A-2023-3040770

**TO ALL PARTIES OF RECORD**

Application of Verizon Pennsylvania, LLC for approval of the alteration of the crossing where State Route 4049 (North Main Street) crosses, at grade, a single track of Pittsburgh and Ohio Central Railroad (DOT 510 337 L) by the installation of an aerial fiber optic cable in an innerduct in South Strabane Township, Washington County.

To Whom It May Concern:

By application received by the Commission on May 19, 2023, and revised on May 25, 2023, Verizon Pennsylvania LLC (Verizon) seeks Commission approval to alter the at-grade crossing (DOT 510 337 L) by the installation of a single aerial fiber optic cable in an innerduct, where State Route (SR) 4049 (North Main Street) crosses a single track of Pittsburgh and Ohio Railroad Company, in South Strabane Township, Washington County.

The new aerial line in the innerduct will be attached to existing Verizon poles located north and south of the crossing. The new line will provide a minimum vertical clearance of 27 feet from the top of rail to the new cable.

The Commission hereby establishes its jurisdictional limits at the subject crossing as the area within the confines of the railroad right-of-way and the highway right-of-way.

In its application, Verizon states that the proposed aerial line is necessary to update its facilities. Verizon will be directed to perform the necessary installation, provide for maintenance and protection of highway and pedestrian traffic during installation and accept future maintenance responsibility for the utility pole, at its sole cost and expense. The cost of the project is anticipated to be \$5,000.

All work is to be performed in accordance with the plans entitled: "PITTSBURGH AND OHIO CENTRAL RAILROAD PERMIT PERMIT SKETCH 1A6M4HX" consisting of two (2) sheets submitted to the Commission with the application with the revised application on May 25, 2023.

Verizon has served a copy of the application and plan on Washington County, South Strabane Township, West Penn Power, Pittsburgh and Ohio Central Railroad, and the Pennsylvania Department of Transportation. All parties in interest were queried by letter dated May 31, 2023, sent via email as to any objection to the subject application and plans. None of the parties have responded with any objection to the subject application or plans.

The Commission has exclusive jurisdiction in crossing alterations and is the final arbiter of any fees associated with a crossing application. Any conditions, including fees associated with a crossing application, must be approved by the Commission.

Upon full consideration of the matters involved, we find that a hearing is not necessary and that a Secretarial Letter may be issued approving the application.

The Commission issues this Secretarial Letter in accordance with Section 2702 of the Public Utility Code and finds that the alteration of the crossing is necessary and proper for the service, accommodation, convenience or safety of the public.

The application of Verizon Pennsylvania, LLC, is approved as herein directed:

1. The caption of the subject proceeding is hereby revised as shown herein.
2.
