In addition to what was provided please supplement each biography with the following:

All three listed Members have supervised personnel involved in the day-to-day activities of running the electricity generation supply broker business that has been licensed since 2012. They have individually and collectively reviewed contracts for prospective customers; set up bid programs to obtain quotes from electric generation suppliers, reviewed the financial performance, addressed customer issues, ensured regulatory compliance, and performed every other necessary task in running a small energy broker firm. These skills are similar to those required of a natural gas supply broker.
