DOCKET #: C-2020-3020692

Please allow me to introduce myself. I am Ivan Samoilo and I am the proud owner and only employee of a ride share company, "Some Guy and his Car, LLC". I operate a single car designated driver and escort service in Erie, Pennsylvania. My services include Erie Airport, shuttle services between hotels, doctors appointments and some wine tours in North East Pennsylvania and as a tour guide for some corporate guests.

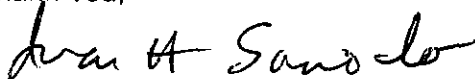

This past October 2019, I began my inquiry and investigation into forming my own company "Some Guy and his Car, LLC. I started by inquiring with numerous government and regulatory and authorizing agencies to find out what was required of me. I have contacted the IRS, Pennsylvania Department of State, taxing agency and including insurance for the company.

This past November and December of 2019 I made contact with the Pennsylvania Public Utility Company. I spoke with a woman and began our conversation as to what was needed from me to form my company. After explaining my situation thoroughly I said that there was no category for what I did. I asked what contract was needed as though I was under the PUC. She was kind enough to give me the information that completes the rule governing my situation.

Now, feeling I had the correct and comfortable with the sound information given me, I instructed my accountant to begin the process of filing for an LLC. I felt assured I was doing everything correct and now I am aware of the current situation and that I find myself in Docket No# C2020-3020692.

Now that I have a better understanding of what is needed of me, I began the process of acquiring a PUC document for my company document #A-2020-3022112- attachment included. Thank you for your quick attention and your wisdom in this matter.

Thank You,

Ivan Samoilo
