PPL ELECTRIC UTILITIES CORPORATION

Background

PPL Electric Utilities Corporation (PPL or company) is a wholly-owned subsidiary of PPL Corporation. PPL furnishes electric distribution, transmission, and default supply services to about 1.4 million customers throughout eastern and central Pennsylvania. According to PPL's annual reports filed with the Pennsylvania Public Utility Commission (PUC or Commission), for the years 2021 and 2020, PPL's total electric revenue from residential, commercial, and industrial customers was \$1,958,678,600 and \$1,795,225,858, respectively.

By Order entered on October 27, 2016, at Docket No. P-2016-2526627, the Commission approved PPL's Default Service Program (DSP) for the period June 1, 2017 through May 31, 2021. Subsequently, by Order entered on December 17, 2020, at Docket No. P-2020-3019356, the Commission approved PPL's DSP for June 1, 2021 through May 31, 2025.

Independent Auditor's Report to the Pennsylvania Public Utility Commission

Report on the Financial Statements

We have audited PPL Electric Utilities Corporation's Statements of Generation Supply Charge-1 Over/(Under) Collections (Section 1307(e)) for the 12-month periods ended March 31, 2021 and March 31, 2020.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. These standards require that we plan and perform the audit to obtain reasonable assurance about whether these statements are free from material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in these statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of these statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of these statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal controls. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of these statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the Generation Supply Charge-1 Statements, referred to above, present fairly, in all material respects, the Generation Supply Charge-1 revenue and expenses of PPL Electric Utilities Corporation as of March 31, 2021 and March 31, 2020, in conformity with accounting principles generally accepted in the United States of America and the requirements of the Pennsylvania Public Utility Commission.

Report on Other Legal and Regulatory Requirements

The accompanying statements were prepared for the purpose of complying with the rules and regulations of the Pennsylvania Public Utility Commission and are not intended to be a complete presentation of PPL Electric Utilities Corporation's revenue and expenses.

PPL ELECTRIC UTILITIES CORPORATION

Notes to the Financial Statements

1 – Statements

The Generation Supply Charge-1 (GSC-1) Over/(Under) Collections presented in this report are condensed from the officially filed statements. The audit was conducted on PPL's officially filed 1307(e) statements submitted to the PUC in accordance with Section 1307(e)(1) of the Public Utility Code on April 30, 2021 and April 30, 2020. The statements are available on the PUC's website (<http://www.puc.pa.gov>) at Docket Nos. M-2021-3025646 and M-2020-3019639.

2 – GSC-1 Revenue

GSC-1 Revenue is calculated by applying the applicable GSC-1 rate, excluding E-Factor, to each kilowatt-hour (kWh) supplied to each Residential and Small Commercial and Industrial (C&I) customer who takes Basic Utility Supply Service (BUSS), as defined in the GSC-1 Tariff Rider.

3 – GSC-1 Expenses

GSC-1 Expenses are the expenses incurred to provide generation supply service to Residential and Small C&I customers receiving default service. GSC-1 expenses include payments to power suppliers (i.e., RFP Bidders), energy procurement expenses related to PJM Reliability Pricing Model capacity costs, other PJM-related expenses, net metering expenses, and administrative expenses.

4 – Over/(Under) Collection

The Over/(Under) Collection is the difference between the GSC-1 Revenue and the GSC-1 Expenses. The resulting amount represents the portion of GSC-1 Revenue refundable to or GSC-1 Expenses recoverable from customers through subsequent GSC-1 rates. Differences arise for two primary reasons:

- Variations between the actual monthly volumes billed to customers and the estimates used to determine the GSC-1 rates; and,
- Variations between the actual GSC-1 expenses and the estimates used to determine the GSC-1 rates.

Acknowledgement

We wish to express our appreciation to the officers and staff of PPL Electric Utilities Corporation for their cooperation and assistance. The audit was conducted by Keith L. Mather, assisted by Dawn R. Anderson.
