**COMPETITIVE LOCAL EXCHANGE CARRIER TARIFF****TARIFF FORMAT SHEET**

- A. Page numbering - Page numbers appear in the upper right-hand corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a decimal is added. For example, new pages added between pages 14 and 15 would be 14.1.
- B. Page revision numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Commission. For example, the 4th revised Page 14 cancels the 3rd revised Page 14. Because of various suspension periods, deferrals, etc., the Commission allows in their tariff approval process, the most current page number on file with the Commission is not always the tariff page in effect. Consult the Check Sheet for the page currently in effect.
- C. Paragraph Numbering Sequence -There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2
  - 2.1
  - 2.1.1
  - 2.1.1.1
  - 2.1.1.1.1
  - 2.1.1.1.1.(a)
  - 2.1.1.1.1.(a).I
  - 2.1.1.1.1.(a).I.(i)
  - 2.1.1.1.1.(a).I.(i).(1)
- D. Check Sheets: When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists contained in the tariff, with a cross reference to the current revision number. When new pages are added the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (\*). There will be no other symbols used on this page if these are the only changes made to it (i.e. the format, etc. remains the same, just revised revision levels on some pages). The tariff user should refer to the latest Check Sheet to find out if a particular page is the most current on file with the Commission.

**SECTION 3 - DESCRIPTION OF SERVICES (Cont'd.)****3.5 Intralata/Interlata Toll Presubscription**

IntraLATA/InterLATA toll presubscription is a procedure whereby a Customer may select and designate an IntraLATA and/or InterLATA Toll Provider ("ITP") to access IntraLATA and/or InterLATA toll calls in Pennsylvania without dialing an access code. The end user may designate an ITP for IntraLATA toll, a different carrier for InterLATA toll, or the same carrier for both. This ITP is referred to as the Customer preferred IntraLATA/InterLATA toll provider.

Selection of an ITP by a Customer is subject to the terms and conditions in Section 3.6 below.

**3.6 Presubscription Charge Application**

Initial Free Presubscription Choice for Customers

New customers (including an existing customer who orders an additional line) who subscribe to PRI service will be asked to select a primary ITP when they place an order for PRI Service. If a customer cannot decide upon either an IntraLATA and/or an InterLATA toll carrier at the time, the customer will be assigned a "No-PIC" and will have to dial an access code to make IntraLATA and/or InterLATA toll calls until such time as the customer has notified the Company that it has selected a primary ITP.

Initial free selections available to Customers are:

1. Designating an ITP as their primary carrier, thereby requiring no access code to access that ITP's service. Other carriers are accessed by dialing 101-XXXX or other required codes.

**SECTION 4 - SPECIAL SERVICES AND PROGRAMS****4.1 Pennsylvania Telecommunications Relay Service****4.1.1 General**

The Pennsylvania Telecommunications Relay Service (PA TRS) is a relay telecommunication service for the deaf, hard of hearing, hearing and/or speech disabled population of the Commonwealth. The PA TRS is mandated by the Americans with Disabilities Act of 1990 to provide functionally equivalent telephone services that are available to other U.S. citizens, at no additional cost. The PA TRS includes both traditional relay (devices such as Teletypewriters (TTY) and Telecommunication Devices for the Deaf (TDD)) and captioned-telephone voice-carry-over relay services (captioned telephone). These relay services permit telephone communications between individuals with hearing and/or speech disabilities, who must use a TTY, TDD or captioned telephone, with individuals having normal hearing and speech. Additionally, 711 abbreviated dialing is available to access the PA TRS. The Company's switching equipment is arranged to translate the "711" calls to the assigned toll-free number, (888) 895-1197, in order to route calls to the Telecommunications Relay Service Provider, in accordance with Commission's Order entered on February 4, 2000 at Docket No. M-00900239.

**4.1.2 Surcharge**

In addition to the charges provided in this tariff, a surcharge will apply to all access lines served by this Company. (Access lines are those lines extending from the telephone company's central office to the end-user's premises.) This surcharge applies regardless of whether or not the access line uses the PA TRS.

The Commission may revise the surcharge more frequently than annually at its discretion.

Tariff revisions will be filed whenever the Commission calculates a new surcharge amount and notifies the Company. The following surcharge rates apply to all customer bills.

**SECTION 4 - SPECIAL SERVICES AND PROGRAMS (Cont'd.)****4.3 Toll Presubscription****4.3.1 General**

Toll Presubscription is a procedure whereby a customer designates to the Telephone Company the IntraLATA and InterLATA Toll Providers, i.e., Interexchange Carriers (IXCs) which the customer wishes to be the carriers of choice for toll calls. Such calls are automatically directed to the designated carrier(s) without the need to use carrier access codes or additional dialing to direct the calls to the designated carrier. Toll presubscription does not prevent a customer, who has presubscribed to a toll carrier, from using carrier access codes or additional dialing to direct calls to an alternative toll carrier on a per call basis.

Each carrier will have one or more access codes assigned to it for various types of service. When an end user selects a carrier as its preferred IXC, only one access code of that carrier may be incorporated into the switching system of the Telephone Company permitting access to that carrier by the end user without dialing an access code. Should the same end user wish to use other services of the same carrier, it will be necessary for the end user to dial the necessary access code(s) to reach that carrier's other service(s).

An IXC must use Feature Group D (FGD) Switched Access Service to qualify as a presubscription toll provider unless prior arrangements have been made with or by the Telephone Company. IXCs must submit an Access Service Request (ASR) to the Telephone Company.

Selection of toll presubscription provider by an end user is subject to the terms and conditions following.

At the option of the IXCs, the nonrecurring charge for a change in toll presubscription, as provided herein, may be billed to the IXCs, instead of the end user. This may involve charges resulting from end-user initial free choice Preferred Interexchange Carrier (PIC), as specified in 4.3.2A following.

---

**SECTION 4 - SPECIAL SERVICES AND PROGRAMS (Cont'd.)****4.3 Toll Presubscription (Cont'd.)****4.3.2 Presubscription Charge Application**

- A. End user choices for toll presubscription:
- Designating an intraLATA and interLATA IXC(s) as primary carrier(s) thereby requiring no access code to access those IXCs' service. End users are not required to choose the same IXC for intraLATA and interLATA toll presubscription. Other non-presubscribed IXCs are accessed by dialing 10XXX, 101XXXX, or other required codes.
  - Choosing no carrier as a primary carrier thus requiring 10XXX or 101XXXX code dialing to access all IXCs.
- B. If a new customer cannot decide upon presubscription IXCs, the Telephone Company may extend a 30-day period following completion of the initial service request to make a choice without charge. In the interim, the customer will be assigned as a 'No-PIC' and must dial an access code to make toll calls.
- C. If an IXC elects to discontinue Feature Group, the IXC is obligated to contact, in writing, all end users who have selected the canceling IXC as their preferred toll provider. The IXC must inform the end users that it is canceling its Feature Group D Service, request that the end user select a new IXC, and state that the canceling IXC will pay the PIC change charge as provided herein. The IXC must provide written notification to the Telephone Company that this activity has taken place.
- Following the IXC's discontinuance of service, the Telephone Company will bill the canceling IXC the change charge for each end user that is currently designated to the IXC at the time of discontinuance.

**4.3 Toll Presubscription (Cont'd.)**

**4.3.2 Presubscription Charge Application (Cont'd.)**

D. An unauthorized PIC change is a change in the presubscribed IXC that the end user denies authorizing. PIC disputes for end users are resolved through an investigative process.

If an unauthorized change in toll presubscription occurs, the IXC making the unauthorized change will be assessed a charge for unauthorized change in presubscription as provided at the end of this section. In addition, the IXC will be assessed the applicable charge for returning the end user to the preferred IXC.

**SECTION 4 - SPECIAL SERVICES AND PROGRAMS (Cont'd.)****4.3 Toll Presubscription (Cont'd.)****4.3.3 End User Charge Discrepancy**

1. When a discrepancy is determined regarding an end user's designation of a presubscription IXC, the following applies depending upon the situation described:
  - A signed letter of authorization takes precedence over any order other than subsequent, direct customer contact with the Telephone Company.
  - When two or more orders are received for an end user line generated by telemarketing, the date field on the mechanized record used to transmit PIC change information will be used as the PIC authorization date. The order with the latest application date/time determines customer choice.
  - If an end user denies requesting a change in toll presubscription as submitted by an IXC, and the IXC is unable to produce a letter of authorization, signed by the end user, the IXC will be assessed all applicable change charges. The nonrecurring change charges are provided herein. The IXC will also be assessed the presubscription change charge as specified herein, which was previously billed to the end user.
2. Verification of Orders for Telemarketing

Neither the IXC or the Telephone Company shall submit a PIC change order generated by outbound telemarketing unless and until the order has first been

**COMPETITIVE LOCAL EXCHANGE CARRIER TARIFF****SECTION 4 - SPECIAL SERVICES AND PROGRAMS (Cont'd.)****4.3 Toll Presubscription (Cont'd.)****4.3.4 PIC Switchback Option (Cont'd.)**

PIC Switchback is an option under which no investigation activities are performed by the Telephone Company when an end user denies requesting a change in primary toll carrier submitted by the IXCs. The IXC participating in PIC Switchback will be billed the PIC Switchback Charge, and the presubscription change charge, as specified herein, to switch the end user to the end user's previous carrier.

When the Telephone Company is contacted by an end user who denies requesting a change in primary toll carrier, the end user will be credited the charge assessed for the disputed change in carrier and will be switched back to the previous IXC at no charge. If this service is made available by the Telephone Company, IXCs may subscribe to or cancel PIC Switchback Service on 30 days' notice to the Telephone Company by submitting a written request. A letter of authorization from the IXC will not be requested or accepted at a later date in the event of dispute of the charges assessed under the PIC Switchback option.

This option in no way relieves an IXC of the F.C.C. requirements for verifying all PIC orders obtained by outbound telemarketing prior to submitting those orders, or instituting steps to obtain verification of orders submitted to the Telephone Company.

In addition, the end user has the option of initiating a complaint to the F.C.C. or the Pennsylvania Public Utility Commission's Bureau of Consumer Services concerning unauthorized changes in toll presubscription.

**SECTION 6 - RATES AND CHARGES****6.1 Rates**

Vero Fiber typically offers and provides services on an individual case basis (“ICB”). Arrangements are typically developed on a case-by-case basis in response to a bona fide special request from a Customer or prospective Customer often to develop a competitive bid for services. ICB rates will be offered to the Customer in writing and on a non-discriminatory basis and will be provided to the Commission upon request. The rates will be made available to similarly situated customers on a non-discriminatory basis.

Except as specifically indicated, the rates set forth in this section are for services where the originating and terminating points are on Company's existing network. In all other situations, special construction charges may apply in order to connect locations to Company's network.

A credit allowance will be made when an interruption occurs because of a failure of any component furnished by the Company under this Tariff.

Two or more interruptions of 15 minutes or more during any one 24-hour period shall be considered as one interruption.

d. Credit to Customer

Credits attributable to any billing period for interruptions of service shall not exceed the total charges for that period for the service and facilities furnished by the Company rendered useless or substantially impaired.

e. "Interruption" Defined

For the purpose of applying this provision, the word "interruption" shall mean the inability to complete calls either incoming or outgoing or both due to equipment malfunction or human errors. **TARIFF FORMAT SHEET**

- A. Page numbering - Page numbers appear in the upper right-hand corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a decimal is added. For example, new pages added between pages 14 and 15 would be 14.1.
- B. Page revision numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Commission. For example, the 4th revised Page 14 cancels the 3rd revised Page 14. Because of various suspension periods, deferrals, etc., the Commission allows in their tariff approval process, the most current page number on file with the Commission is not always the tariff page in effect. Consult the Check Sheet for the page currently in effect.
- C. Paragraph Numbering Sequence -There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2
  - 2.1
  - 2.1.1
  - 2.1.1.1
  - 2.1.1.1.1
  - 2.1.1.1.1.(a)
  - 2.1.1.1.1.(a).I
  - 2.1.1.1.1.(a).I.(i)
  - 2.1.1.1.1.(a).I.(i).(1)
- D. Check Sheets: When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists contained in the tariff, with a cross reference to the current revision number. When new pages are added the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (\*). There will be no other symbols used on this page if these are the only changes made to it (i.e. the format, etc. remains the same, just revised revision levels on some pages). The tariff user should refer to the latest Check Sheet to find out if a particular page is the most current on file with the Commission.

Company's services are furnished subject to the availability of facilities and services and subject to the terms and conditions of this Tariff.
- 2.1.2 Company typically offers and provides services on an individual case basis ("ICB"). Arrangements are typically developed on a case-by-case basis in response to a bona fide special request from a Customer or prospective Customer often to develop a competitive bid for services. Unless otherwise specified, the rates and regulations stated in this Tariff apply only when Company provides service on a non-ICB basis. Company will provide non-ICB basis at its discretion and when required to do so by the Commission. In all instances (whether ICB or non-ICB), services provided by Company shall incur a minimum \$1,000 installation fee, unless a different fee is specified herein.

If practicable, the Company will perform the work at times that will cause the customer the least inconvenience. When the Company is repairing or changing its facilities, it shall take appropriate precautions to avoid unnecessary interruptions of communications of the customer's service.

**2.4 Force Majeure**

2.4.1 Except as provided in Sections 2.4.2 through 2.4.4 below, and notwithstanding any provision or inference to the contrary contained in this Tariff, neither party shall be liable for any failure or suspension of performance due to an act of God; fire; explosion; local, state or federal government action; unusual shortage of materials; strike or other labor unavailability; riot or war (individually, a "force majeure event"). Notwithstanding the foregoing, in no event shall a failure to pay sums required pursuant to this Tariff or any service order(s) be deemed, or postponed by, a force majeure event.

2.4.2 If a failure of performance arising out of a force majeure event shall be solely on the part of Customer and shall be for thirty (30) days or less, then the affected service shall remain in effect and Customer shall remain liable for all charges therefore. If such failure of performance by Company shall be in excess of thirty (30) days ("Failed Performance Period"), then the affected service may be canceled by Customer any time thereafter but no later than twenty (20) days after the end of the Failed Performance Period without further liability of the parties, provided that until such time as Customer cancels the affected service, such service shall remain in effect with no liability on the part of Company; and, until the sooner of such time as Customer so cancels the affected service or resumption of Company's performance after the force majeure event, Customer shall have no liability for recurring charges as to said period of Company's nonperformance as to the affected service.
- 2.4.4 If a failure to perform arising out of a force majeure event shall be on the part of both Customer and Company shall be for thirty (30) days or less, then the affected service shall remain in effect with no liability on the part of Company, and Customer shall have no liability for recurring charges as to the period of Company's nonperformance as to the affected service. If such failure of performance by both parties shall be in excess of thirty (30) days, then the affected service may be canceled by either party without further liability of the parties thereunder any time within twenty (20) days after the end of such force majeure event(s), provided that until the sooner of such time of cancellation or resumption of Company's performance after any force majeure event, Customer shall have no liability for recurring charges as to said period of Carrier's nonperformance as to the affected service.

- 2.5.3 If required for the provision of Company's services, the Customer must provide any equipment space, supporting structure, conduit and electrical power without charge to Company.
- 2.5.4 The Customer is responsible for arranging access to its premises at times mutually agreeable to Company and the Customer when required for Carrier personnel to install, repair, maintain, program, inspect or remove equipment used for or with the provision of Company's services.

If the Federal Communications Commission or some other appropriate certifying body certifies terminal equipment as being technically acceptable for direct electrical connection with interstate communications service, Company will permit such equipment to be connected with its channels without use of protective interface devices. If the Customer fails to maintain the equipment and/or the system properly, with resulting imminent harm to Company equipment, personnel, or the quality of service to other Customers, Company may, upon written notice, require the use of protective equipment at the Customer's expense. - 2.5.9 Customer has the sole responsibility and liability for obtaining at its expense any and all third party access rights (including, without limitation, entrance facilities and interconnection) that Customer desires or requires for Customer to access Customer's customers from or between any Carrier Point of Presence and said customer.

**SECTION 2 - RULES AND REGULATIONS (cont'd.)****2.7 Credit Allowance for Certain Interruption of Services**

- 2.7.1 Interruption means an interruption or degradation of the service provided by Company that violates Company's technical standards for such service as set forth in Customer's Service Agreement including, a failure of any line subscribed to by the Customer hereunder and/or, if applicable, Company-provided equipment or software attached thereto. Interruption shall not include the failure of any service or facilities provided by a Common Carrier or other entity other than the Company. Any Interruption allowance provided within this Tariff by Company shall not apply where service is interrupted by the negligence or willful act of the Customer, or where the Company, pursuant to the terms of this Tariff, terminates service because of non-payment of bills, unlawful or improper use of the Company's facilities or service, or any other reason covered by this Tariff or by applicable law.
- 2.7.2 Customer shall be entitled to a credit for any Interruption of Service exceeding thirty (30) minutes in duration, computed at a rate of 1/1460 of the monthly recurring charge applicable to the service subject to said Interruption for each half hour or majority fraction thereof that such Interruption continues, measured as provided below, after the maintenance time permitted Company pursuant to Section 2.7.5 below; provided that if more than one Interruption occurs within a twenty-four (24) hour period, the length of all such Interruptions shall be aggregated and treated as a single Interruption for purposes of determining the availability and amount of a credit. Interruptions shall be measured from the time that Company receives notice of such Interruption to the time of material restoration of the applicable portion of the service, less any maintenance time permitted Company pursuant to Section 2.7.5 below, and less any time period during which Customer fails to afford access to Company to any necessary facilities provided by Customer for the purpose of investigating and curing such Interruption. Customer may notify Company of an Interruption by telephone, facsimile, electronic mail, courier or any such similar expedited communication methodology. Credit in any billing period shall not exceed the total non-usage charges for that period for the services and facilities furnished by the Company rendered useless or substantially impaired. No allowance shall apply to any non-recurring or usage charges.

**SECTION 2 - RULES AND REGULATIONS (cont'd.)****2.7 Credit Allowance for Certain Interruption of Services (cont'd.)**

- 2.7.4 In the event of required maintenance or Interruption arising out of (1) any problem with any service provided by a party other than Company, or (2) the acts or omissions of Customer or Customer's agents, servants, employees, officers, directors, contractors, subcontractors, invitees or representatives, including, without limitation, Customer's equipment malfunction or improper use, Customer shall not be entitled to any credit. Company shall have no liability to Customer for such maintenance or Interruption. Customer shall continue to be liable for all payments for which Customer is obligated to pay under this Tariff and any and all Service Order(s) as if such Interruption had not occurred. Customer shall pay, promptly on Company's demand, Company's standard maintenance service call fee plus Company's maintenance, repair, and replacement costs arising out of the events, acts, and omissions described in subparagraph (2) of this section. Company's standard maintenance service call fee is \$150.00 per hour, 7:00 a.m. to 5:00 p.m. Monday through Friday, and \$250.00 at all other times and on Holidays, with a two hour minimum billing requirement.

**SECTION 2 - RULES AND REGULATIONS (cont'd.)****2.7 Credit Allowance for Certain Interruption of Services (cont'd.)**

Company shall provide Customer two (2) business days' notice (except in the event of an emergency no notice shall be required) prior to its undertaking any maintenance which may be reasonably expected to result in Interruption of Service; such notice shall be provided via telephone, facsimile, electronic mail, courier or any such similar expedited communications methodology, without the need for a written duplicative notice being delivered. Maintenance required by Company which results in Interruption of Service shall not entitle Customer to a credit if such maintenance is completed as soon as reasonably practicable and does not exceed six (6) hours (said six-hour period to be measured from the time of Company's receipt of notice as to the need for required maintenance, except as to routine maintenance which shall be measured from the beginning of the subject Interruption); in the event such maintenance exceeds four (4) hours, Customer's sole remedy shall be credit as provided above.

The Company's obligation to furnish, or to continue to furnish, telecommunications service is also subject to availability and dependent upon its ability to obtain, retain, and maintain, without unreasonable expense, suitable rights of way and facilities required to furnish and maintain that service.

**2.14 Special Construction**

- 2.14.1 When it is necessary for the Company to provide outside plant construction, either on a public road or on private property, which is other than that usually provided for the area and class of service furnished, the customer or other party requiring such special construction is required to pay the difference between the estimated cost of usual construction and the estimated cost of the type of construction provided under the conditions specified herein. These costs are calculated as the cost to the Company plus an administrative charge, minus any credit for salvage or reuse. Such special construction includes, but is not limited to:
- (1) underground construction where aerial construction would usually be provided;
  - (2) submarine cable;
  - (3) greater quantity or a different type of facilities than that which the Company would otherwise construct in order to fulfill the customer's initial requirements for service;
  - (4) routing facilities different from that which the Company would normally utilize;  
or
  - (5) expedition of the construction of facilities at greater expense than would otherwise be incurred.

**SECTION 3 - DESCRIPTION OF SERVICES****3.1 Fiber Optic Broadband Services**

Vero Fiber will provide limited facilities-based local exchange service, specifically by primarily providing essential broadband infrastructure to schools and libraries by connecting district locations with fiber optic cable that provides reliable, scaleable, and secure connectivity through the federal E-rate program. Applicant intends to deliver an aggregation of technologies utilizing fiber optic cable depending on the customer's location and needs. Applicant will offer leasing of dedicated fiber optic strands to allow schools and libraries to create their own privately-operated fiber optic network. This type of dedicated, purpose-built dark fiber networks are physically separate from other customers and controlled by the end-user. Applicant will also provide private lit fiber network for schools and libraries wanting assistance with running their networks and associated equipment.

**SECTION 4 - RATES AND CHARGES****4.1 Rates**

ICB rates will be offered to the Customer in writing and on a non-discriminatory basis and will be provided to the Commission upon request. The rates will be made available to similarly situated customers on a non-discriminatory basis.

Except as specifically indicated, the rates set forth in this section are for services where the originating and terminating points are on Company's existing network. In all other situations, special construction charges may apply in order to connect locations to Company's network.
