Re: Pike County Light & Power Company Unaccounted for Gas Report

Dear Secretary Chiavetta,

Attached is Pike County Light & Power Company's ("PCL&P") annual report of unaccounted gas levels for its distribution system for the twelve months ended August 31, 2023.

Gas is received into PCL&P's distribution system from the Pike County Meter Station located in Port Jervis, New York. From there, PCL&P delivers this gas to its customers located in Matamoras and Westfall, Pennsylvania. One adjustment is included in this report. This adjustment is a pressure adjustment, to account for the geographic elevation of PCL&P's customer meters. PCL&P does not operate a transmission system, storage system, or production/gathering system, so only a distribution system report is provided.

Thank you,

Distribution System

Specify units for quantity of gas: MCF

A. Gas Received

From Production Facilities	0
From Transmission Facilities	0
From Storage Facilities	0
From Interstate Pipelines directly into the Distribution System	0
From Other Sources (i.e. Propane injections, etc)	134172

Total Gas Received by the Distribution System 134172

B. Gas Delivered

To Customers (i.e., Transportation, Residential, Commercial, Industrial, etc.)	133,102.83
To Storage	0
To Transmission System	0
Other	0

Total Gas Delivered by the Distribution System 133102.834

C. Adjustment Example

Pressure/Temperature Adjustments	-698.4277
Located & Repaired Breaks in Mains & Services	
Company use	
Purging/Other Construction Activities	
Heat Content	
Meter Read Cycle Adjustments
