

## Petition to Compel Disclosure of Evidence

October 4, 2021

Case Reference Docket:C-2021-3027378

Dominic C Raneri vs UGI Industries Inc.

Judge Collins:

With the sole intent and purpose of bolstering my formal complaint by showing that the defendant in the above referenced case has exercised the same actions as outlined in the complaint, on a wider and significantly more massive basis, I am requesting that the court order UGI Industries to furnish:

- 1) All pertinent records regarding, but not limited to, evidence to establish the presence of work crews performing services for UGI Utilities Inc.
  - 2) Days/times and duration of adverse events: Document any and all related emergencies that would have directly affected and thus prohibited active work during these periods of restricted access. Such documentation to outline specific dates and times for work to cease.
  - 3) Actual physical evidence of work orders outlining and demonstrating that pertinent UGI Industries related work was actually scheduled and exercised during these periods of restricted access.
  - 4) Intent by UGI or it's contractor that the scheduled work, given it was, in fact even scheduled, was to be expedited in a fashion consistent within the time frame of the restrictions.
- Dates to include; March 8, 2021 through and including March 19, 2021 June 24, 2021 through and including June June 25, 2021.

This requested evidence is intended to support my allegations by showing evidence to the court the callous nature and total lack of regard for a larger area and population; hence a much larger pattern of systemic abuse.

Geographical area to include the entire City of Reading, Pennsylvania.

Thank You

Dominic C Raneri
