Mr. Duane McKee
Executive Director
Butler Area Sewer Authority
100 Litman Road
Butler, PA 16001

Dear Mr. McKee:

Subject: Butler Area Sewer Authority Act 537 Plan Compliance

The Butler Area Sewer Authority serves seven communities in central Butler County. The service area includes the entire City of Butler plus portions of the surrounding municipalities of Butler Township, Center Township, Connoquenessing Township, East Butler Borough, Oakland Township, and Summit Township. The Authority currently owns, operates, and maintains a ten million gallons a day capacity (average daily flow) wastewater treatment plant, operates 224 miles of gravity of collector sewer, and eight miles of pressurized sewer pipe.

The Butler Area Sewer Authority's Act 537 was updated over a period from 2008 and 2009, and ultimately approved by the Pennsylvania Department of Environmental Protection in June of 2009. The Authority subsequently embarked on an Act 537 Implementation Project to address hydraulic overloads in the conveyance system. Construction for this project was completed in 2014 and satisfactorily addressed the requirements of the plan. The Authority remains generally compliant with its current Act 537 plan.

Should you need any further assistance on this matter, please do not hesitate to contact me.

Yours faithfully,

A handwritten signature in black ink that reads "Colin Lampark".

Colin Lampark, P.E.
Senior Project Manager
