VES and its affiliates do not have any existing, pending, or past rulings, judgments, contingent liabilities, and revocation of authority, regulatory investigations, or any other matters that we believe would adversely impact our financial or operations status, or adversely affect our ability to provide retail electrical or natural gas supply services for which we are seeking to provide services as a retail electric and/or retail natural gas service provider.

The Company, from time to time, received and responded to customer inquiries that have been elevated to more formal complaints or investigations with the regulatory bodies of the states in which we do business at the entity level. In the last five (5) years, across five (5) of the named affiliates below, 80 total formal customer complaints were received from various jurisdictions; sixteen (16) were received from the Illinois Commerce Commission, eight (8) from the New York Department of Public Service, fifty-five (55) from the Pennsylvania Public Utilities Commission and one (1) from the Public Utilities Commission of Ohio. Seventy-nine of those matters are closed with no further action required, one recently received matter remains open.
