Re: Petition for Eligible Telecommunications Carrier Designation, P-2021-3023604

Dear Ms. Chiavetta,

Youngsville Television Corporation (YTV) has filed a petition for Eligible Telecommunications Carrier (ETC) designation for a service area to be comprised of the funded census blocks within its winning bids in the Federal Communications Commission's Rural Digital Opportunity Fund (RDOF) Phase I auction. In the petition, YTV stated that it would meet its RDOF public interest obligation to offer voice service by offering interconnected Voice over Internet Protocol (VoIP) service on a stand-alone basis using a third-party provider, Zito Media.¹

In response to a staff inquiry, YTV clarifies for the record that initially, upon ETC designation, it will offer standalone voice telephony over its existing cable infrastructure through an arrangement with Eaglezip.com, 3085 Fluvanna Avenue Ext. Jamestown, NY 14701. Eaglezip.com currently is offering interconnected VoIP to YTV's cable subscribers over the existing YTV cable plant. As the new fiber-to-the-premise network is built in the RDOF-funded areas, YTV will then transition to offering voice telephony, specifically, VoIP, through a commercial wholesale arrangement with Zito Media Communications, LLC, 102 South Main Street, Coudersport, PA 16915, that will provide access to the Public Switched Telephone Network. YTV has had a discussion with Mr. James Rigas and Mr. Scott Neff regarding its desire to enter into such an arrangement.

If you have any questions, please do not hesitate to contact the undersigned.

¹ See Youngsville Television Corporation, Petition for Eligible Telecommunications Carrier Designation at 6, PUC Docket P-2021-3023604 (filed Jan. 6, 2021).

Sincerely,

/s/

Carol E. Matthey, on behalf of Youngsville Television Corporation
