Response:

 Total Gas Capital Expenditures in 2022 were approximately \$343.0M (including allocated Common Capital Expenditures) as outlined below. This compares to the 2022 rate case budget of \$316.9M.

PECO's Capital Expenditures were over budget in 2022 primarily due to main and service replacement projects associated with the Natural Gas Long Term Infrastructure Improvement Plan, as well as Gas New Business spend.

1b. Total Gas Capital Additions in 2022 were \$306.8M as outlined below. This compares to the 2022 rate case budget of \$412.2M.

PECO's Capital Additions were under budget primarily due to the in-service timing of the Natural Gas Reliability Project impacted by ongoing legal delays of (\$127M), offset by \$22M of higher closings primarily related to the Natural Gas Long Term Infrastructure Improvement Plan and Gas New Business.
