

The York Water Company

September 2, 2022

Rosemary Chiavetta, Secretary
Pennsylvania Public Utility Commission
Commonwealth Keystone Building
400 North Street, 2nd Floor North
P.O. Box 3265
Harrisburg, PA 17105-3265

Dear Secretary Chiavetta:

In accordance with the Commission Order at Docket A-2021-3029945, The York Water Company is filing revised Tariff Supplement No. 17 to The York Water Company – Wastewater – PA PUC No. 1 incorporating a portion of Greene, Hamilton, and Letterkenny Townships into its service territory and adding a new rate schedule for the Greene, Hamilton, and Letterkenny Township customers. The York Water Company began to provide wastewater service to these customers on August 29, 2022. If anything else is needed, please let me know.

Sincerely,

Matthew E. Poff
Chief Financial Officer

	<u>Per Month</u>	<u>Rate</u>
Greene, Hamilton, and Letterkenny Township Area	1 st 4,000 Gals	\$40.00
Over	4,000 Gals	\$5.00 per 1,000 Gals.

Section A: Wastewater Service Charge

Imposition of Charge: A wastewater service charge is hereby imposed upon the owner of each improved property which is connected to the wastewater system, whether such use is direct or indirect, and shall be payable as provided herein.

Wastewater Service Charge Payable by Owner of Improved Property Connected to Wastewater System: The wastewater service charge shall be payable by the owner of each improved property connected to the wastewater system commencing with the earlier of (a) the date of actual physical connection of an improved property to the wastewater system, or (b) Forty-five (45) days from the date indicated on the notice to connect.

The wastewater service charge applicable to any improved property connected to the wastewater system shall be calculated, imposed, and collected on the basis of metered usage as indicated below where accurate usage information is available. Where accurate usage information is not available, one of the other methods set forth below may be utilized in the sole discretion of the Company:

Metered Rate Basis:

Where accurate metered usage data is available, the wastewater service charge for customers connected to the wastewater system will be determined as follows:

Fixed Customer Charge: \$111.85 per month (includes the equivalent of one EDU of usage or 350 gallons per day applied to each monthly billing period, to be calculated as 350 times the number of days in the billing period); plus
Consumption Charge: \$15.44 per thousand gallons consumed in each month for the gallonage included in excess of the amount included in the fixed customer charge.

Calculation of Metered Consumption: Where the Customer purchases water from York Water Company, the Company will utilize York Water Company's metered consumption as the basis for its charges. If the Customer is not served by York Water Company or if the Customer expects that its wastewater usage will differ significantly from its water usage, an approved meter (or meters) shall be installed by the Customer as directed by the Company, to meter water and/or wastewater usage as required to implement the Schedule of Rates listed herein. The meter shall be installed and kept in service so that all usage is recorded. Upon discovery of a meter interruption, the Company will issue a billing adjustment to be determined by the Company as appropriate and in its sole discretion, except as otherwise ordered by the Commission.

Flat Rate Basis:

Each owner of improved property and/or customer billed on a flat rate basis shall be charged a wastewater service charge as a specific amount per EDU applicable to such improved property, as determined by the Company, from time to time. The number of EDU's applicable to each improved property shall be determined as follows:

Description of Improved Property	Unit of Measurement	Number of EDU's per Unit of Measurement
Residential Dwelling (year-round or seasonal)	Each Dwelling Unit	1
Retail Store, Professional Office or other Commercial Enterprise	1 to 10 employees Each additional 10 employees or fraction thereof	1 1
Restaurant, Club, Tavern or Other Retail Food or Drink	1 to 10 customer seats Each additional 10 seats or fraction thereof	1 1
Automobile Service Station or Commercial Repair Shop	1 to 10 employees Each additional 10 employees or fraction thereof	1 1
Beauty Parlor or Barber Shop (whether or not attached to or part of a dwelling unit)	First Chair Each additional chair	1 1
Multiple Family Dwelling and Apartments	Each Dwelling Unit or Apartment	1
Any User having a Commercial Garbage Grinder (i.e., >1 hp)	Each garbage grinder Each additional garbage grinder	1 1
Laundromat	1 to 3 washing machines Each additional 3 machines or fraction thereof	1 1
Car Wash (can be in Addition to any other Facility)	1 or 2 bays Each additional bay	1 1

Greene, Hamilton, and Letterkenny Township Area CONTINUED

(C)

The number of EDU's applicable to educational and institutional establishments shall be computed on the highest monthly average daily attendance of pupils (plus faculty, administrators, and staff) for the twelve (12) months preceding the date of the applicable billing period. The owners of such facilities shall be responsible for continuously advising the Company, in writing, of the number of pupils, faculty, administrators and staff in attendance, as an average daily figure, and at any other time upon written request by the Company.

The number of EDU's applicable to retail stores, professional offices and other commercial establishments shall be computed on the basis of the average number of full and part-time employees (including the owner(s) or employer(s)) for the calendar quarter preceding the date of the quarter billing period. The owners of such facilities upon written request shall be responsible for advising the Company, in writing, of the number of employees.

To the extent that the use of any improved property is not adequately described above, the Company may use appropriate guidelines for determining domestic sanitary wastewater flows as promulgated by the Pennsylvania Department of Environmental Protection, at 25 Pa. Code §73.17. Sewage flows, from time to time.

If the use or classification of any improved property is proposed to be changed by the owner, the owner shall notify the Company, in writing, thirty (30) days before such change is to take place.

If the use or classification of any improved property changes, within a billing period, the Company will prorate the wastewater service charge. The appropriate credit or additional charge will appear on the statement for the next succeeding billing period.

Flat Rate Charges: The monthly wastewater service charges for connected industrial and commercial customers shall be \$112 per EDU. The monthly wastewater service charge for connected residential customers shall be \$40 per EDU.

Estimated Rate Basis: The wastewater service charge may be based upon the Company's estimate of potable water consumed or domestic sanitary wastewater or industrial wastes discharged by any improved property in accordance with the metered rate schedule provided herein.

Wastewater Service Charge by Owner of Multiple Use Improved Property: In the case of multiple use improved property sharing a common connection to the wastewater system or a common structure, each such classification of improved property shall pay a separate wastewater service charge, as though it were housed in a separate structure and had a direct and separate connection to the wastewater system, computed in accordance with the provisions of this Part.

(C) Indicates Change

Greene, Hamilton, and Letterkenny Township Area CONTINUED

(C)

Strength of Waste Surcharge: A customer which discharges commercial or industrial wastes to the wastewater system having a B.O.D. greater than two hundred (200) milligrams per liter (mg/1), a suspended solids content greater than two hundred and forty (240) mg/1, a dissolved solids content greater than five hundred (560) mg/1, a total solids content greater than eight hundred (800) mg/1, a total phosphorus as P content greater than ten (10) mg/1 or an ammonia nitrogen as N content greater than fifteen (15) mg/1, shall pay a strength of waste surcharge, computed in accordance with provisions of this Part, in addition to its applicable volume charge. The strength of the wastewater to be used for establishing the amount of this surcharge shall be determined periodically at the discretion of the Company either: by suitable sampling and analysis of such wastewaters for a consecutive three (3) day period during a time of normal business operation; or from estimates made by the Company; or from known relationships of products produced to strengths of such wastewaters for those commercial establishments and industries where such factors have been established.

In establishing such wastewater strengths for surcharge purposes by analysis, analyses shall be made in accordance with 40 CFR Part 136. The applicable surcharge will be to increase the otherwise applicable charges to the customer by the percentage by which the strength of the waste exceeds each measured parameter as set forth in this paragraph. Thus, for example, a B.O.D. of 400 mg/1 will double the customer's rates. Owner and/or Customer to Provide Information to Company: The owner of any improved property and/or customer discharging wastewater into the wastewater system shall furnish to the Company all information deemed essential or appropriate by the Company for the determination of all applicable wastewater service charges and surcharges. The costs of obtaining such information shall be borne by such owner of the improved property and/or customer. In the event of the failure of the owner and/or customer to provide adequate information, the Company shall estimate the applicable wastewater service charge and surcharge based upon available information or until such time as adequate information is received. There shall be no rebate of past payment if the owner and/or customer refusal to provide such information results in overpayment.

Section B: Prohibited Infiltration/Inflow Waters Charge

The owner of an improved property who fails to repair or correct the defects causing infiltration/inflow waters to flow into the wastewater system within ninety (90) days, after having received proper notice from the Company, will be assessed a fine of one hundred dollars (\$100.00) per day, until such remedial action is completed.

Section C: Failure to Cleanup and Remedy Prohibited Discharges Charge

Failure of the owner of an improved property and/or customer to satisfactorily cleanup and remedy any prohibited discharge within twenty-four (24) hours will result in a fine of five hundred dollars (\$500.00) per day for each day the contamination exists. The owner and/or customer shall additionally be responsible for payment of the remedial cleanup costs, as well as any costs to or damages or losses suffered by the Company as a result of any interference in operation of the wastewater system.
