Secretary Chiavetta,

Greetings.

My name is Steven Grugin and I am representing EDWA Customers as one of several community advocates for our area. I am forwarding on to you the Petition signatures of customers of East Dunkard water authority signed in opposition to PUC fine being imposed upon us by the authority. We the customers are already dealing with years of undo hardship of the water authority and do not feel or believe that we should have continued undo hardship by the fine being imposed upon our bills as customers. We stand unified by the majority of signatures which is well over half of the customers service area base of 1594 customers with well over 870 signatures, which is a majority with half of the service area being 797 with more customers signing each week. We ask for the fine to be dropped so that we are not imposed this hardship with the already tremendous issues we have been facing in our area. We are working closely now with our authority on the issues forward and hope with help from input from our community at weekly meetings, that the issues of past can be remedied and full transparency brought to the issues we face together not only with a new water board but also issues that are still being addressed forward. Our customers deserve better and have the right to clean water, to respect and full transparency in all directions as we continue to address all issues forward with our water authority and the future for all of our community.

Thank you for your attention in this matter.

Steven Grugin
