

To whom it may concern,

Inova Energy, DOCKET NO. A-2021-3025116, was approved December 2, 2021, to supply power under Pike County Light and Power. Inova Energy is now applying to NYISO and not PJM. Under Pike County Light and Power, Inova Energy has to use NYISO and not PJM. Unlike PJM, NYISO requires that suppliers first receive either the PA PUC supplier license or NY PSC Supplier license before they apply to NYISO.

Just to give the commission an update Inova is still waiting for the letter of good standing from the state of Delaware. We have to submit this to NYISO. We will give the commission another update in two weeks.

Inova Energy will submit our NYISO license to the PA PUC once we receive it.

Thanks,

Eric Brunhammer | President
