NOTICE OF PROPOSED ACQUISITION AND RATE BASE ADDITION

Docket No. A-2022-3033138

Dear [Contributing Municipality]:

On [DATE], the Pennsylvania Public Utility Commission (PUC) conditionally accepted for filing the application of Aqua Pennsylvania Wastewater, Inc. (Aqua) for approval to acquire the City of Beaver Falls (Beaver Falls) wastewater system assets. We look forward to serving the Beaver Falls community in the future. Beaver Falls serves approximately 3,200 customers in Beaver County, Pennsylvania. Aqua's application also requests that the PUC authorize an addition of up to \$41.25 million to Aqua's rate base pursuant to 66 Pa. C.S. § 1329. A utility's rate base is the value of property used by the utility to provide service to its customers and is one of several components used to establish a utility's customer rates.

Aqua is not requesting a rate increase in this acquisition proceeding. This acquisition will not immediately, but may in the future, affect water and/or wastewater bills of Aqua customers, including the new Beaver Falls wastewater customers. Aqua is not requesting a rate increase as part of the acquisition. Your rates will not change as a result of this transaction until the conclusion of an Aqua rate case where Aqua includes the Beaver Falls system and requests and receives PUC approval to increase its rates. At that time, based on a preliminary analysis of the potential rate impacts, Aqua estimates that the rates of the average customer could increase. The amount of the increase will be determined in Aqua's next base rate case and will be dependent on how the PUC chooses to apportion the increase among Aqua's acquired and existing customers.

Aqua is required to provide a non-binding estimated incremental rate effect of the proposed rate base addition to customers. Aqua's estimates, based on average quarterly usage of 6,354,460 of the Contributing Municipalities¹ to the Beaver Falls system, quarterly rates could increase \$50,223.20 per quarter (or 174.09%), assuming no cost sharing with other Aqua customers. If costs are shared with other Aqua customers, the projected rate impact could be \$34,408.71 per quarter (or 119.27%). Aqua would like to discuss these potential rate impacts further with you and the bulk wastewater service agreement to establish uniform service for all the Contributing Municipalities.

The amounts stated above could change and will depend on how the PUC chooses to apportion any increase among the types of service, rate zones, and classes of customers. The PUC has allowed some form of cost sharing with existing customers based upon prior cases.

PUC ROLE

The state agency which approves acquisitions and rates for regulated public utilities is the PUC. The PUC will review and investigate the proposed acquisition and requested \$41.25 million in additional rate base. After examining the evidence, the PUC may approve, modify or deny the acquisition and may approve or modify the \$41.25 million addition to rate base. The PUC will issue a decision on the application on or around [DATE].
