RE: Natural Gas Supplier License Application

PA PUBLIC UTILITY COMMISSION
SECRETARY'S BUREAU

Dear Ms. Christie:

On March 10, 2021, the Public Utility Commission accepted Edison Energy, LLC's application for a Natural Gas Supplier license. The application was incomplete. In order for us to complete our analysis of your application, the Energy Industry Group requires answers to the attached question(s).

Please be advised that you are directed to forward the requested information to the Commission within 30 days of receipt of this letter. Failure to respond may result in the application being denied. As well, if Edison Energy, LLC has decided to withdraw its application, please reply notifying the Commission of such a decision.

Please forward the information to the Secretary of the Commission at the address listed below. When submitting documents, all documents requiring notary stamps must have original signatures. Please note that some responses may be e-filed to your case.

A list of document types allowed to be e-filed can be found at

Rosemary Chiavetta, Secretary
Pennsylvania Public Utility Commission
400 North Street
Harrisburg, PA 17120

Your answers should be verified per 52 Pa Code § 1.36. Accordingly, you must provide the following statement with your responses:

I, TIFFANY CHRISTIE, hereby state that the facts above set forth are true and correct to the best of my knowledge, information and belief, and that I expect to be able to prove the same at a hearing held in this matter. I understand that the

statements herein are made subject to the penalties of 18 Pa. C.S. § 4904 (relating to unsworn falsification to authorities).

Jeffery Christo

The blank should be filled in with the name of the appropriate company representative, and the signature of that representative should follow the statement.

In addition, to expedite completion of the application, please also e-mail the information to Jeremy Haring at . Please direct any questions to Jeremy Haring, Bureau of Technical Utility Services, at (preferred) or (717) 783-6175.

Sincerely,

Rosemary Chiavetta
Rosemary Chiavetta
Secretary

Tiffany Christie
Edison Energy, LLC
545 Metro Place South, Ste. 400
Dublin, OH 43017

Dear Tiffany Christie:

We are pleased that Edison Energy, LLC has applied for a license to provide Natural Gas Broker/Marketer Services on the distribution system of Columbia Gas of Pennsylvania, Inc. ("Columbia Gas").

Under Paragraph 2.4.5 of the Rules Applicable to Distribution Service section of the Tariff of Columbia Gas, Edison Energy, LLC could be required to provide to Columbia Gas a bond or other financial security instrument in an amount that Columbia Gas determines to be appropriate. Edison Energy, LLC has indicated only brokering and consulting services will be provided. Therefore, we have determined at this time that Edison Energy, LLC does not need a bond or other financial security requirement to provide broker natural gas services to Columbia Gas customers.

If the creditworthiness requirement or Columbia Gas' exposure to Edison Energy, LLC changes in the future, Columbia Gas might deem it appropriate to require Edison Energy, LLC to provide a bond or other financial security instrument.

Please feel free to contact me at 614-460-4980 should you have any questions regarding a bond or other financial security instrument requirements of Columbia Gas.

Sincerely,

Kylia Davis

Kylia Davis
Manager of Choice and Transportation Support Services

National Fuel

March 3, 2020

Tiffany Christie
Managing Director, Supply Advisory
Edison Energy, LLC
545 Metro Place South, Suite 400
Dublin, OH 43017

Dear Tiffany,

National Fuel Gas Distribution Corporation ("NFGDC") is aware Edison Energy, LLC (EE) has filed an application with the Pennsylvania Public Utility Commission to supply natural gas service to the public in Pennsylvania and specifically within the service territory of NFGDC.

As you know, in making such an application, EE must furnish acceptable security to each utility where EE will do business. As such, under its tariff, NFGDC could require EE to provide a bond or other financial security instrument in an amount that NFGDC determines to be appropriate.

However, you have indicated, and it is NFGDC's understanding that EE intends only to provide natural gas aggregating, brokering and consulting services at this time. You have stated that, in performing these services, EE will never take title to any delivered natural gas.

Based upon your representations, NFGDC has determined that, at this time, EE does not need to post a bond or other form of security to operate in its service territory. However, if the services provided by EE change in the future, NFGDC reserves the right to require security from EE as it deems appropriate.

If you have any questions concerning the foregoing, please contact me at 716-857-7541.

Yours truly,

Nicole Barker
Transportation Services Department

An Exelon Company

February 27, 2020

Edison Energy, LLC
545 Metro Place South, Ste. 400
Dublin, OH 43017

Re: Broker Requirements

Dear Edison Energy, LLC:

PECO is aware that Edison Energy, LLC has applied for a license to provide brokering and consulting services to commercial and industrial customers on the distribution system of PECO.

In making such an application, Edison Energy, LLC could be required to provide to PECO a bond or other acceptable financial security in an amount that PECO determines to be appropriate. Edison Energy, LLC has indicated that it intends to provide only brokering and consulting services to commercial and industrial customers, and will not take title to any delivered natural gas; nor will accept any customer payments or deposits. Therefore, PECO has determined at this time that Edison Energy, LLC does not need a bond or other financial security requirement, since they are not directly engaging in business with PECO and only providing brokering or consulting services to PECO customers. However, if the services provided by Edison Energy, LLC the creditworthiness requirement for PECO's exposure to Edison Energy, LLC changes in the future, PECO reserves the right to require Edison Energy, LLC to provide a bond or other financial security instrument.

If you should have any questions regarding this matter, please contact Chris Sauerbaum at 215-841-6422 or myself at 215-841-6452.

Respectfully submitted,

A handwritten signature in black ink that reads "Carlos P. Thillet".

Dear Ms. Christie:

We are pleased that Edison Energy, LLC has applied for a license to provide natural gas services on the Peoples Group of Companies. Specifically you have requested to be licensed as a supplier on the distribution systems of Peoples Natural Gas Company LLC, and Peoples Gas Company LLC (formerly Peoples TWP) (“the Companies”).

Since Edison Energy, LLC is not currently serving customers on the Peoples systems, we have determined at this time that Edison Energy, LLC does not need a bond or other financial security requirement to provide these services to the Company’s customers.

If a Pool is established, and customers are enrolled which alters the creditworthiness requirement or the Company’s exposure to Edison Energy, LLC provision of services on the Peoples’ system changes in the future, the Companies may deem it appropriate to require a bond or other financial instrument.

If you have any questions feel free to contact me at 412-208-6931 or by email at Carol.Scanlon@peoples-gas.com.

Sincerely,

Carol Scanlon
Manager, Rates

RE: Security Requirement Bond for Edison Energy, LLC

Dear Ms. Tiffany Christie,

Philadelphia Gas Works (“PGW”) is aware that Edison Energy, LLC has filed an application with the Pennsylvania Public Utility Commission to supply natural gas services to the public in Pennsylvania and specifically within the services territory of Philadelphia Gas Works.

As you know, in making such an application, Edison Energy, LLC must furnish acceptable security to each utility where Edison Energy, LLC will do business. As such, under its tariff, Philadelphia Gas Works could require Edison Energy, LLC to provide a bond or other financial security instrument in an amount that Philadelphia Gas Works determines to be appropriate.

However, you have indicated, and it is Philadelphia Gas Works’ understanding, that Edison Energy, LLC intends only to provide natural gas aggregating, brokering and consulting services at this time. You have stated that in performing these services Edison Energy, LLC will never take title to any delivered natural gas.

Based upon your representations, Philadelphia Gas Works has determined that, at this time, Edison Energy, LLC does not need to post a bond or other form of security to operate in its service territory. If the services provided by Edison Energy, LLC should change, Philadelphia Gas Works reserves the right to require security from Edison Energy, LLC as it deems appropriate.

If you have any questions concerning the foregoing, please contact me at 215-684-6725.

Sincerely,

A handwritten signature in black ink, appearing to read 'J C Z', is written over the printed name 'JOHN C. ZUK'.

**RE: Edison Energy, LLC
Application to Serve as a Natural Gas Broker**

Dear Ms. Christie,

Based on your assertion that Edison Energy, LLC (“Edison Energy”) is applying with the State of Pennsylvania to operate as a natural gas broker/marketer, UGI Utilities, Inc.-Gas Division (“UGIU”) has concluded that Edison Energy will not need to post security with UGIU. This is based on the declaration that Edison Energy will be acting in conjunction with a licensed natural gas supplier who has been approved by the Pennsylvania Public Utility Commission to serve in the applicable UGIU service territories and who has posted the required financial security as specified in the UGIU Tariff. If Edison Energy wishes to directly serve Choice customers in the service territories of UGIU in the future as a natural gas supplier, it will have to post security as specified in the UGIU Tariff prior to the commencement of the service.

Please feel free to contact me with any additional questions you may have.

Sincerely,

Sherry Epler
Senior Manager
Tariff & Supplier Administration

Edisonenergy.com

Dear Ms. Christie:

We understand that Edison Energy, LLC has applied with the Pennsylvania Public Utility Commission to supply natural gas services to the public in Pennsylvania including our company's service area.

Because Edison Energy, LLC intends to only provide natural gas aggregating, brokering, and consulting services at this time, we have determined that Edison Energy, LLC will not be required to post a bond or other form of financial security instrument to provide these services in our service area. However, if the services provided change in the future, we reserve the right to require security from Edison Energy, LLC as deemed appropriate.

If you have any questions, please contact Jamie Levering at 570-888-9664 (Ext. 5232).

Sincerely,

Edward E. Rogers

Our Experience

PA PUBLIC UTILITY COMMISSION
SECRETARY'S BUREAU

Formerly Delta Energy Services, Edison Energy's Supply Advisory has been active in the industry since 1997. We provide honest, unbiased advice to consumers of natural gas, power, and other energy commodities, which has earned us the trust of many industry leaders in automotive, metals, plastic, chemical, manufacturing and packaging. The combined experience and expertise of our team allows us to have a deep understand of energy markets, products and infrastructure. We translate that information and create customized solutions that help clients understand their energy risk, control their costs and meet the operational goals of their organization.

We create longstanding partnerships with high volume energy consumers on a global scale utilizing a client centric approach to deliver quantifiable value. By leveraging our team of energy experts, we help market leaders establish customized strategic energy procurement plans, navigate risk and opportunities and arrive at solutions that best meet the objectives of the client.

We create customized, comprehensive strategies that meet client risk and operational objectives while generating savings. Our team of energy experts uses real-time market intelligence to ensure our clients have the latest and most accurate information to develop energy hedging strategies and make critical energy supply purchasing decisions when it matters most. We pinpoint the best supply options for our clients through our competitive bid process with in depth analysis of each supplier, term, pricing product and price component.

Comprehensive: We take a comprehensive view of risk evaluating cost, volume and supply certainty. To create effective procurement and risk strategies, Edison works with clients to establish a position on each risk element by facility to address all needs across the organization.

Customized: We understand a one-dimensional solution may not properly address operational risk and financial goals of each facility. We work with your team to understand and assess your specific risk profile, at a granular level, to develop a strategy that is best suited for you.

Analysis: A strategy can be effective only if it is implemented with rigor and detail. We break down each cost component and ensure supplier offers are assessed from an "apples to apples" standpoint. Components include basis, fuel, capacity costs, incremental cost, swing, band width, pass through versus fixed costs, ISO costs, contracting risks, etc.

Market Timing: We proactively monitor the market for attractive timing opportunities which allows us to negotiate the best energy supply contracts and maximize savings for our clients.

Ancillary Services:

Rate Analysis – We construct a customized rate model based on the load profile of a facility and available utility rate options, highlighting opportunities for cost savings by switching rates or shifting operations.

Demand Response – We help clients evaluate the benefits and risk of participating in utility or regional demand response program. We facilitate a competitive bid process for a curtailment service provider to maximize a client’s share of capacity payments.

Supply Management – We stand out in the industry for our functional expertise at strategically and reliably buying, selling, balancing and transporting natural gas for our clients. We maintain a natural gas procurement and operations desk with 24-hour on call coverage.

Fits your needs: Strategic Supply Program Development is customizable and can range across all service offerings: Procurement and Risk Management, Supply Management (demand response, balancing, operations), Rate Analysis, Invoice Management, Payments (invoices), Audits (invoices) and Reporting.

Reference Application, Section 8.e, Technical Fitness – Applicant failed to provide detailed professional resumes of its chief officers, to include detailed descriptions on all experience and activities including date ranges. Please provide the missing documentation.

Tiffany Christie

2009 to Present

Managing Director, Supply Advisory

Tiffany Christie is Managing Director of Supply Advisory. She is responsible for the day to day operations of the supply team and guides strategy and direction of the team's operations.

Prior to leading the team, Tiffany was a natural gas account manager for large steel and chemicals clients representing annual natural gas spend of \$450 million. She managed natural gas assets within the most complex markets, including areas with daily balancing requirements and frequent constraint challenges.

Prior to joining Edison, Tiffany's career advanced quickly with a multi-billion-dollar value added steel processor. Her responsibilities included steel sales and direct raw materials purchasing representing over \$600 million annually. With direct commodity purchasing experience, Tiffany is well-positioned to appreciate the needs of Edison's industrial clients and focus on their priorities.

Tiffany joined the Edison team in 2009. She has earned two degrees from The Ohio State University with a degree in business administration majoring in international business and another degree in arts and science majoring in Spanish.

John Reid

2005 to Present

Vice President - Power Services

As Vice President - Power Services, John provides leadership to Edison's team of Electricity and Petroleum account managers. He remains active as an account manager to stay in-touch with the client's most complex energy management needs.

John has 21 years of experience in the energy industry and has worked on both the natural gas and electric sides of the energy management business, thus contributing to his experience and knowledge of the inter-connectedness of the industry. Prior to joining Edison, Reid held a variety of positions with increasing responsibility while working for a utility company. During his tenure there, his general focus was on developing economic energy strategies for large commercial and industrial consumers, at which he excelled and as such was appointed Director of Sales, where he focused on high risk accounts. John has a significant amount of experience in

the area of energy efficiency, having served as the Project Development Engineer on the team which implemented energy conservation projects for Ohio schools, universities, and prisons.

He holds a Bachelor's degree in industrial & systems engineering from Ohio University as well as an MBA from the University of Dayton.

John is a Chartered Industrial Gas Consultant (CIGC) and Certified Energy Manager (CEM).

Jeff Bolyard

2001 to Present

Vice President - Gas Services

As VP, Gas Services, Jeff leads Edison's Natural Gas account management team and provides the expert guidance needed to prepare for emerging opportunities in the natural gas industry for the benefit of our clients. He remains an active account manager, which keeps him current on market opportunities and trends.

In his 25 years in the industry, Jeff has had experience in working with both regulated and deregulated sides of the natural gas business.

Jeff is passionate about opportunities in emerging fuel technologies and is a member of Clean Fuels Ohio, an organization that provides research on the use of cleaner domestic fuels to the transportation industry, government and the general public.

Jeff is a graduate of Mount Vernon Nazarene University.
