

Douglas Randall docketed C-2020-3019786

I would like to thank everyone for understanding my need for the delay in this response. I hope I am doing this in the correct way;

PECO can remove the guide wire in front of our front door if they repeat what they did recently at the end of our block; PECO has replaced the pole at 1640 North street, that would be at the end of the block where we live and where all the cables and wires that hang from the pole at 1610 come up from underground, see pictures. There are no guide wires. I believe; in 2020 PECO has the technology to remedy the guide wire in front of our house.

Picture PUC 2-9-34a shows the new pole at 1640 North street, looking across North street and north up 17th street.

Picture PUC 4-9-24 is the same pole now looking south on 17th street.
