## Community Utilities of Pennsylvania, Inc.

### Proposed Rate Change Information

Community Utilities of Pennsylvania Inc. ("Company") is filing a request with the Pennsylvania Public Utility Commission (PUC) to modify its water and wastewater rates for its Penn Estate Utilities, Inc. service territory as of June 12, 2021. Final rates as a result of this request are estimated to become effective in January of 2022. This notice describes the Company's rate request, the PUC's role, and what actions you can take.

Community Utilities of Pennsylvania Inc. has requested an overall water rate increase of \$757,517 per year. If the Company's entire water request is approved, the average water bill for a residential customer in the Penn Estates service territory would increase from \$55.21 to \$70.51 per month or by 27.72%.<sup>1</sup> The average water bill for a commercial customer in the Penn Estates service territory would increase from \$44.57 to \$54.54 per month or by 22.38%.<sup>2</sup>

Community Utilities of Pennsylvania Inc. has requested an overall wastewater rate increase of \$998,705 per year. If the Company's entire wastewater request is approved, the average wastewater bill for a customer in the Penn Estates service territory would increase from \$55.39 to \$72.44 per month or by 30.77%.

To find out your customer class or how the requested increase may affect your water bill, contact Community Utilities at (800) 638-0262. The rates requested by the company may be found in the supplement to Water Tariff PA P.U.C. No. 1 You may examine the material filed with the PUC which explains the requested increase and the reasons for it. A copy of this material is kept at the following offices:

Community Utilities of Pennsylvania  
570 Hallet Road  
East Stroudsburg, PA 18301

The state agency which approves rates for public utilities is the PUC. The PUC will examine the requested rate increase and can prevent existing rates from changing until it investigates and/or holds hearings on the request. The company must prove that the requested rates are reasonable. After examining the evidence, the PUC may grant all, some, or none of the request or may reduce existing rates.

The PUC may change the amount of the rate increase requested by the utility for each customer class. As a result, the rate charged to you may be different than the rate requested by the company and shown above.

There are three ways to challenge a company's request to change its rates:

1. You can file a formal complaint. If you want a hearing before a judge, you must file a formal complaint. By filing a formal complaint, you assure yourself the opportunity to take part in hearings about the rate increase request. All complaints should be filed with the PUC before (proposed effective date of the rate increase). If no formal complaints are filed, the Commission may grant all, some or none of the request without holding a hearing before a judge.
2. You can send the PUC a letter telling why you object to the requested rate increase. Sometimes there is information in these letters that makes them aware of problems with the company's service or management. This information can be

helpful when they investigate the rate request. Send your letter or request for a formal complaint form to the Pennsylvania Public Utility Commission, Post Office Box 3265, Harrisburg, PA 17105-3265.

3. You can be a witness at a public input hearing. Public input hearings are held if the Commission opens an investigation of the company's rate increase request and if there is a large number of customers interested in the case. At these hearings you have the opportunity to present your views in person to the PUC judge hearing the case and the company representatives. All testimony given "under oath" becomes part of the official rate case record. These hearings are held in the service area of the company.

For more information, call the PUC at 1-800-692-7380. You may leave your name and address so you can be notified of any public input hearings that may be scheduled in this case.

## Background

Community Utilities of Pennsylvania has continued to make investments to maintain the quality and reliability of our service. The proposed increase is needed to recover the costs of these improvements and to reflect the increased costs of providing quality service. Together we share the goal of a safe, dependable supply of potable water and environmentally sustainable wastewater treatment at the lowest possible price consistent with prudent business practices.

Community Utilities of Pennsylvania has forecasted an additional capital investment of \$2.7 Million for water and \$5.5 Million for Wastewater through December 31, 2022.

We understand that there is never a good time for a rate increase. The rates we have requested are based on the actual costs of providing water service. As a public utility, we have an obligation to continue to deliver clean, reliable service at the

lowest reasonable cost. We welcome any feedback from our customers, whether it is about our proposed rates or about our services. Please contact Community Utilities of Pennsylvania Inc. at (800) 638-0262.

## Low Income Rate – Apply Now!

CUPA understands the burden that customers experience in affording essential goods like housing, food, and clean water. As your water service provider, we wish to be part of the solution to these challenges. We are dedicated to ensuring our customers have safe, clean, and affordable water and sewer service. As part of our efforts to do just that, we have proposed a low-income rate for our residential customers who are at or below the federal poverty level, to ensure our entire community of customers has access to and can afford the services required to remain healthy. Subject to commission approval, this low-income rate would be available to residential customers on an application-only basis. Customers need to only apply once every 12 months to verify that they remain eligible for the lower rate. To apply, CUPA will enlist the help of a 3rd party to verify our applicants' incomes on our behalf, ensuring your continued privacy. To check eligibility for our low-income rate before applying, please go to <https://aspe.hhs.gov/poverty-guidelines> and look for information about a family of your size. For water service, if your income is at or below the applicable level, you will be eligible for a lower rate on typical monthly water usage, up to 3,500 gallons per month. Should you use over the 3,500, any additional gallons will be charged at the regular residential rate.
