**Re: Letter of Notification of Duquesne Light Company for the Replacement and Relocation of Transmission Structures on the Z-71 and Z-88 138 kV Transmission Line Circuits in Allegheny County, Pennsylvania. Docket No. A-2022-3030453**

Dear Secretary Chiavetta,

On January 11, 2022, Duquesne Light Company (“Duquesne Light” or the “Company”) filed a Letter of Notification (“LON”) for approval to replace and relocate transmission structures on the Z-71 and Z-78 138 kV Transmission Line circuits in Allegheny County, Pennsylvania (“Project”).

At the time Duquesne Light filed the LON for the Project, the Company contemplated a construction start date in September 2022 and an in-service date September 2023. Due to ongoing negotiations for the easement(s) required to construct the Project, Duquesne Light was unable to begin construction in September 2022. The required easement agreement(s) are expected to be finalized by the end of August, 2023. As such, the Company expects to begin construction in September 2023 to achieve an in-service date of December 31, 2023. No other aspects of the approved LON are expected to change.

Pursuant to the June 16, 2022 Order approving the LON, the Company will file the final Project costs with the Commission upon completion of the Project.

Please feel free to contact me with any questions, comments, or concerns.

Respectfully Submitted,

A handwritten signature in blue ink, appearing to read "Emily M. Farah".
