Commission Member,

A-2021-3024267

I am writing to you to protest the acquisition of Lower Makefield's wastewater system by AQUA. The reasons for this are simple:

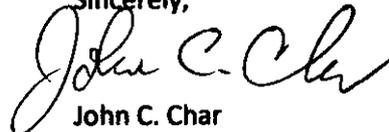

- 1) Aqua has constantly expanded; but there has been NO benefit to the customer base;
- 2) As they continue to expand, they then increase the rates on the new and existing customers – again with no benefit to the customer base.

Why should any company continue to expand at the expense of the customers? Obviously, it is simply for the company and stockholders to make even more money. It is important for stockholders to make money – however, NOT at the expense of the customer.

There is no benefit to the customer for AQUA to expand any further, and definitely not at the expense of raising rates yet again.

I am therefore requesting that the PUC do its job and reject AQUA's increase in rates. If the commission wants to allow the takeover of Lower Makefield's wastewater system – fine. Let AQUA pay for it out of their existing profits. But, whether or not AQUA expands, there should be NO increase in Rates granted by the commission.

Sincerely,

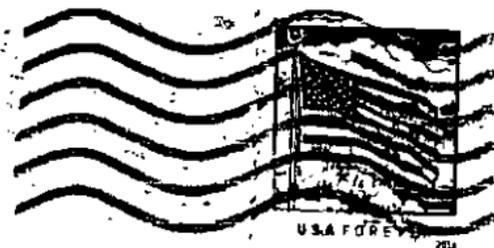

John C. Char
