

To Whom it May Concern:

Please see attached ongoing application of Edison Energy, LLC for approval to offer, render, furnish, or supply electricity and natural gas supply services as a Broker/Marketer engaged in the business of supplying electricity consulting services to the public in the Commonwealth of Pennsylvania.

Please note that due to the on-going pandemic it has been exceedingly difficult to retrieve original proofs of publication from each newspaper required. 5 of the 7 newspapers returned original proofs to us. We create longstanding partnerships with high volume energy consumers on a global scale utilizing a client centric approach to deliver quantifiable value. By leveraging our team of energy experts, we help market leaders establish customized strategic energy procurement plans, navigate risk and opportunities and arrive at solutions that best meet the objectives of the client.

We create customized, comprehensive strategies that meet client risk and operational objectives while generating savings. Comprehensive: We take a comprehensive view of risk evaluating cost, volume and supply certainty. To create effective procurement and risk strategies, Edison works with clients to establish a position on each risk element by facility to address all needs across the organization.

Customized: We understand a one-dimensional solution may not properly address operational risk and financial goals of each facility. We work with your team to understand and assess your specific risk profile, at a granular level, to develop a strategy that is best suited for you.

Analysis: A strategy can be effective only if it is implemented with rigor and detail. We break down each cost component and ensure supplier offers are assessed from an "apples to apples" standpoint. Components include basis, fuel, capacity costs, incremental cost, swing, band width, pass through versus fixed costs, ISO costs, contracting risks, etc.

Market Timing: We proactively monitor the market for attractive timing opportunities which allows us to negotiate the best energy supply contracts and maximize savings for our clients.

Ancillary Services:

Rate Analysis – We construct a customized rate model based on the load profile of a facility and available utility rate options, highlighting opportunities for cost savings by switching rates or shifting operations.
