is no such response; Interrogatory Set II, No. 2 does not include a subpart (d).

D. Request No. 11

Request No. 11 states:

> Reference Answer Brief ¶ 89 and Answer Attachment F ¶ 34.
>
> (a) Describe in detail the basis for FirstEnergy's allegation that "Verizon's attachments create more sag than do the attachments of Verizon's competitors," including how many attachments were considered, how sag was measured, where sag was measured in relation to a pole, and the person(s) who conducted the measurements.
>
> (b) For each Verizon and other communications attachment considered, identify the sag measured, the owner of the attachment, and the pole location and pole identification number of the attachment.
>
> (c) For each Verizon attachment considered, identify the location, amount of sag, and owner of the attachment to which it was compared, and the person(s) who performed the comparison.
>
> (d) Provide all documents concerning the allegation that "Verizon's attachments create more sag than do the attachments of Verizon's competitors," including all studies, analyses, and work papers concerning the allegation.

In responding to subpart (a), FirstEnergy did not state how many attachments were considered, where sag was measured in relation to a pole, or the person who conducted the measurements. It also stated that it considered "five of the most common Verizon attachments," without defining what they are. In responding to subpart (b), FirstEnergy directed Verizon to "Verizon Interrogatory Set II, No. 11, Attachment A"—a PDF of a spreadsheet that is essentially

incomprehensible due to formatting, but that does not appear to include sag measurements. In responding to subpart (c), FirstEnergy skirted the question, stating that a comparison "was not needed," without answering whether one was performed.

E. Request No. 12

Request No. 12(b) states:

> Identify the location and pole identification number for each pole for which FirstEnergy conducted a tree removal since 2011 that FirstEnergy contends was a benefit to Verizon, identify all other entities with facilities attached to that pole, state whether and how FirstEnergy's tree removal provided Verizon a benefit that was different from that provided other facilities attached to the pole, and quantify the "benefit" provided Verizon and provided other entities with facilities attached to the pole.

FirstEnergy provided "a listing of more than 185,000 tree removal projects" without responding to those aspects of the request that provide the information needed to evaluate its claim that tree removals provide Verizon a greater benefit than they provide all other attachers on a pole. FirstEnergy did not "identify all other entities with facilities attached to that pole, state whether and how FirstEnergy's tree removal provided Verizon a benefit that was different from that provided other facilities attached to the pole," or "quantify the 'benefit' provided Verizon and provided other entities with facilities attached to the pole."

F. Request No. 13

Request No. 13 states:

> Reference Answer Brief ¶ 95 and Answer Attachment B ¶ 23.
>
> (a) Describe in detail the basis for FirstEnergy's allegation that "FirstEnergy inspects Verizon's pole plant" and that such inspections "provide a significant benefit to Verizon."
>
> (b) Identify the location and pole identification number for each of "Verizon's pole plant" that FirstEnergy inspected since 2011, identify all other entities with facilities attached to that pole, state whether and how FirstEnergy's inspection provided Verizon a benefit that was different from that provided other facilities

attached to the pole, and quantify the "benefit" provided Verizon and provided other entities with facilities attached to the pole.

(c) Provide all documents concerning the allegation that "FirstEnergy inspects Verizon's pole plant" and that such inspections "provide a significant benefit to Verizon," including all studies, analyses, invoices, cost records, and payment records concerning the allegation.

FirstEnergy's response is facially inconsistent and unclear. In responding to subpart (b), FirstEnergy states it has attached "a report of 1,278 identified concerns on Verizon-owned poles of various types." But the attachment referenced—Verizon Interrogatory Set II, No. 13, Attachment A—includes 174,521 entries. FirstEnergy also states the attachment shows how "concerns are communicated to Verizon through various systems," and references the "available electronic retrievable records for inspection," though neither is apparent from the document it attached. Further, FirstEnergy did not "identify all other entities with facilities attached" to the poles inspected, "state whether and how FirstEnergy's inspection provided Verizon a benefit that was different from that provided other facilities attached to the pole," or "quantify the 'benefit' provided Verizon and provided other entities with facilities attached to the pole."

G. Request No. 14

Request No. 14 states:

Reference Answer Brief ¶ 95 and Answer Attachment B ¶ 24.

(a) Describe in detail the basis for FirstEnergy's allegation that FirstEnergy "incurs significant unreimbursed expense responding to emergency events on Verizon-owned poles," including the expense that was unreimbursed.

(b) For each such "unreimbursed expense," identify the location and pole identification number for the Verizon-owned pole, the work performed, the amount of the "unreimbursed expense," all other entities with facilities attached to that pole, and state whether and how FirstEnergy's work provided Verizon a benefit that was different from that provided other facilities attached to the pole.

(c) Also for each "unreimbursed expense," identify the "emergency event" and all efforts to notify Verizon of the "emergency event" and state whether FirstEnergy took ownership of the pole following the "emergency event."

(d) Provide all documents concerning the allegation that FirstEnergy "incurs significant unreimbursed expense responding to emergency events on Verizon-owned poles," including all accident reports, studies, analyses, invoices, cost records, and payment records concerning the allegation.

FirstEnergy cherry-picked the information it provided in response to this request. In responding to subpart (a), FirstEnergy essentially repeated its prior allegation that it replaces poles following emergencies, without stating whether or why any associated pole replacement costs were unreimbursed. If they were reimbursed—or were not reimbursed because FirstEnergy did not invoice Verizon or because FirstEnergy took ownership of Verizon's poles instead—FirstEnergy should have so stated. Instead, FirstEnergy relies on an allegation about costs to argue Verizon should pay FirstEnergy a higher rate, without producing the information needed to evaluation whether FirstEnergy is effectively trying to double-recover (once by invoicing Verizon for the pole replacement and again by charging Verizon a higher pole attachment rate).

FirstEnergy's response to subpart (b) is also incomplete in numerous respects. FirstEnergy did not "identify the location and pole identification number for the Verizon-owned pole" for which an expense was unreimbursed, "the amount of the 'unreimbursed expense,' all other entities with facilities attached to that pole, and state whether and how FirstEnergy's work provided Verizon a benefit that was different from that provided other facilities attached to the pole." FirstEnergy attached two documents ("Verizon Interrogatory Set II, No. 14, Attachments A and B"), but did not explain the difference between them. Attachment A then includes information about Maryland, New York, and West Virginia despite Verizon's request for

information about the parties' overlapping service area in Pennsylvania and information about "routine" pole replacements when the request seeks information about "emergency events."

FirstEnergy provided a partial response to subpart (c), stating that the "outage management listing includes comments where dispatchers have attempted to contact Verizon." FirstEnergy did not explain what this "outage management listing" is, whether it is attached to its response, or answer whether the attempt by dispatchers to contact Verizon during an emergency represent "all efforts to notify Verizon of the 'emergency event,'" including all efforts to contact Verizon after the emergency pole replacement to seek reimbursement.

FirstEnergy's response to subpart (d) also incorporates the "outage management system," stating that it "provides the most complete record available." It is not clear whether FirstEnergy provided that information, what FirstEnergy means when it describes it as the most complete record available "with such limited access to written logs and employee interviews," or why FirstEnergy did not produce the written logs.

FirstEnergy also provided an attachment ("Verizon Interrogatory Set II, No. 14, Attachment C") without referencing the attachment in its response or otherwise explaining its relevance to the request.

H. Request No. 35

Request No. 35 states:

> Reference Answer Attachment L. Provide all documents, workpapers, reports, and analyses Clark Guo considered or relied upon in preparing the Declaration and Exhibits at Answer Attachment L.

FirstEnergy's response strains credulity. It states that no "documents, workpapers, reports, and analyses" were considered or relied upon in the preparation of Answer Attachment L," but Mr. Guo stated in Answer Attachment L that he relied on documents, including Excel file "GIS Pole

Data R.Fulton 12.10.2019.xlsx," and "the results of [FirstEnergy's] field audit survey data," which have not been provided to Verizon.

V. FirstEnergy Should Be Compelled to Verify Its Answers.

Finally, FirstEnergy failed to provide verifications for its responses as required by 52 Pa. Code § 5.342(a)(6).[12] The Commission should compel FirstEnergy to provide the necessary verifications.

CONCLUSION

For the foregoing reasons, the Commission should compel FirstEnergy to provide full and complete answers and responses to Verizon's Set II Discovery Requests as set forth herein.

Attorney for Verizon

BEFORE THE
PENNSYLVANIA PUBLIC UTILITY COMMISSION

Verizon Pennsylvania LLC and Verizon North LLC	: :	
v.	:	C-2020-3019347
Metropolitan Edison Company, Pennsylvania Electric Company and Penn Power Company	: :	

VERIZON'S SECOND SET OF INTERROGATORIES AND REQUESTS FOR PRODUCTION OF DOCUMENTS TO METROPOLITAN EDISON COMPANY, PENNSYLVANIA ELECTRIC COMPANY AND PENNSYLVANIA POWER COMPANY

Pursuant to 66 Pa.C.S. § 333 and 52 Pa. Code §§ 5.341 *et seq*., Complainants Verizon Pennsylvania LLC and Verizon North LLC (collectively, "Verizon") issue this Second Set of Interrogatories and Requests for Production of Documents ("Requests") to Defendants Metropolitan Edison Company ("Met-Ed"), Pennsylvania Electric Company ("Penelec"), and Pennsylvania Power Company ("Penn Power") (collectively, "FirstEnergy") and those persons authorized to answer on FirstEnergy's behalf.

DEFINITIONS

The following terms have the following meanings, unless the context requires otherwise:

1. "Answer" means the Answer to the Pole Attachment Complaint filed by FirstEnergy on February 3, 2020 in FCC Proceeding Number 19-354, Bureau ID Number EB-19-MD-008 and transferred to the Pennsylvania Public Utility Commission at Docket No. C-2020-3019347.

2. "Answer Brief" means Section I of the Answer, titled "Affirmative Defenses."

3. "Answer to Complaint" means Section II of the Answer, titled "Response to Complaint Allegations."

4. "CLEC" means competitive local exchange carrier.

5. "Document" and "Information" have the fullest meanings allowed by law and include all writings and records of every type, whether handwritten, printed, recorded, transcribed, taped, typed or visually reproduced in any manner, including, without limitation, agreements, analyses, bills, bulletins, calculations, calendar entries, charts, communications, computer files, correspondence, data sheets or other data compilation, disks, drawings, e-mails, files, financial statements, graphs, indexes, information, instructions, invoices, letters, literature, memoranda, minutes, notes, photographs, recordings, reports, receipts, studies, surveys, tapes, telephone records, transcripts, work papers, and work sheets, whether or not such files are presently in a hard copy form.

6. "FirstEnergy" means any or all of Metropolitan Edison Company, Pennsylvania Electric Company, and Penn Power Company, and any persons associated with those entities, including, but not limited to, each of their current or former parents, subsidiaries, affiliates, officers, directors, independent contractors, agents, servants, attorneys, successors, predecessors, representatives, investigators, experts, employees, ex-employees, consultants, representatives and others who are in possession of, or who may have obtained, information for or on behalf of the above-mentioned persons or entities.

7. "Identify" means:

(a) When referring to a person, the person's full name, title, business address, e-mail address, and telephone number, and relationship to FirstEnergy. If you do not know the person's current information, provide the person's last known business affiliation and title, business address and telephone number, residential address and telephone number, e-mail address, and relationship to FirstEnergy.

(b) When referring to a document, the type of document (e.g., letter, memorandum, e-mail, etc.) or some other means of identification, its author(s) and addressee(s), its date, its subject, and the name of any person in whose custody the document is kept in the usual course of business.

(c) When referring to an oral communication, the type of communication, the persons who participated in, heard, or witnessed it, the date of the communication, and the subject and substance of the communication, and identify any documents that set forth, summarize or refer to any portion of such oral communication.

(d) When referring to a business organization, the corporate name or other names under which said organization does business and the location and phone number of its principal place of business.

(e) When referring to data, the type of data, its vintage, the geographic location where the data was collected, and all facts, figures, measurements, and other data collected and analyses performed.

If any of the foregoing information requested is not known, the response shall indicate what of the foregoing information is not known.

8. "Joint Use Agreement" means any or all of the agreements between FirstEnergy and Verizon identified in paragraph 3 of the Pole Attachment Complaint.

9. "License Agreement" means any agreement entered into by FirstEnergy and any CLEC, cable company, or wireless provider that was in effect at any time from the 2011 rental year forward and grants access to FirstEnergy's distribution poles, including any amendments, exhibits, appendices, and operational guidelines, practices, or policies.

10. "Met-Ed" means Metropolitan Edison Company.

11. "Parties" means FirstEnergy and Verizon.

12. "Penelec" means Pennsylvania Electric Company.

13. "Penn Power" means Penn Power Company.

14. "Person" or "Entity" have the fullest meanings allowed by law and include, without limitation, a natural person, corporation, firm, partnership, association, labor union, joint venture, proprietorship, governmental body, or any other organization, business, or legal entity, including all predecessors or successors in interest, and any officer, agent, employee, or representative of any of the foregoing.

15. "Pole Attachment Complaint" means the Pole Attachment Complaint filed by Verizon on November 20, 2019 in FCC Proceeding Number 19-354, Bureau ID Number EB-19-MD-008 and transferred to the Pennsylvania Public Utility Commission at Docket No. C-2020-3019347.

16. "Verizon" means any or all of Verizon Pennsylvania LLC and Verizon North LLC, and any persons associated with each of those entities, including, but not limited to, officers, directors, employees, agents, representatives, predecessors, successors, assigns, attorneys, and anyone acting or purporting to act on their behalf or on behalf of any of them.

17. "You" and "your" have the same meaning as FirstEnergy.

18. Terms not otherwise defined have the same meaning as they are alleged to have in the Pole Attachment Complaint or Answer. The past tense includes the present tense, and vice versa. The singular includes the plural, and vice versa. "And" and "or" mean the conjunctive and the disjunctive. "Any" and "all" include "any and all" and "each" and "every" include "each and every." Terms are gender neutral and the use of one gender includes all genders.

INSTRUCTIONS

The following instructions apply:

1. Responses and documents should be served on Verizon's counsel, Christopher S. Huther, by email at chuther@wiley.law.

2. In response to each Request, first restate the Request.

3. Documents produced in response to these Requests shall be specifically identified as responding to a specific Request. If a document is responsive to more than one Request, only one copy need be produced if FirstEnergy identifies each Request to which the document is responsive.

4. Provide all information responsive to the Request that is in the possession, custody or control of FirstEnergy or any other person acting in the interest of, or on behalf of, FirstEnergy. If FirstEnergy does not have information responsive to the Request, or has information that is only partially responsive to the Request, FirstEnergy should provide the available information and identify the information that is not available.

5. Identical copies may be furnished in lieu of original documents, provided that it is understood that, by doing so, the submission includes a waiver of any objection as to the authenticity of said copies as true and original copies of the originals should such copies be offered into evidence. Any documents produced in electronic form should be provided in a recognized format, mutually agreed to by the Parties

6. If the response to a Request contains any objection, state with specificity the grounds for the objection and the part of the Request to which the objection is made but respond to the Request fully insofar as it is not deemed objectionable.

7. If FirstEnergy does not have responsive documents, or has documents that are only partially responsive, FirstEnergy should produce the available documents and identify the documents that are not available.

8. If any information requested was, but is no longer, in your possession or subject to your control, or is no longer in existence, state whether it is missing or lost, destroyed, transmitted or transferred voluntarily or involuntarily to others, or otherwise disposed of and explain the circumstances surrounding the authorization for such disposition and the date or approximate date thereof.

9. Unless otherwise specified, the documents requested relate to utility poles in the parties' overlapping service area.

10. Unless otherwise specified, the time period for which information is requested commences on January 1, 2011 and continues to the present.

11. Electronic data should be produced as Bates-stamped tagged image file format ("TIFF") images along with an image load/cross reference file, a data load file with field metadata, and document-level extracted text for electronically stored information or optical character recognition ("OCR") text for scanned hard copy documents. Electronic data that does not convert to a TIFF image in a usable format (Excel files, Access files, etc.) or that cannot be converted to a TIFF image (sound and video files, scheduling database software, application files, etc.) should be produced in native format, along with extracted metadata and text. A placeholder image should be inserted in the TIFF set indicating that the file was produced natively.

12. Pursuant to 52 Pa. Code § 5.342(g), these Requests are continuing and FirstEnergy must supplement its responses upon discovering or learning of additional

information in its custody, possession, or control that was not produced or included in an earlier response.

INTERROGATORIES AND REQUESTS FOR PRODUCTION OF DOCUMENTS

1. Reference Answer Brief ¶ 73 and Answer Attachment B at ¶¶ 14-15 & Ex. SFS-1:

   (a) Identify who prepared the chart at Answer Attachment B, Ex. SFS-1, who selected the time period for the chart and the basis for the time period selected, who selected the entities to be included in the chart, and the entities referenced in the chart.

   (b) For each "Attachment Request" included as a "2018-2019 Attachment Request," identify the location of the relevant pole(s), the pole identification number(s), the "Make-Ready Engineering (MRE)" and "Make-Ready Construction (MRC)" work performed, the amount FirstEnergy invoiced for the "Make-Ready Engineering (MRE)" and "Make-Ready Construction (MRC)" work, and the amount FirstEnergy collected for the "Make-Ready Engineering (MRE)" and "Make-Ready Construction (MRC)" work. Separately present the information for poles owned by Met-Ed, Penelec, and Penn Power.

   (c) Provide all documents, work papers, analyses, invoices, cost records, and payment records considered when preparing the chart.

2. Reference Answer Brief ¶ 73 and Answer Attachment B at ¶¶ 14-15 & Ex. SFS-1:

   (a) For the 2011 through 2019 years for each entity with facilities attached to FirstEnergy's poles, identify by year and by entity the "Total Attachments on FE Owned Poles," the number of "Attachment Requests," the "Make-Ready Engineering (MRE)" costs FirstEnergy charged and collected, the "Make Ready Construction (MRC)" costs FirstEnergy charged and collected, and the "Annual Make-Ready Per Attached Pole."

   (b) For each "Attachment Request," identify the location of the relevant pole(s), the pole identification number(s), the "Make-Ready Engineering (MRE)" and "Make-Ready Construction (MRC)" work performed, the amount FirstEnergy invoiced for the "Make-Ready Engineering (MRE)" and "Make-Ready Construction (MRC)" work, and the amount FirstEnergy collected for the "Make-Ready Engineering (MRE)" and "Make-Ready Construction (MRC)" work. Separately present the information for poles owned by Met-Ed, Penelec, and Penn Power.

(c) Provide all documents, work papers, invoices, cost records, and payment records concerning the analysis.

3. Reference Answer Brief ¶ 84 and Answer Attachment B ¶ 20.

(a) Provide all documents concerning the allegation that the fees for SPANS "amount to $20 per application plus $0.65 per pole," including all invoices and payment records concerning fees for SPANS.

(b) For the 2011 through 2019 years for each entity attached to FirstEnergy's poles, identify by year and by entity the total number of FirstEnergy distribution poles to which the entity has facilities attached, the number of its SPANS applications, and the SPANS fees it paid FirstEnergy. Separately present the information for poles owned by Met-Ed, Penelec, and Penn Power.

(c) Provide all documents, work papers, invoices, cost records, and payment records concerning the analysis.

4. Reference Answer Brief ¶ 86 n.96 and Answer Attachment J. Identify who prepared the list quoted at Answer Brief ¶ 86 n.96 and included as Answer Attachment J and provide all analyses, studies, and documents considered when preparing the list. Separately present the information for Verizon's Joint Use Agreements with Met-Ed, Penelec, and Penn Power, cite all relevant Joint Use Agreement and License Agreement provisions, and provide all documents, work papers, analyses, invoices, and payment records considered when preparing the list.

5. Reference Answer Brief ¶ 87. Describe in detail the basis for the allegations of Answer Brief ¶ 87 and provide all documents concerning the allegations, including the identity of each "customer," the location of each "customer," the identity of each "Verizon competitor," and the location of each FirstEnergy pole referenced in Answer Brief ¶ 87, and all documents, studies, analyses, cost records, and work papers performed or considered.

6. Reference Answer Brief ¶ 88 and Answer Attachment B ¶ 22.

(a) Describe in detail the field audit conducted in The Toledo Edison Company's ("Toledo Edison") service territory, including when the field audit was conducted, what contractor conducted the field audit, the scope of the field audit, the information gathered during the field audit, and the cost of the field audit.

(b) Identify the number of entities with facilities attached to Toledo Edison's poles and the number of entities that paid field audit costs.

(c) For each entity with facilities attached to Toledo Edison's poles, identify the field audit costs Toledo Edison invoiced, the field audit costs Toledo Edison collected, the total number of Toledo Edison distribution poles to which the entity has facilities attached, and the language from the entity's License Agreement concerning five-year field audits.

(d) Provide all documents governing the field audit, all documents communicating about the field audit between Toledo Edison and entities with facilities attached to Toledo Edison's poles, and all invoices, cost records, and payment records concerning the allegation that the "costs for that field audit to Verizon competitors were $4.50 per pole."

7. Reference Answer Brief ¶ 88 and Answer Attachment B ¶ 22.

(a) Describe in detail the nature, scope and schedule for completing the field audit FirstEnergy "will be conducting" in the Met-Ed, Penelec, and Penn Power service territories, and identify by service territory when the field audit will commence and conclude, when the last field audit was conducted, what contractor will be conducting the field audit, the information that will be gathered during the field audit and the basis on which the data will be collected, how the field audit will differ from the field audit conducted in Toledo Edison's service territory, and the field audit contractor's projected cost for the field audit.

(b) Provide all documents governing the field audit, all documents communicating about the field audit with entities attached FirstEnergy's poles, and all other documents concerning the allegation that "FirstEnergy will be conducting field audits on a five-year cycle for all of its operating utilities that is similar to the field audit it has conducted in The Toledo Edison Company's service territory."

8. Reference Answer Brief ¶ 89 and Answer Attachment F ¶ 34.

(a) Describe in detail the basis for FirstEnergy's allegation that "Verizon's facilities weigh much more than the facilities of other communications attachers," including how many facilities were considered, how the weight was measured, and the person(s) who conducted the measurements.

(b) For each Verizon and other communications facility considered, identify the weight of the facility, the owner of the facility, and the pole location and pole identification number to which the facility is attached.

(c) For each Verizon facility considered, identify the location, weight, and owner of the facility to which it was compared and the person(s) performing the comparison.

(d) Provide all documents concerning the allegation that "Verizon's facilities weigh much more than the facilities of other communications attachers," including all studies, analyses, and work papers concerning the allegation.

9. Reference Answer Brief ¶ 89 and Answer Attachment F ¶ 34.

(a) Describe in detail the basis for FirstEnergy's allegation that the "load on the pole created by Verizon's attachments is greater than the load on the pole created by Verizon's competitors," including how many attachments were considered, how the load was measured, and the person(s) who conducted the measurements.

(b) For each Verizon and other communications attachment considered, identify the load of the attachment, the owner of the attachment, and the pole location and pole identification number of the attachment.

(c) For each Verizon attachment considered, identify the location, load, and owner of the attachment to which it was compared and the person(s) performing the comparison.

(d) Provide all documents concerning the allegation that the "load on the pole created by Verizon's attachments is greater than the load on the pole created by Verizon's competitors," including all studies, analyses, and work papers concerning the allegation.

10. Reference Answer Brief ¶ 89 and Answer Attachment F ¶ 34.

(a) Describe in detail the study or analysis undertaken by FirstEnergy to determine the "ice and wind conditions typically experienced in Pennsylvania," including the person(s) who performed the study or

analysis, the ice and wind conditions FirstEnergy contends are typical, the basis of FirstEnergy's contention that they are typical, and the area or areas of Pennsylvania included in FirstEnergy's analysis.

(b) Provide all documents concerning FirstEnergy's determination of the "ice and wind conditions typically experienced in Pennsylvania," including all studies, analyses, and work papers concerning the allegation.

11. Reference Answer Brief ¶ 89 and Answer Attachment F ¶ 34.

(a) Describe in detail the basis for FirstEnergy's allegation that "Verizon's attachments create more sag than do the attachments of Verizon's competitors," including how many attachments were considered, how sag was measured, where sag was measured in relation to a pole, and the person(s) who conducted the measurements.

(b) For each Verizon and other communications attachment considered, identify the sag measured, the owner of the attachment, and the pole location and pole identification number of the attachment.

(c) For each Verizon attachment considered, identify the location, amount of sag, and owner of the attachment to which it was compared, and the person(s) who performed the comparison.

(d) Provide all documents concerning the allegation that "Verizon's attachments create more sag than do the attachments of Verizon's competitors," including all studies, analyses, and work papers concerning the allegation.

12. Reference Answer Brief ¶ 95 and Answer Attachment B ¶ 22.

(a) Describe in detail the basis for FirstEnergy's allegation that "FirstEnergy's tree removals benefit Verizon's pole plant."

(b) Identify the location and pole identification number for each pole for which FirstEnergy conducted a tree removal since 2011 that FirstEnergy contends was a benefit to Verizon, identify all other entities with facilities attached to that pole, state whether and how FirstEnergy's tree removal provided Verizon a benefit that was different from that provided other facilities attached to the pole, and quantify the "benefit" provided Verizon and provided other entities with facilities attached to the pole.

(c) Provide all documents concerning the allegation that "FirstEnergy's tree removals benefit Verizon's pole plant," including all studies, analyses, invoices, cost records, and payment records concerning the allegation.

13. Reference Answer Brief ¶ 95 and Answer Attachment B ¶ 23.

(a) Describe in detail the basis for FirstEnergy's allegation that "FirstEnergy inspects Verizon's pole plant" and that such inspections "provide a significant benefit to Verizon."

(b) Identify the location and pole identification number for each of "Verizon's pole plant" that FirstEnergy inspected since 2011, identify all other entities with facilities attached to that pole, state whether and how FirstEnergy's inspection provided Verizon a benefit that was different from that provided other facilities attached to the pole, and quantify the "benefit" provided Verizon and provided other entities with facilities attached to the pole.

(c) Provide all documents concerning the allegation that "FirstEnergy inspects Verizon's pole plant" and that such inspections "provide a significant benefit to Verizon," including all studies, analyses, invoices, cost records, and payment records concerning the allegation.

14. Reference Answer Brief ¶ 95 and Answer Attachment B ¶ 24.

(a) Describe in detail the basis for FirstEnergy's allegation that FirstEnergy "incurs significant unreimbursed expense responding to emergency events on Verizon-owned poles," including the expense that was unreimbursed.

(b) For each such "unreimbursed expense," identify the location and pole identification number for the Verizon-owned pole, the work performed, the amount of the "unreimbursed expense," all other entities with facilities attached to that pole, and state whether and how FirstEnergy's work provided Verizon a benefit that was different from that provided other facilities attached to the pole.

(c) Also for each "unreimbursed expense," identify the "emergency event" and all efforts to notify Verizon of the "emergency event" and state whether FirstEnergy took ownership of the pole following the "emergency event."

(d) Provide all documents concerning the allegation that FirstEnergy "incurs significant unreimbursed expense responding to emergency events on Verizon-owned poles," including all accident reports, studies, analyses, invoices, cost records, and payment records concerning the allegation.

15. Reference Answer Brief ¶ 101. Describe in detail how FirstEnergy calculated the rates it charged cable companies and CLECs each year from 2011 through 2019 and identify the calculations, inputs, assumptions, and sources for each rate, the person(s) who conducted the measurements, and the date the rate was calculated. Provide all documents concerning the calculations if they are not publicly available.

16. Reference Answer Brief ¶ 102 and Answer to Compl. ¶ 11.

(a) Describe in detail the basis for FirstEnergy's statement that it charges some CLECs higher rates than other CLECs "for good reasons" and due to "bargained for rates, terms and conditions."

(b) By entity, identify the "bargained for rates, terms and conditions" that justify the higher rate with citation to the relevant License Agreement provision and the cost incurred by FirstEnergy to justify the higher rate, and provide all documents concerning FirstEnergy's conclusion that it may lawfully charge some CLECs higher rates than other CLECs.

17. Reference Answer Brief ¶¶ 104-110 and Answer Attachment G.

(a) Describe in detail the basis for FirstEnergy's allegation that "Verizon's calculations contain several errors" and that FirstEnergy attached "proper calculations" at Answer Attachment G.

(b) Identify the person(s) involved in FirstEnergy's analysis of Verizon's calculations and in FirstEnergy's calculation of the Attachment G rates, and

(c) Provide all documents concerning FirstEnergy's analysis of Verizon's calculations and FirstEnergy's calculation of rates, including all calculations, inputs, assumptions, and source materials to the extent they are not publicly available.

18. Reference Answer Brief ¶ 111, Answer Attachment B ¶ 27, and Answer Attachment L. Describe in detail the instructions FirstEnergy gave Precision Consulting, Inc. and provide all documents exchanged between FirstEnergy and Precision Consulting, Inc. regarding the analysis described in Answer Brief ¶ 111, Answer Attachment B ¶ 27, and Answer Attachment L, including the GIS data files.

19. Reference Answer Brief ¶ 111, Answer Attachment B ¶ 27, and Answer Attachment K.

(a) Describe in detail the field audit referenced in Answer Brief ¶ 111, Answer Attachment B ¶ 27, and Answer Attachment K including the person(s) who determined the scope of the field audit, the information that would be collected, and the manner in which the study would be performed.

(b) Describe the instructions FirstEnergy gave Davey Resource Group regarding the field audit, identify the date FirstEnergy retained Davey Resource Group to perform the field audit, the date the Davey Resource Group began the field audit, the date Davey Research Group finished the field audit, and the date FirstEnergy received the results of the field audit, including preliminary results.

(c) For each pole reviewed by Davey Resource Group, identify the pole's location and identification number and provide all data collected regarding the pole.

(d) Provide all documents exchanged between FirstEnergy and Davey Resource Group regarding the field audit described in Answer Brief ¶ 111, Answer Attachment B ¶ 27, and Answer Attachment K, including all preliminary and final field audit data.

20. Reference Answer to Complaint ¶ 17. Describe in detail the basis for FirstEnergy's allegation that "Verizon does in fact receive considerable benefits over its competitors that materially advantage Verizon" and identify each such benefit with reference to the relevant Joint Use Agreement and License Agreement language and FirstEnergy's cost

records. Provide all documents concerning FirstEnergy's allegation that "Verizon does in fact receive considerable benefits over its competitors that materially advantage Verizon," including all studies, analyses, invoices, cost records, and payment records concerning the allegation.

21. Reference Answer to Complaint ¶ 36.

    (a) Describe the difference between "a new telecom rate" and "the new telecom rate" and provide calculations of "a new telecom rate" and "the new telecom rate" for Verizon's use of FirstEnergy's poles for the 2011 through 2019 rental years.

    (b) Identify the calculations, inputs, assumptions, and sources for each rate, the person(s) involved in the calculation of the rate, and all documents concerning the calculation of the rates if they are not publicly available.

22. Reference Answer to Complaint ¶ 43.

    (a) For each entity with facilities attached to FirstEnergy's poles since 2011, state whether the entity paid FirstEnergy an agreement preparation fee under its License Agreement.

    (b) For each entity that paid FirstEnergy an agreement preparation fee, identify the amount of the fee it paid, the year it paid the fee, and the total number of FirstEnergy distribution poles to which the entity currently has facilities attached. Separately present the information for poles owned by Met-Ed, Penelec, and Penn Power.

    (c) Provide all documents, work papers, invoices, cost records, and payment records concerning the analysis.

23. Reference Answer to Complaint ¶ 49.

    (a) Describe in detail the basis for FirstEnergy's allegation that "the lowest attachment on the pole" is "easier to access" than other communications facilities on the same pole, including how many facilities were considered in FirstEnergy's analysis, how ease of access was measured, and the person(s) who conducted the measurements.

(b) For each facility considered, identify the pole location and pole identification number, the facilities that were considered and compared, and the person(s) performing the comparison.

(c) Provide all documents concerning the allegation that "the lowest attachment on the pole" is "easier to access" than other communications facilities on the same pole, including all studies, analyses, and work papers concerning the allegation.

24. Reference Answer to Complaint ¶ 51. For each entity with facilities attached to FirstEnergy's poles since 2011, identify by year the amount FirstEnergy invoiced the entity for unauthorized attachment fees, the amount FirstEnergy collected from the entity in unauthorized attachment fees, and the total number of FirstEnergy distribution poles to which the entity currently has facilities attached. Separately present the information for poles owned by Met-Ed, Penelec, and Penn Power, and provide all documents, work papers, analyses, invoices, cost records, and payment records concerning the analysis.

25. Reference Answer to Complaint ¶ 51. For each entity with facilities attached to FirstEnergy's poles since 2011, identify by year the amount FirstEnergy invoiced the entity for safety violation fees, the amount FirstEnergy collected from the entity in safety violation fees, and the total number of FirstEnergy distribution poles to which the entity currently has facilities attached. Separately present the information for poles owned by Met-Ed, Penelec, and Penn Power, and provide all documents, work papers, analyses, invoices, cost records, and payment records concerning the analysis.

26. Reference Answer to Complaint ¶ 52.

(a) Identify every difference FirstEnergy contends exists between the insurance provision in each Joint Use Agreement and the insurance provision in each License Agreement and explain the basis for FirstEnergy's conclusion.

(b) Provide all documents concerning the allegation that "differences exist between the insurance … provisions that apply to Verizon and those that apply to Verizon's competitors," including all studies, analyses, and work papers concerning the allegation.

27. Reference Answer to Complaint ¶ 52.

(a) Identify every difference FirstEnergy contends exists between the indemnification provision in each Joint Use Agreement and the indemnification provision each License Agreement and explain the basis for FirstEnergy's conclusion.

(b) Provide all documents concerning the allegation that "differences exist between the … indemnification provisions that apply to Verizon and those that apply to Verizon's competitors," including all studies, analyses, and work papers concerning the allegation.

28. Reference Answer to Complaint ¶ 53.

(a) For each entity with facilities attached to FirstEnergy's poles since 2011, state whether the entity posted a security bond under its License Agreement.

(b) For each entity that posted a security bond, identify the amount of the security bond, the cost of the security bond, and the total number of FirstEnergy distribution poles to which the entity currently has facilities attached. Separately present the information for poles owned by Met-Ed, Penelec, and Penn Power.

(c) Provide all documents, work papers, invoices, cost records, and payment records concerning the analysis.

29. Reference Answer Attachment B. Provide all documents, workpapers, reports, and analyses Stephen F. Schafer considered or relied upon in preparing the Declaration and Exhibits at Answer Attachment B.

30. Reference Answer Attachment C. Provide all documents, workpapers, reports, and analyses William Zarakas considered or relied upon in preparing the Declaration at Answer Attachment C.

31. Reference Answer Attachment D. Provide all documents, workpapers, reports, and analyses Thomas R. Pryatel considered or relied upon in preparing the Declaration and Exhibits at Answer Attachment D.

32. Reference Answer Attachment E. Provide all documents, workpapers, reports, and analyses Bridger M. Mitchell considered or relied upon in preparing the Declaration at Answer Attachment E.

33. Reference Answer Attachment F. Provide all documents, workpapers, reports, and analyses Randal J. Coleman considered or relied upon in preparing the Declaration and Exhibits at Answer Attachment F.

34. Reference Answer Attachment K. Provide all documents, workpapers, reports, and analyses Scott Carlin considered or relied upon in preparing the Declaration and Exhibits at Answer Attachment K.

35. Reference Answer Attachment L. Provide all documents, workpapers, reports, and analyses Clark Guo considered or relied upon in preparing the Declaration and Exhibits at Answer Attachment L.

Re: Verizon Pennsylvania LLC and Verizon North LLC v. Metropolitan Edison Company, Pennsylvania Electric Company, and Pennsylvania Power Company
Docket No. C-2020-3019347

Dear Counsel:

Enclosed are the Responses of Metropolitan Edison Company, Pennsylvania Electric Company, and Pennsylvania Power Company to the Interrogatories and Requests for Production of Documents of Verizon Pennsylvania LLC and Verizon North LLC – Set II, Nos. 1-3, 5-7, 11-14, 22-25, 30-31, 33, and 35 in the above-referenced proceeding.

Copies are being provided electronically only, as indicated on the Certificate of Service, due to the current closure of all non-life sustaining businesses in the Commonwealth upon direction of Governor Wolf.

Sincerely,

Devin Ryan

METROPOLITAN EDISON COMPANY, PENNSYLVANIA ELECTRIC COMPANY AND PENNSYLVANIA POWER COMPANY
v.
VERIZON PENNSYLVANIA LLC AND VERIZON NORTH LLC
Docket No. C-2020-3019347

Verizon Interrogatory Set II, No. 1

Reference Answer Brief ¶ 73 and Answer Attachment B at ¶¶ 14-15 & Ex. SFS-1:

(a) Identify who prepared the chart at Answer Attachment B, Ex. SFS-1, who selected the time period for the chart and the basis for the time period selected, who selected the entities to be included in the chart, and the entities referenced in the chart.

(b) For each "Attachment Request" included as a "2018-2019 Attachment Request," identify the location of the relevant pole(s), the pole identification number(s), the "Make-Ready Engineering (MRE)" and "Make-Ready Construction (MRC)" work performed, the amount FirstEnergy invoiced for the "Make-Ready Engineering (MRE)" and "Make-Ready Construction (MRC)" work, and the amount FirstEnergy collected for the "Make-Ready Engineering (MRE)" and "Make-Ready Construction (MRC)" work. Separately present the information for poles owned by Met-Ed, Penelec, and Penn Power.

(c) Provide all documents, work papers, analyses, invoices, cost records, and payment records considered when preparing the chart.

RESPONSE:

(a) The chart was developed under the supervision of Steve Schafer. The period of 2018-19 was selected as it is reflective of the current pole attachment environment, including increasing numbers of pole attachment applications and increased use of contractors to perform said MRE/MRC work. The top five entities were selected based on the volume of poles that were submitted in new applications within the same time period for Met-Ed, Penelec and Penn Power, respectively.

(b) *See* Verizon Interrogatory Set II, No. 2(b).

(c) *See* Verizon Interrogatory Set II, No. 1, CONFIDENTIAL Attachments A through D.

METROPOLITAN EDISON COMPANY, PENNSYLVANIA ELECTRIC COMPANY AND PENNSYLVANIA POWER COMPANY
v.
VERIZON PENNSYLVANIA LLC AND VERIZON NORTH LLC
Docket No. C-2020-3019347

Verizon Interrogatory Set II, No. 2

Reference Answer Brief ¶ 73 and Answer Attachment B at ¶¶ 14-15 & Ex. SFS-1:

(a) For the 2011 through 2019 years for each entity with facilities attached to FirstEnergy's poles, identify by year and by entity the "Total Attachments on FE Owned Poles," the number of "Attachment Requests," the "Make- Ready Engineering (MRE)" costs FirstEnergy charged and collected, the "Make Ready Construction (MRC)" costs FirstEnergy charged and collected, and the "Annual Make-Ready Per Attached Pole."

(b) For each "Attachment Request," identify the location of the relevant pole(s), the pole identification number(s), the "Make-Ready Engineering (MRE)" and "Make-Ready Construction (MRC)" work performed, the amount FirstEnergy invoiced for the "Make-Ready Engineering (MRE)" and "Make-Ready Construction (MRC)" work, and the amount FirstEnergy collected for the "Make-Ready Engineering (MRE)" and "Make-Ready Construction (MRC)" work. Separately present the information for poles owned by Met-Ed, Penelec, and Penn Power.

(c) Provide all documents, work papers, invoices, cost records, and payment records concerning the analysis.

RESPONSE:

(a) The data provided is limited to information that is available in SPANS, which was implemented during calendar years 2014 for Penn Power and 2016 for Met-Ed and Penelec. Note that data is provided for the same entities that were used for the table in SFS-1.

(b) *See* Verizon Interrogatory Set II, No. 2, CONFIDENTIAL Attachments A through X.

(c) See response to Verizon Interrogatory Set II, No. 2(b).

METROPOLITAN EDISON COMPANY, PENNSYLVANIA ELECTRIC COMPANY AND PENNSYLVANIA POWER COMPANY
v.
VERIZON PENNSYLVANIA LLC AND VERIZON NORTH LLC
Docket No. C-2020-3019347

Verizon Interrogatory Set II, No. 3

Reference Answer Brief ¶ 84 and Answer Attachment B ¶ 20.

(a) Provide all documents concerning the allegation that the fees for SPANS "amount to $20 per application plus $0.65 per pole," including all invoices and payment records concerning fees for SPANS.

(b) For the 2011 through 2019 years for each entity attached to FirstEnergy's poles, identify by year and by entity the total number of FirstEnergy distribution poles to which the entity has facilities attached, the number of its SPANS applications, and the SPANS fees it paid FirstEnergy. Separately present the information for poles owned by Met-Ed, Penelec, and Penn Power.

(c) Provide all documents, work papers, invoices, cost records, and payment records concerning the analysis.

RESPONSE:

(a) Documents provided include invoices from Wind Lake Solutions, SSP – Wind Lake or SSP to Met-Ed, Penelec and Penn Power, respectively, for the SPANS fees for the period of 2014-19 for Penn Power and 2016-19 for Met-Ed and Penelec. The fees are passed through to the entities as derived from terms of the pole attachment agreement. There are no documents that define the SSP costs per application nor cost per pole. *See* Verizon Interrogatory Set II, No. 3, CONFIDENTIAL Attachment A.

(b) *See* response to Verizon Interrogatory Set II, No. 2(b) and data in Verizon Interrogatory Set II, No. 3, Attachments B through M. Note that data is limited to the years that Met-Ed, Penelec and Penn Power have had SPANS.

(c) *See* response to Verizon Interrogatory Set II, No. 3(a) and (b).

METROPOLITAN EDISON COMPANY, PENNSYLVANIA ELECTRIC COMPANY AND PENNSYLVANIA POWER COMPANY
v.
VERIZON PENNSYLVANIA LLC AND VERIZON NORTH LLC
Docket No. C-2020-3019347

Verizon Interrogatory Set II, No. 5

Reference Answer Brief ¶ 87. Describe in detail the basis for the allegations of Answer Brief ¶ 87 and provide all documents concerning the allegations, including the identity of each "customer," the location of each "customer," the identity of each "Verizon competitor," and the location of each FirstEnergy pole referenced in Answer Brief ¶ 87, and all documents, studies, analyses, cost records, and work papers performed or considered.

RESPONSE:

Paragraph 87 of FirstEnergy's Affirmative Defenses describes a hypothetical example of how the speed to market benefit might be quantifiable if appropriate data were obtained through discovery and available to include in a response. As a hypothetical example, the response to the rest of the parts to this question is "not applicable."

METROPOLITAN EDISON COMPANY, PENNSYLVANIA ELECTRIC COMPANY AND PENNSYLVANIA POWER COMPANY
v.
VERIZON PENNSYLVANIA LLC AND VERIZON NORTH LLC
Docket No. C-2020-3019347

Verizon Interrogatory Set II, No. 6

Reference Answer Brief ¶ 88 and Answer Attachment B ¶ 22.

(a) Describe in detail the field audit conducted in The Toledo Edison Company's ("Toledo Edison") service territory, including when the field audit was conducted, what contractor conducted the field audit, the scope of the field audit, the information gathered during the field audit, and the cost of the field audit.

(b) Identify the number of entities with facilities attached to Toledo Edison's poles and the number of entities that paid field audit costs.

(c) For each entity with facilities attached to Toledo Edison's poles, identify the field audit costs Toledo Edison invoiced, the field audit costs Toledo Edison collected, the total number of Toledo Edison distribution poles to which the entity has facilities attached, and the language from the entity's License Agreement concerning five-year field audits.

(d) Provide all documents governing the field audit, all documents communicating about the field audit between Toledo Edison and entities with facilities attached to Toledo Edison's poles, and all invoices, cost records, and payment records concerning the allegation that the "costs for that field audit to Verizon competitors were $4.50 per pole."

RESPONSE:

(a) The field audit of pole attachments was conducted in 2016-17 for the Toledo Edison service territory. The contractor used for the field audit was Davey Resource Group, A Division of the Davey Tree Expert Company. There was no direct cost to Toledo Edison. The scope of the field audit included identification of attachments to all Toledo Edison poles within the service territory. The cost of the field audit was paid for by third-party attachers in accordance with applicable pole attachment agreements and the Toledo Edison tariff.

(b) See Verizon Interrogatory Set II, No. 2(d) for the number of entities attached to Toledo Edison poles.

(c) Toledo Edison neither invoiced nor collected payment for the field audit. See Verizon Interrogatory Set II, No. 2(d) for the field audit cost, the number of poles to which each entity is attached, and the language from the applicable license agreement.

(d) See Verizon Interrogatory Set II, No. 6, Attachments A through K.

METROPOLITAN EDISON COMPANY, PENNSYLVANIA ELECTRIC COMPANY AND PENNSYLVANIA POWER COMPANY
v.
VERIZON PENNSYLVANIA LLC AND VERIZON NORTH LLC
Docket No. C-2020-3019347

Verizon Interrogatory Set II, No. 7

Reference Answer Brief ¶ 88 and Answer Attachment B ¶ 22.

(a) Describe in detail the nature, scope and schedule for completing the field audit FirstEnergy "will be conducting" in the Met-Ed, Penelec, and Penn Power service territories, and identify by service territory when the field audit will commence and conclude, when the last field audit was conducted, what contractor will be conducting the field audit, the information that will be gathered during the field audit and the basis on which the data will be collected, how the field audit will differ from the field audit conducted in Toledo Edison's service territory, and the field audit contractor's projected cost for the field audit.

(b) Provide all documents governing the field audit, all documents communicating about the field audit with entities attached FirstEnergy's poles, and all other documents concerning the allegation that "FirstEnergy will be conducting field audits on a five-year cycle for all of its operating utilities that is similar to the field audit it has conducted in The Toledo Edison Company's service territory."

RESPONSE:

(a) The field audit of pole attachments in the Penn Power service territory is being conducted now. The field audit of pole attachments for Penelec and Met-Ed service territories is tentatively scheduled to begin in late 2020 and run through 2021. The contractor used for the field audits will be Davey Resource Group. The scope of the field audit includes identification of attachments to all Penn Power, Penelec and Met-Ed poles within their respective service territories. There will be no direct cost to Met-Ed, Penelec or Penn Power. There is no appreciable difference between these field audits and the Toledo Edison field audit. The scope of the field audits include identification of attachments to all Met-Ed, Penelec and Penn Power poles within the respective service territories. The cost of the field audit will be paid for by third-party attachers in accordance with applicable pole attachment agreements. FirstEnergy does not have a record of its last field audit.

(b) See Verizon Interrogatory Set II, No. 7, Attachments A through G.

METROPOLITAN EDISON COMPANY, PENNSYLVANIA ELECTRIC COMPANY AND PENNSYLVANIA POWER COMPANY
v.
VERIZON PENNSYLVANIA LLC AND VERIZON NORTH LLC
Docket No. C-2020-3019347

Verizon Interrogatory Set II, No. 11

Reference Answer Brief ¶ 89 and Answer Attachment F ¶ 34.

(a) Describe in detail the basis for FirstEnergy's allegation that "Verizon's attachments create more sag than do the attachments of Verizon's competitors," including how many attachments were considered, how sag was measured, where sag was measured in relation to a pole, and the person(s) who conducted the measurements.

(b) For each Verizon and other communications attachment considered, identify the sag measured, the owner of the attachment, and the pole location and pole identification number of the attachment.

(c) For each Verizon attachment considered, identify the location, amount of sag, and owner of the attachment to which it was compared, and the person(s) who performed the comparison.

(d) Provide all documents concerning the allegation that "Verizon's attachments create more sag than do the attachments of Verizon's competitors," including all studies, analyses, and work papers concerning the allegation.

RESPONSE:

(a) FirstEnergy used "SAG10" software to calculate the sag required to safely and securely install the Verizon cables. Calculations were run under the direction of Randal J. Coleman for five of the most common Verizon attachments.

(b) *See* Verizon Interrogatory Set II, No. 11, Attachment A. The study was completed by DRG for the company.

(c) The comparison between Verizon and other attachers was not needed. Verizon attachments are obviously much larger than other attachment cables. *See* page 1 of Verizon Interrogatory Set II, No. 8, Attachment B, for cable size and weight.

(d) *See* Verizon Interrogatory Set II, No. 9, Attachment A. All data for this calculation came from Verizon Interrogatory Set II, No. 8, Attachments A and B.

METROPOLITAN EDISON COMPANY, PENNSYLVANIA ELECTRIC COMPANY AND PENNSYLVANIA POWER COMPANY
v.
VERIZON PENNSYLVANIA LLC AND VERIZON NORTH LLC
Docket No. C-2020-3019347

Verizon Interrogatory Set II, No. 12

Reference Answer Brief ¶ 95 and Answer Attachment B ¶ 22.

(a) Describe in detail the basis for FirstEnergy's allegation that "FirstEnergy's tree removals benefit Verizon's pole plant."

(b) Identify the location and pole identification number for each pole for which FirstEnergy conducted a tree removal since 2011 that FirstEnergy contends was a benefit to Verizon, identify all other entities with facilities attached to that pole, state whether and how FirstEnergy's tree removal provided Verizon a benefit that was different from that provided other facilities attached to the pole, and quantify the "benefit" provided Verizon and provided other entities with facilities attached to the pole.

(c) Provide all documents concerning the allegation that "FirstEnergy's tree removals benefit Verizon's pole plant," including all studies, analyses, invoices, cost records, and payment records concerning the allegation.

RESPONSE:

(a) FirstEnergy removes dead and damaged trees on and off right-of-way to reduce pole line damage. This protects Verizon owned poles as it does the company's poles.

(b) Attached is a listing of more than 185,000 tree removal projects that removed 35,654,078 trees between 2015 and 2019. The relative pole identification numbers are included in the attachment as well as the circuit identifiers and cost information for each location. These removals benefit Verizon as a pole owner. *See* Verizon Interrogatory Set II, No. 12, Attachment A.

(c) The listing of each project, substation, number of trees and cost for each removal is referenced in Verizon Interrogatory Set II, No. 12, Attachment A.

METROPOLITAN EDISON COMPANY, PENNSYLVANIA ELECTRIC COMPANY AND PENNSYLVANIA POWER COMPANY
v.
VERIZON PENNSYLVANIA LLC AND VERIZON NORTH LLC
Docket No. C-2020-3019347

Verizon Interrogatory Set II, No. 13

Reference Answer Brief ¶ 95 and Answer Attachment B ¶ 23.

(a) Describe in detail the basis for FirstEnergy's allegation that "FirstEnergy inspects Verizon's pole plant" and that such inspections "provide a significant benefit to Verizon."

(b) Identify the location and pole identification number for each of "Verizon's pole plant" that FirstEnergy inspected since 2011, identify all other entities with facilities attached to that pole, state whether and how FirstEnergy's inspection provided Verizon a benefit that was different from that provided other facilities attached to the pole, and quantify the "benefit" provided Verizon and provided other entities with facilities attached to the pole.

(c) Provide all documents concerning the allegation that "FirstEnergy inspects Verizon's pole plant" and that such inspections "provide a significant benefit to Verizon," including all studies, analyses, invoices, cost records, and payment records concerning the allegation.

RESPONSE:

(a) The FirstEnergy conducts a 5-year visual inspection of all electric assets, including poles where FirstEnergy is attached. These inspections include a visual review of the structure (pole), low hanging cable(s) and guy wire marking. FirstEnergy regularly reports to Verizon areas of concern or noted failures for corrective actions.

(b) Attached is a report of 1,278 identified concerns on Verizon-owned poles of various types. These concerns are communicated to Verizon through various systems including SPANS, local operational relationships and similar means. *See* Verizon Interrogatory Set II, No. 13, Attachment A.

(c) The available electronic retrievable records for inspection are referenced in Verizon Interrogatory Set II, No. 13, Attachment A. The inspection is completed with internal company labor. There is no specific labor code available to accurately determine the effort and labor costs

to inspect Verizon-owned poles as a subset of the inspection program. *See* Verizon Interrogatory Set II, No. 13, Attachment A.

METROPOLITAN EDISON COMPANY, PENNSYLVANIA ELECTRIC COMPANY AND PENNSYLVANIA POWER COMPANY
v.
VERIZON PENNSYLVANIA LLC AND VERIZON NORTH LLC
Docket No. C-2020-3019347

Verizon Interrogatory Set II, No. 14

Reference Answer Brief ¶ 95 and Answer Attachment B ¶ 24.

(a) Describe in detail the basis for FirstEnergy's allegation that FirstEnergy "incurs significant unreimbursed expense responding to emergency events on Verizon-owned poles," including the expense that was unreimbursed.

(b) For each such "unreimbursed expense," identify the location and pole identification number for the Verizon-owned pole, the work performed, the amount of the "unreimbursed expense," all other entities with facilities attached to that pole, and state whether and how FirstEnergy's work provided Verizon a benefit that was different from that provided other facilities attached to the pole.

(c) Also for each "unreimbursed expense," identify the "emergency event" and all efforts to notify Verizon of the "emergency event" and state whether FirstEnergy took ownership of the pole following the "emergency event."

(d) Provide all documents concerning the allegation that FirstEnergy "incurs significant unreimbursed expense responding to emergency events on Verizon-owned poles," including all accident reports, studies, analyses, invoices, cost records, and payment records concerning the allegation.

RESPONSE:

(a) Where Verizon poles have failed due to car pole accidents, storm events or undetected rot, the poles need urgent repair or replacement. Verizon is given a reasonable amount of time to commit to making timely repairs and replacements. Where Verizon is unresponsive or late, FirstEnergy will replace the pole.

(b) Attached is a listing of the poles located from FirstEnergy's outage management system. *See* Verizon Interrogatory Set II, No. 14, Attachments A and B.

(c) The outage management listing includes comments where dispatchers have attempted to contact Verizon.

(d) The outage management system provides the most complete record available with such limited access to written logs and employee interviews.

METROPOLITAN EDISON COMPANY, PENNSYLVANIA ELECTRIC COMPANY AND PENNSYLVANIA POWER COMPANY
v.
VERIZON PENNSYLVANIA LLC AND VERIZON NORTH LLC
Docket No. C-2020-3019347

Verizon Interrogatory Set II, No. 22

Reference Answer to Complaint ¶ 43.

(a) For each entity with facilities attached to FirstEnergy's poles since 2011, state whether the entity paid FirstEnergy an agreement preparation fee under its License Agreement.

(b) For each entity that paid FirstEnergy an agreement preparation fee, identify the amount of the fee it paid, the year it paid the fee, and the total number of FirstEnergy distribution poles to which the entity currently has facilities attached. Separately present the information for poles owned by Met-Ed, Penelec, and Penn Power.

(c) Provide all documents, work papers, invoices, cost records, and payment records concerning the analysis.

RESPONSE:

(a) *See* Verizon Interrogatory Set II, No. 22(c).

(b) Application fees are applicable only to those CLEC / CATV agreements that were entered into after the agreement template was introduced in 2013. *See* Verizon Interrogatory Set II, No. 22(c).

(c) *See* Verizon Interrogatory Set II, No. 22, CONFIDENTIAL Attachments A and B.

METROPOLITAN EDISON COMPANY, PENNSYLVANIA ELECTRIC COMPANY AND PENNSYLVANIA POWER COMPANY
v.
VERIZON PENNSYLVANIA LLC AND VERIZON NORTH LLC
Docket No. C-2020-3019347

Verizon Interrogatory Set II, No. 23

Reference Answer to Complaint ¶ 49.

(a) Describe in detail the basis for FirstEnergy's allegation that "the lowest attachment on the pole" is "easier to access" than other communications facilities on the same pole, including how many facilities were considered in FirstEnergy's analysis, how ease of access was measured, and the person(s) who conducted the measurements.

(b) For each facility considered, identify the pole location and pole identification number, the facilities that were considered and compared, and the person(s) performing the comparison.

(c) Provide all documents concerning the allegation that "the lowest attachment on the pole" is "easier to access" than other communications facilities on the same pole, including all studies, analyses, and work papers concerning the allegation.

RESPONSE:

(a) The Occupational Safety and Health Administration requires workers climbing higher than four feet above grade on a pole to utilize an approved fall arrest device (climbing belt) to prevent injury from falling. As such, while passing through on the way to higher attachments, every lower communication attachment requires detaching and reattaching climbing belts, which is time consuming and adds risk.

Additionally, the lowest attachment on a pole is also farther away from energized power lines than other communications facilities on the same pole, meaning that the lowest attachment on a pole need not take the extra care to avoid damaging the attachments of lower communications facilities that would otherwise be required. Also considered were decades of unrecorded conversations with thousands of linemen across the corporate footprint.

The measurement was qualitative and not quantitative, and incorporates input from Thomas Pryatel, Stephen Schafer, and Randal Coleman.

(b) Not applicable. See response to (a) above.

(c) Not applicable. See response to (a) above.

METROPOLITAN EDISON COMPANY, PENNSYLVANIA ELECTRIC COMPANY AND PENNSYLVANIA POWER COMPANY
v.
VERIZON PENNSYLVANIA LLC AND VERIZON NORTH LLC
Docket No. C-2020-3019347

Verizon Interrogatory Set II, No. 24

Reference Answer to Complaint ¶ 51. For each entity with facilities attached to FirstEnergy's poles since 2011, identify by year the amount FirstEnergy invoiced the entity for unauthorized attachment fees, the amount FirstEnergy collected from the entity in unauthorized attachment fees, and the total number of FirstEnergy distribution poles to which the entity currently has facilities attached. Separately present the information for poles owned by Met-Ed, Penelec, and Penn Power, and provide all documents, work papers, analyses, invoices, cost records, and payment records concerning the analysis.

RESPONSE:

Unauthorized attachment fees have not been charged by Met-Ed, Penelec or Penn Power since 2011. The reason for this is that no field audits of pole attachments have been performed by those companies since that time.

METROPOLITAN EDISON COMPANY, PENNSYLVANIA ELECTRIC COMPANY AND PENNSYLVANIA POWER COMPANY
v.
VERIZON PENNSYLVANIA LLC AND VERIZON NORTH LLC
Docket No. C-2020-3019347

Verizon Interrogatory Set II, No. 25

Reference Answer to Complaint ¶ 51. For each entity with facilities attached to FirstEnergy's poles since 2011, identify by year the amount FirstEnergy invoiced the entity for safety violation fees, the amount FirstEnergy collected from the entity in safety violation fees, and the total number of FirstEnergy distribution poles to which the entity currently has facilities attached. Separately present the information for poles owned by Met-Ed, Penelec, and Penn Power, and provide all documents, work papers, analyses, invoices, cost records, and payment records concerning the analysis.

RESPONSE:

No safety violation fees have been charged to entities by Met-Ed, Penelec, or Penn Power since 2011.

METROPOLITAN EDISON COMPANY, PENNSYLVANIA ELECTRIC COMPANY AND PENNSYLVANIA POWER COMPANY
v.
VERIZON PENNSYLVANIA LLC AND VERIZON NORTH LLC
Docket No. C-2020-3019347

Verizon Interrogatory Set II, No. 30

Reference Answer Attachment C. Provide all documents, workpapers, reports, and analyses William Zarakas considered or relied upon in preparing the Declaration at Answer Attachment C.

RESPONSE:

Any such materials are limited to those documents directly cited within Answer Attachment C, which are publicly available on the Federal Communication Commission's online docket or were otherwise previously produced within the record of this proceeding.

METROPOLITAN EDISON COMPANY, PENNSYLVANIA ELECTRIC COMPANY AND PENNSYLVANIA POWER COMPANY
v.
VERIZON PENNSYLVANIA LLC AND VERIZON NORTH LLC
Docket No. C-2020-3019347

Verizon Interrogatory Set II, No. 20

Reference Answer to Complaint ¶ 17. Describe in detail the basis for FirstEnergy's allegation that "Verizon does in fact receive considerable benefits over its competitors that materially advantage Verizon" and identify each such benefit with reference to the relevant Joint Use Agreement and License Agreement language and FirstEnergy's cost records. Provide all documents concerning FirstEnergy's allegation that "Verizon does in fact receive considerable benefits over its competitors that materially advantage Verizon," including all studies, analyses, invoices, cost records, and payment records concerning the allegation.

RESPONSE:

The basis for FirstEnergy's statement in its Answer comprises years of administering and implementing both Joint Use Agreements with Verizon and License Agreements with Verizon's competitors. FirstEnergy did not compile a record or comparison of individual provisions for nearly 2,000 matchups of the ten joint use agreements between the parties and the 185 license agreements between FirstEnergy and cable and CLEC entities. Additional information about the benefits Verizon receives under its Joint Use Agreements will be provided in FirstEnergy's rebuttal testimony, which will be served on May 21, 2020

METROPOLITAN EDISON COMPANY, PENNSYLVANIA ELECTRIC COMPANY AND PENNSYLVANIA POWER COMPANY
v.
VERIZON PENNSYLVANIA LLC AND VERIZON NORTH LLC
Docket No. C-2020-3019347

Verizon Interrogatory Set II, No. 21

Reference Answer to Complaint ¶ 36.

(a) Describe the difference between "a new telecom rate" and "the new telecom rate" and provide calculations of "a new telecom rate" and "the new telecom rate" for Verizon's use of FirstEnergy's poles for the 2011 through 2019 rental years.

(b) Identify the calculations, inputs, assumptions, and sources for each rate, the person(s) involved in the calculation of the rate, and all documents concerning the calculation of the rates if they are not publicly available.

RESPONSE:

(a) This question mischaracterizes and incompletely quotes FirstEnergy's Answer which addressed Verizon's mischaracterization of the parties' negotiations stated in Verizon's Complaint where Verizon incorrectly represented FirstEnergy's position. The context in FirstEnergy's Answer states:

> FirstEnergy further denies that it claimed that Verizon cannot be ***eligible*** for a new telecom rate—it claimed that Verizon was not ***entitled*** to the new telecom rate. FirstEnergy's participation in negotiations and offers to significantly reduce Verizon's net payments makes clear that Verizon's claim is simply untrue.

The context of FirstEnergy's Answer is that for purposes of the parties' negotiations during and after the April 2018 meeting, both Verizon and FirstEnergy were (and are) eligible for new rates upon mutual agreement as provided for in the Joint Use Agreements and which notably occurred in 2009. In negotiations, FirstEnergy disputed Verizon's claim that Verizon was entitled to the FCC's new telecom rate formula as a maximum rate applicable to the parties' cost sharing arrangements. Thus, the difference in these terms as used in FirstEnergy's Answer and in response to the wording in Verizon's Complaint is that "a new telecom rate" referred to negotiated rates which did not require any FCC formula calculations, and "the new telecom rate" referred to Verizon's claim that a specific rate formula had to be used and was not based on any given calculations, inputs, assumptions and sources thereof.

(b) Not applicable. See response to (a) above.

METROPOLITAN EDISON COMPANY, PENNSYLVANIA ELECTRIC COMPANY AND PENNSYLVANIA POWER COMPANY
v.
VERIZON PENNSYLVANIA LLC AND VERIZON NORTH LLC
Docket No. C-2020-3019347

Verizon Interrogatory Set II, No. 26

Reference Answer to Complaint ¶ 52.

(a) Identify every difference FirstEnergy contends exists between the insurance provision in each Joint Use Agreement and the insurance provision in each License Agreement and explain the basis for FirstEnergy's conclusion.

(b) Provide all documents concerning the allegation that "differences exist between the insurance … provisions that apply to Verizon and those that apply to Verizon's competitors," including all studies, analyses, and work papers concerning the allegation.

RESPONSE:

(a) FirstEnergy has not compiled a list or record comparing insurance provisions in each of the ten joint use agreements with each of the 185 cable and CLEC agreements. FirstEnergy's experience implementing the various is agreements is that most or all cable and CLEC agreements require insurance coverage while most or all of the joint use agreements do not.

(b) Verizon already has in its possession all of the joint use agreements between FirstEnergy and Verizon, and FirstEnergy previously produced all of its License Agreements to Verizon.

METROPOLITAN EDISON COMPANY, PENNSYLVANIA ELECTRIC COMPANY AND PENNSYLVANIA POWER COMPANY
v.
VERIZON PENNSYLVANIA LLC AND VERIZON NORTH LLC
Docket No. C-2020-3019347

Verizon Interrogatory Set II, No. 27

Reference Answer to Complaint ¶ 52.

(a) Identify every difference FirstEnergy contends exists between the indemnification provision in each Joint Use Agreement and the indemnification provision each License Agreement and explain the basis for FirstEnergy's conclusion.

(b) Provide all documents concerning the allegation that "differences exist between the … indemnification provisions that apply to Verizon and those that apply to Verizon's competitors," including all studies, analyses, and work papers concerning the allegation.

RESPONSE:

(a) FirstEnergy has not compiled a list or record comparing the indemnification provisions in each of the 10 Joint Use Agreements with each of the 185 License Agreements. FirstEnergy notes its general observation that the Joint Use Agreements provide reciprocal indemnification while License Agreements require unilateral indemnification.

(b) Please reference the Joint Use Agreements and License Agreements already in Verizon's possession.

METROPOLITAN EDISON COMPANY, PENNSYLVANIA ELECTRIC COMPANY AND PENNSYLVANIA POWER COMPANY
v.
VERIZON PENNSYLVANIA LLC AND VERIZON NORTH LLC
Docket No. C-2020-3019347

Verizon Interrogatory Set II, No. 28

Reference Answer to Complaint ¶ 53.

(a) For each entity with facilities attached to FirstEnergy's poles since 2011, state whether the entity posted a security bond under its License Agreement.

(b) For each entity that posted a security bond, identify the amount of the security bond, the cost of the security bond, and the total number of FirstEnergy distribution poles to which the entity currently has facilities attached. Separately present the information for poles owned by Met-Ed, Penelec, and Penn Power.

(c) Provide all documents, work papers, invoices, cost records, and payment records concerning the analysis.

RESPONSE:

(a) FirstEnergy has not compiled a list or record of each entity that has posted a security bond under its License Agreement.

(b) FirstEnergy has not performed an analysis of the kind described in this interrogatory.

(c) See response to (b).

METROPOLITAN EDISON COMPANY, PENNSYLVANIA ELECTRIC COMPANY AND PENNSYLVANIA POWER COMPANY
v.
VERIZON PENNSYLVANIA LLC AND VERIZON NORTH LLC
Docket No. C-2020-3019347

Verizon Interrogatory Set II, No. 32

Reference Answer Attachment E. Provide all documents, workpapers, reports, and analyses Bridger M. Mitchell considered or relied upon in preparing the Declaration at Answer Attachment E.

RESPONSE:

There are no documents in FirstEnergy's possession that are responsive to this request.

Re: Verizon Pennsylvania LLC and Verizon North LLC v. Metropolitan Edison Company, Pennsylvania Electric Company, and Pennsylvania Power Company
Docket No. C-2020-3019347

Dear Counsel:

Enclosed are the Responses of Metropolitan Edison Company, Pennsylvania Electric Company, and Pennsylvania Power Company to the Interrogatories and Requests for Production of Documents of Verizon Pennsylvania LLC and Verizon North LLC – Set II, Nos. 8-10 in the above-referenced proceeding.

Copies are being provided electronically only, as indicated on the Certificate of Service, due to the current closure of all non-life sustaining businesses in the Commonwealth upon direction of Governor Wolf.

Sincerely,

Devin Ryan

METROPOLITAN EDISON COMPANY, PENNSYLVANIA ELECTRIC COMPANY AND PENNSYLVANIA POWER COMPANY
v.
VERIZON PENNSYLVANIA LLC AND VERIZON NORTH LLC
Docket No. C-2020-3019347

Verizon Interrogatory Set II, No. 8

Reference Answer Brief ¶ 89 and Answer Attachment F ¶ 34.

(a) Describe in detail the basis for FirstEnergy's allegation that "Verizon's facilities weigh much more than the facilities of other communications attachers," including how many facilities were considered, how the weight was measured, and the person(s) who conducted the measurements.

(b) For each Verizon and other communications facility considered, identify the weight of the facility, the owner of the facility, and the pole location and pole identification number to which the facility is attached.

(c) For each Verizon facility considered, identify the location, weight, and owner of the facility to which it was compared and the person(s) performing the comparison.

(d) Provide all documents concerning the allegation that "Verizon's facilities weigh much more than the facilities of other communications attachers," including all studies, analyses, and work papers concerning the allegation.

RESPONSE:

(a) The weight of any cable is directly proportional to the size, material and length of the span. Cables are composed of various plastic composites, aluminum and copper and frequently a steel messenger. The newest entrant in the cable family is fiberoptic cable, which replaces the conductive element with multiple glass fibers. The common communication attachments as observed by FirstEnergy fall into three classes: Coaxial Cable, Multi Strand Fiberoptic Cable, and Multi Strand Copper Conductor. Simply stated, the weight per cubic inch of aluminum is 0.098 lb/in^3, Steel is 0.284 lb/in ^3 and Copper is 0.324 lb/in^3. Larger Verizon cables typically contain hundreds or thousands of copper conductors.

FirstEnergy has not been provided specific data on the weights of cables by Verizon. To determine the weight of the Verizon cables, FirstEnergy employed a contractor to use a Katapult Camera measurement device. The device takes high resolution pictures that provide precise point to point measurements. The diameter of each Verizon cable in the study was measured. These

measurements were correlated to manufacturer catalogs of popular communication cables to determine the weight per unit of measure. FirstEnergy is providing the structure identification as recorded by the contractor from the field collection.

(b) FirstEnergy did not find it useful to conduct analysis on each specific case. In FirstEnergy's experience, the weight of the cable is directly proportional to the material and volume used to construct the cable. In this case, there were a few principle materials to consider, casings and coverings typically a form of plastic, and conductive or optical cores typically glass, aluminum or copper and the sizes of the cable. The largest diameter cables are known to be multiple stranded copper pairs for telephone transmission as observed at termination points, from storm damage and car pole accidents. Once the weights of the cables were correlated to the field measurements, the span length multiplied by weight per foot can easily be calculated.

(c) FirstEnergy is providing an attachment which correlates the Davey Resource Group data to the per unit weight of each cable identified. *See* also Verizon Interrogatory Set II, No. 11, Attachment A for locations of each measured cable.

(d) *See* Verizon Interrogatory Set II, No. 8, Attachment A.

METROPOLITAN EDISON COMPANY, PENNSYLVANIA ELECTRIC COMPANY AND PENNSYLVANIA POWER COMPANY
v.
VERIZON PENNSYLVANIA LLC AND VERIZON NORTH LLC
Docket No. C-2020-3019347

Verizon Interrogatory Set II, No. 9

Reference Answer Brief ¶ 89 and Answer Attachment F ¶ 34.

(a) Describe in detail the basis for FirstEnergy's allegation that the "load on the pole created by Verizon's attachments is greater than the load on the pole created by Verizon's competitors," including how many attachments were considered, how the load was measured, and the person(s) who conducted the measurements.

(b) For each Verizon and other communications attachment considered, identify the load of the attachment, the owner of the attachment, and the pole location and pole identification number of the attachment.

(c) For each Verizon attachment considered, identify the location, load, and owner of the attachment to which it was compared and the person(s) performing the comparison.

(d) Provide all documents concerning the allegation that the "load on the pole created by Verizon's attachments is greater than the load on the pole created by Verizon's competitors," including all studies, analyses, and work papers concerning the allegation.

RESPONSE:

(a) Attachment loading was calculated by considering the tension created by the weight of the attachment and the added tension needed in the line to maintain the position. Tension is calculated using software products such as SAG10 and includes the weight of the cable, weight of the ice loading, wind loading and the geometry of the installation. Pole loading was calculated as the accumulated attachment loading plus the power space and equipment loading. The analysis was conducted on all Verizon cables measured by Davey Resource Group as found in Verizon Interrogatory Set II, No. 11, Attachment A.

(b) FirstEnergy did not calculate the loading on each structure but developed representative lengths to understand the impact of Verizon's attachments. The location and pole

identification number for each structure can be found in Verizon Interrogatory Set II, No. 11, Attachment A.

(c) See answer to subpart (b). Only Verizon cables were measured in the field review.

(d) A representative pole loading analysis was conducted for each documented Verizon cable. *See* Verizon Interrogatory Set II, No. 9, Attachment A.

METROPOLITAN EDISON COMPANY, PENNSYLVANIA ELECTRIC COMPANY AND PENNSYLVANIA POWER COMPANY
v.
VERIZON PENNSYLVANIA LLC AND VERIZON NORTH LLC
Docket No. C-2020-3019347

Verizon Interrogatory Set II, No. 10

Reference Answer Brief ¶ 89 and Answer Attachment F ¶ 34.

(a) Describe in detail the study or analysis undertaken by FirstEnergy to determine the "ice and wind conditions typically experienced in Pennsylvania," including the person(s) who performed the study or analysis, the ice and wind conditions FirstEnergy contends are typical, the basis of FirstEnergy's contention that they are typical, and the area or areas of Pennsylvania included in FirstEnergy's analysis.

(b) Provide all documents concerning FirstEnergy's determination of the "ice and wind conditions typically experienced in Pennsylvania," including all studies, analyses, and work papers concerning the allegation.

RESPONSE:

(a) Ice and wind standards are incorporated in the National Electrical Safety Code ("NESC"). FirstEnergy uses these standards to calculate attachment tension. FirstEnergy did not conduct an independent study of the NESC typical ice and wind conditions.

(b) *See* NESC section 25.
