RE: PUC docket number A-2022-3037047

Dear Commission Members:

I hereby protest the proposed rate increase by PA American Water under PUC docket number A-2022-3037047.

In their request they mention the purchasing of the Butler Area Sewer Authority wastewater treatment system. As a former Plains Township Commissioner and a retired plant controller I do not agree that *the cost of purchasing assets outside of my service area should have to be paid by myself or others outside the service area.*

Here in Plains Township we are serviced by the Wyoming Valley and Plains Township Sewer Authorities. As such, we, the users, are paying fees to both for their services.

The Butler Area facility does not provide services to me and others in the Wyoming Valley or Luzerne County. Any costs associated with the Butler Area facility, including purchase, should be levied separately on the users of the facilities not us.

In summary, the Butler Area operations should operate and be funded by its users and separate from the water system. Perform your duties to protect the public and deny this request.

In our area PA American Water should strive to increase the quality of their customer service and not their rates. Thank you, PUC members, for your consideration.

Sincerely yours,

Ronald Filippini
