Re: Pro Forma Distribution System Improvement Charge (DSIC) Tariff Supplement

Dear Mr. Webster:

On December 1, 2022, PECO Energy Company (the Company) filed a pro forma supplement to Tariff Electric - Pa. P.U.C. No. 7 in compliance with the Commission's Supplemental Implementation Order entered October 27, 2022 (Order), at Docket No. M-2012-2293611. The pro forma supplement revises the calculation methodology for the Company's DSIC surcharge. The filing also corrects a typographical error on page 48, which references natural gas.

Commission Staff has reviewed the pro forma tariff revisions and found them to be sufficient and in compliance with the Order, with the exception of the deficiencies listed below.

**Deficiencies:**

Next to the definition for PQR, remove the "NOTE" and state specifically whether quarterly revenues will be determined on the basis of the summation of projected revenues for the applicable three-month period or one-fourth of projected annual revenues.

**The Company is directed to file the pro forma tariff revisions, rectifying the deficiencies listed above, along with its next quarterly DSIC rate update. This necessitates that the Company must file a tariff supplement with its next quarterly DSIC rate update even if the rate will remain the same.**

If you have any questions in this matter, please contact Marissa Boyle, Bureau of Technical Utility Services, at (717) 787-7237 or [maboyle@pa.gov](mailto:maboyle@pa.gov).

Sincerely,

Rosemary Chiavetta  
Secretary
