**Re: Municipal Agreement between Duquesne Light Company
and Allegheny County, Pennsylvania
Docket No. U-2021-3029051**

Dear Secretary Chiavetta:

By letter dated November 2, 2021, The Pennsylvania Public Utility Commission's Bureau of Technical Services ("TUS") propounded one Data Request, namely, TUS-1, upon Duquesne Light Company ("Company") in the proceeding at Docket No. U-2021-3029051. Enclosed please find the Company's verified response to TUS-1.

A copy of this document and the enclosed response have been served upon the TUS representative assigned to this matter. Please contact me should you have any questions, comments, or concerns.

Respectfully Submitted,

A handwritten signature in blue ink, appearing to read "Emily M. Farah".

Municipal Agreement between Duquesne Light Company
and Allegheny County, Pennsylvania

Docket No. U-2021-3029051

Data Request of Technical Utility Section
To Duquesne Light Company

Witness: Patrick O'Brien

TUS-1

Reference the Agreement, Exhibit B, Note 1.¹ Please provide a copy of the referenced bids and provide a detailed explanation of the any cost differences between those projects and Project No. AL02-0801.

Response:

The costs to be paid by Duquesne Light Company (“DLC”) to Allegheny County for the Roberto Clemente (6th Street) Bridge Rehabilitation Project, Project No. AL02-0801 (the “Project”),² were a product of a public bid event conducted through the Pennsylvania Department of Transportation (“PennDOT”).

As indicated on Exhibit B, DLC initially estimated the costs for the Project associated with (a) the removal of Duquesne Light conduits, (b) brackets and manhole cages, installation of Duquesne Light manhole cages and hatches, and (c) and installation of Duquesne Light hanger brackets and conduits to be \$395,000.

DLC’s cost for the 7th Street Bridge is enclosed as Attachment 1. The Company’s cost for the 7th Street Bridge was \$42,000, which included the following items: (a) installation of Duquesne Light conduit brackets, (b) installation of Duquesne Light conduits, and (c) removal of existing Duquesne Light conduits. The difference between the Project estimate and the 7th Street Bridge estimate is the 7th Street Bridge cost does not appear to include the costs for installation of 9,550 linear feet of new conduit.

DLC’s cost for the 9th Street Bridge is enclosed as Attachment 2. The Company’s cost for the 9th Street Bridge was \$320,000, which included the following items: (a) installation of Duquesne Light conduit brackets and conduits, (b) installation of Duquesne Light manhole cages and hatches, and (c) removal of Duquesne Light conduit brackets, conduits, and manhole cages. The difference between the Project estimate and the 9th Street Bridge estimate is the difference between market conditions from the 2016 costs for the 9th Street Bridge and 2021 cost estimates for the 6th Street Bridge.

¹ The Data Request initially issued in this proceeding referred to “Note 2.” Upon information and belief, the Data Request contained a typographical error, and should have referred to “Note 1.”

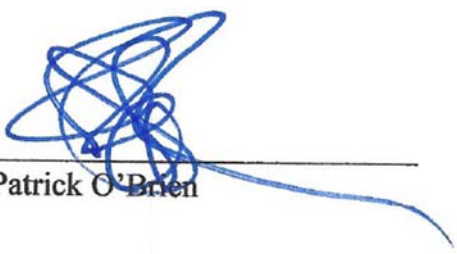

² The Project is identified by PennDOT as project number 76388.
