Re: C.18838

Dear Mr. McElwee:

In response to the Order issued by the Commission on October 21, 1975 relating to the Graham Avenue Bridge, the City has accepted the proposal of Jack L. McSherry, P.E. for Engineering Services for the project.

The City requests an extension of the March 30, 1976 deadline for submission in the Commission's Order. Unfortunately, the first set of engineering proposals received were rejected due to a wide variation in cost and scope of services. The requirements were tightened and the second set of proposals were more similar in content and fee.

Mr. McSherry has advised the City that he can complete the construction plans within three and one-half months. The City therefore requests an extension to August 15, 1976 for submission to the Commission.

Thank you for your consideration and cooperation.

Very truly yours,

/s/ Donald Thompson
