

To whom it may concern,

Inova Energy, DOCKET NO. A-2021-3025116, was approved December 2, 2021, to supply power under Pike County Light and Power. Inova Energy is now applying to NYISO and not PJM. Under Pike County Light and Power, Inova Energy has to use NYISO and not PJM. Unlike PJM, NYISO requires that suppliers first receive either the PA PUC supplier license or NY PSC Supplier license before they apply to NYISO.

Inova Energy will submit our NYISO license to the PA PUC once we receive it. NYISO has requested some more documentation for our application. Inova Energy has to request a certificate of good standing from the Secretary of State for Delaware. We requested this today and should take a week or two to receive.

Inova will update the commission in 2 weeks as to the progress of the NYISO application.

Thanks,

Eric Brunhammer | President
Inova Energy LLC
