*Taking title to electricity

On May 25, 2023, Planet Energy (Pennsylvania) Corporation (Planet Energy) filed an application to abandon its EGS license as a supplier in Pennsylvania. On June 1, 2023, the Bureau of Investigation & Enforcement (BI&E) filed a formal complaint against Planet Energy at Docket No. C-2023-3041126. In the formal complaint, BI&E alleges that Planet Energy violated Pennsylvania law and Commission regulations. Given BI&E’s pending complaint, the Commission shall refrain from cancelling or granting an abandonment of Planet Energy’s EGS license, until the Commission is assured that all obligations of Planet Energy to Pennsylvania consumers and the Commonwealth have been properly met. Accordingly, we will suspend Planet Energy’s license until final resolution of the pending formal complaint. Additionally, Planet Energy may not enroll any new customers for the duration of the suspension.

The Tentative Order has become Final by operation of law. The Electric Generation Supplier License held by the company listed in the Table 2 - Supplier Cancellation is cancelled and shall be stricken from all active utility lists maintained by the Commission’s Bureau of Technical Utility Services and the Assessment Section of the Bureau of Administration, removed from the Commission’s website, and notifications be sent to all electric distribution companies in which the

Electric Generation Suppliers are licensed to do business. The Electric Generation Supplier License held by the company listed in the Table 3 – Supplier Suspension is suspended until the Commission is assured that all obligations of Planet Energy to Pennsylvania consumers and the Commonwealth have been properly met.
