This letter in in protest to the Aqua Pa.request for a rate increase for the purchase of East Whiteland Tws. waste water system assets.

Aqua Pa must be making sufficient profit to consider buying another asset. That asset would also have to be profitable.

There are 445,000 Aqua Pa customers. They are asking us to pay for their purchase while all the while reaping profits from both. If approved this increase would pay that debt in full in just over two years. What then? The \$2,055,900 this increase provides them each month would not result in a rate reduction, just be more profit for Aqua Pa. This increase is just plain GREED! Please refuse their request.
