**RE: FILE A – 6421831 - DOCKET NO. C-2020-3019966**

Dear Sir David W. Loucks, Chief Motor Carrier Enforcement

Dear Sir Michael L. Swindler, Deputy Chief Prosecutor

Dear Madam Rosemary Chiavetta

My name is Michael Kogan, I was the president and the owner of Blue And White Transportation Inc.

The reason that I receive these letters complains against my business is I believe because of that PUC department has never received my request to permanently close my firm, including termination of my PUC certificate A number – A-6421831.

An abandonment letter / form of service for a small passenger carrier, to discontinue service in whole part between points in the Commonwealth of Pennsylvania has been filled out and mailed to PUC a while ago, I did exactly as I was instructed by the staff of PUC, that in order to request a discontinue of service and to close my business I must fill out a form sign it and mail it to the PUC, which I did a few weeks before the beginning of the war ( corona virus ), I was also informed about the fine of \$500.00 that I may expect if I would not do that.

Unfortunately, I do not recall weather I mailed the abandonment letter form as a regular letter or as a certified letter.

I was the president and the owner of a business - non emergency Medical Transportation - a Paratransit up to 4 passengers, not a bus, it was a non-life sustaining business. I also had commercial auto liability insurance from First Insurance Funding and it was \$1,044.98 a month, which I also requested to cancel my policy and I was awaiting a month for that, I received the license to operate on July 2. 2019, and commercial auto liability was finally active on September, but I never found and signed any contracts / jobs, that is why

I decided to permanently close it, it is so sad , so badly sad as I never made any jobs, I did not have a chance to earn a penny.

Do I need to do the abandonment form again? , with a tears on my eyes I am begging you please kindly do not make me to suffer another expense the fine \$500.00, me and my family currently trying to survive and help each other and that would be just another curb to be hit by.

Thank you very much for your precious time. Michael Kogan
